Executive Summary

The Kern Water Bank (KWB) occupies approximately 20,600 acres in the southern San Joaquin Valley. It is operated under a Habitat Conservation Plan/Natural Community Conservation Plan (HCP/NCCP) which prescribes reporting and planning requirements, adaptive management methodologies, and avoidance and mitigation measures.

The KWB is well located to provide significant benefits to wildlife in the southern San Joaquin Valley. The water banking activities of the Kern Water Bank have re-established a thriving intermittent wetland habitat along the Pacific Flyway that is ideal for water birds, and the areas outside of the recharge basins provide excellent upland habitat for raptors, other migratory birds, terrestrial wildlife, and rare and endangered plants. Ornithological studies completed during the fall and winter of 2011, throughout 2017, and in 2019 indicate 90 different species of water birds were present with populations reaching 35,000 individuals. The studies conclude that: “Overall, in terms of bird abundance, species diversity, acreage, location and habitat diversity, [the KWB] is one of the most important freshwater wetlands in California, especially when compared to other privately managed wetlands.” A study of the ecology of the recharge basins in 2017 indicates they provide a productive, healthy environment for aquatic wildlife.

Upland habitat has also been re-established on lands once farmed using the adaptive management methods prescribed in the HCP/NCCP. These lands support many special-status species, including Tipton kangaroo rats, burrowing owls, tricolored blackbirds, and San Joaquin woolly threads. Most recently, San Joaquin antelope squirrels have been sighted on the Conservation Bank sector. The careful implementation of adaptive management techniques has significantly improved upland habitat value – follow-up ornithological studies indicate that even when basins are dry, the KWB is an important area of upland habitat in terms of bird abundance, species diversity (131 species have been identified), and habitat diversity. Overall, the KWB has become a very important wildlife resource of regional significance.

This report documents water banking activities in 2021, provides a management plan for 2022, summarizes Conservation Bank transactions, and describes other HCP/NCCP compliance measures.

1.0 Introduction

The Kern Water Bank (KWB) occupies approximately 20,600¹ acres in the southern San Joaquin Valley of California (Figure 1). The Water Bank is operated by the Kern Water Bank Authority (KWBA) under a Habitat Conservation Plan/Natural Community Conservation Plan (HCP/NCCP) executed on October 2, 1997. The HCP/NCCP provides for the overall management of Water Bank lands with the stated purpose of “accomplish[ing] both water conservation and environmental objectives. The primary water conservation objective is the storage of water in the aquifer during times of surplus for recovery during times of shortage. The primary environmental objective is to set aside large areas of the KWB for threatened, endangered, and sensitive species and to implement a program to protect and enhance the habitat.” The keystone of the HCP/NCCP is balanced achievement of both goals, and issuance of “incidental take permits” by USFWS and “management authorizations” by CDFW applied to specific activities and use of the KWB.

Since the implementation of the HCP/NCCP, KWBA has complied with its’ preservation, construction and operational, monitoring, adaptive management, and reporting requirements. The Implementation Agreement (IA) requires the submittal of an Annual Report of the previous year’s activities and a Management Plan describing the coming year’s activities. Specifically, the Annual Report is to provide the following information:²

- 1) Summary of all activities that have taken place on the Kern Water Bank in the previous year, including construction, operation and maintenance of water recharge and water extraction facilities,
- 2) Summary of all Take that has occurred within the previous year, including Take of Covered Species and Covered Habitat,
- 3) Summary of all mitigation measures implemented in the previous year,
- 4) Results of completed studies,
- 5) Status of ongoing activities,

¹ This includes approximately 655 acres in the Cheng and Nikkel parcels added to the property with a minor amendment to the KWB HCP/NCCP (see section 2.0).

² Implementation Agreement, Section 3.3.4.

- 6) Results from the implementation of monitoring programs,
- 7) Results from the implementation of avoidance and minimization measures,
- 8) Report regarding the status of the Viability Fund,
- 9) Copy of KWBA's annual financial report, and
- 10) Certification by KWBA officer that the information in the report is "true, accurate and complete."

The Management Plan is to describe the operational activities contemplated for the KWB during the next year, including construction, maintenance and repair of the infrastructure, and a description of the adaptive management activities to be carried out.³

In addition to the reporting requirement in the IA, the Conservation Bank Agreement (CBA) requires the submittal of an annual report detailing Conservation Bank transactions.

³ Implementation Agreement, Section 3.3.5.

This report is intended to meet the reporting requirements of the IA and CBA. It consists of nine sections:

- Section 1 is this introduction, which reviews the objectives of the HCP/NCCP and describes the basis for the report,
- Section 2 discusses a Minor Amendment to the HCP/NCCP,
- Section 3 includes a summary of activities completed in the 2021 reporting year (May 1, 2021 – April 30, 2022) and the status of ongoing activities,
- Section 4 provides a summary of take, a summary of mitigation measures implemented during the reporting year, and the results of avoidance and minimization measures,
- Section 5 discusses adaptive management and the results of monitoring programs and completed studies,
- Section 6 is the Conservation Bank Report for the calendar year 2021,
- Section 7 is the Management Plan,
- Section 8 discusses the Viability Fund and the annual financial report for the calendar year 2021, and
- Section 9 is the certification regarding the accuracy of the report.

2.0 Minor Amendment to the KWB HCP/NCCP

A minor amendment to the HCP/NCCP was fully executed on October 1, 2019. The amendment provided for the inclusion of additional property into the Permit Area (the Cheng and Nikkel parcels, approximately 655 acres), an increase in the Recharge Basin area, a modification of the Threatened/Endangered Species Viability Fund, and the construction of a bike path by the County of Kern on a portion of KWB lands. A copy of the amendment is included in Appendix A.

3.0 Summary of 2021 Activities

Water bank operations in 2021 were focused primarily on recovery activities throughout much of the year. Construction included finalizing recharge basin construction as provided for in the Minor Amendment, constructing pumping facilities on the Kern Water Bank Canal, replacing and rehabilitating wells, replacing failing recharge basin control structures, and graveling existing roads. Routine maintenance activities included clearing brush from fence lines and facilities. These activities are discussed below.

3.1 Water Banking Operations and Maintenance Activities

KWBA members recovered nearly 200,000 AF of water in 2021 in response to dry conditions in the winter of 2020/2021. Operations began in January and continued through December. Maintenance activities focused on supporting these recovery operations, and included motor repairs on wells, clearing brush from well sites, recording well and recharge basin data, and routine delivery of pump oil to well sites. These activities were conducted on existing facilities and none resulted in new habitat disturbance.

3.2 Construction Activities

Construction activities in 2021 and early 2022 included:

- Finalizing the construction of replacement of three wells (13B1, 8P2, and 4J6)
- Drilling replacement wells 15R2 and 15Q2
- Finalizing the construction of recharge basins
- Finalizing the construction of pump facilities on the Kern Water Bank Canal
- Replacing recharge-basin control structures
- Graveling existing roads.

The replacement wells resulted in 1.9 acres of permanent disturbance and 13 acres of temporary disturbance. The other listed activities were all conducted on existing facilities on previously disturbed lands. A summary of all project disturbance is shown on Table 1. The 4.0 acres of temporary disturbance discussed in the 2020 report are reverting to habitat.

3.3 Security

Security patrols are conducted daily on KWB lands. The purpose of the patrols is to protect the property from trespassers, poachers, and thieves. Security issues included illegal dumping and

trespassing. Illegal dump sites were cleaned up and trespassers were escorted out of the property.

3.4 Third Party Activities

Third party activities that occurred on the property in 2021 included:

- Ongoing oil recovery activities by Shadow Wolf, LLC., California Petroleum Group, Glendale Oil Company, and California Resources Corporation;
- Pipeline maintenance activities by SoCalGas;
- Bike Path construction by Kern County; and
- Minor pole-line maintenance activities conducted by PG&E.

4.0 Take, Mitigation Measures, and Avoidance and Minimization

The replacement wells resulted in 1.9 acres of permanent disturbance and 13 acres of temporary disturbance, all in the Compatible Habitat Sector. No take of covered species occurred because of these activities. The amount of total project disturbance is listed in Table 1. The temporary disturbance areas are expected to revert to habitat in the near future. The permanent disturbance recorded for the replaced wells may also revert to habitat.

Mitigation measures for the minimization of impacts are prescribed in the IA⁴. They include: the use of a biological monitor, specific construction practices, practices for ongoing activities, notification requirements regarding listed animals, and special requirements for actions which might threaten fully protected species. All of the requirements are provided in Appendix B for reference.

The specific measures implemented in 2021 (and more fully described in Appendix B) for the activities described in Section 2.0 included:

- Use of a biological monitor prior to construction and maintenance activities that would disturb habitat,
- Oversight of construction and maintenance activities by KWBA personnel,
- Delineation of disturbance areas prior and during construction,
- Construction site review to ensure that no animals including kit foxes are trapped in pipes, culverts, or other like structures,
- Employee orientation in which endangered species concerns were explained,
- Equipment storage in non-habitat areas,
- Limiting traffic to existing roads and speeds of no more than 25 mph,
- Proper disposal of food-related trash and scraps,
- Prohibiting dogs (except for hunting) from the property, and
- Use of herbicides only in accordance with the Vegetation Management Plan.

5.0 Adaptive Management, Monitoring Programs and Studies

The HCP/NCCP's Vegetation Management Plan (VMP) describes vegetation management and restoration practices for the long-term adaptive habitat management and enhancement of Kern Water Bank lands. The priorities of the adaptive management program are protection of sensitive habitat areas and control of exotic pest plants; the primary tools of the program are livestock grazing, mowing, and burning.

Section IV.B.1. of the HCP/NCCP requires rare plant surveys and monitoring of San Joaquin kit fox and Tipton kangaroo rat populations. The plant surveys are to be conducted at least every other year; the population monitoring is to be conducted annually. KWBA has also developed additional surveys and monitoring not required or described in the HCP/NCCP which includes an ongoing ornithological study and the development of an observation monitoring grid. These topics are discussed in more detail below.

5.1 Adaptive Management and Vegetation Monitoring

The primary tools available under the VMP, livestock grazing, mowing, and prescribed burning, are used to varying degrees in response to ever-changing conditions on KWB lands.

Herbicide use for exotic pest plant control is also provided for in the VMP. South Valley Biology (SVB) oversees much of the adaptive management measures undertaken throughout the year on the KWB and also documents conditions at the Observation Monitoring Sites (see report in Appendix C).

5.1.1 Livestock Grazing

The primary goal of the grazing program is to minimize tumbleweeds and manage excessive growth. Tumbleweeds are an exotic pest which crowd out native species and create significant maintenance problems after windstorms. Cattle will graze on young palatable plants and in some cases trample older plants helping to minimize this problem.

Excessive growth of other plants can exacerbate mosquito problems and diminish habitat value for some species. Mosquitos prefer to breed in vegetation choked portions of basins rather than in open water. Heavy vegetation can also make it difficult to reach areas for abatement purposes. Grazing helps to minimize vegetation in basin bottoms before recharge events and along basin

margins during recharge events, thereby diminishing areas favorable to mosquito breeding and providing access for abatement.

Heavy vegetation can also diminish habitat value for many species. Long-term studies of carefully managed grazing programs have indicated reducing herbaceous cover to about 500 lbs per acre Residual Dry Matter (RDM) is beneficial to many native vertebrate species. This RDM value has been an informal goal of the grazing program on the KWB.

Precipitation in the winter of 2020-2021 was not favorable (Figure 2), and approximately 17,000 acres were grazed at some time. Cattle numbers by area and month are shown with the graphs on Figure 3. The 2021 grazing program is discussed in detail in Appendix C.

Figure 2. Rainfall in the 2020 – 2021 winter season.

Figure 3. Areas grazed by cattle in 2021.

5.1.2 Mowing

Mowing was conducted primarily along existing roads and canals to manage plant encroachment and in areas covered by tumbleweed drifts or in basin bottoms choked with stands of dead cattails (Figure 3). The drifts of dead tumbleweeds prevent the germination of desirable native plants and can create significant maintenance issues when they blow into canals. The dead cattails can provide breeding sites for mosquitoes when basins are filled. Canal mowing was only used sparingly so that plant cover remained in place during nesting seasons and so that cover was available for animals using the canals as a water source. Approximately 1,500 acres, exclusive of areas along roads, were mowed in 2021.

5.1.3 Burning

No burning was conducted in 2021.

5.1.4 Herbicide Use

Herbicides (Diuron and Round-Up) were used to control weeds at well sites, along roads and fences, and at water control structures (Figure 4).

Figure 4. Areas mowed in 2021.

Figure 5. Areas sprayed in 2021.

5.1.5 Observation Monitoring Site Program

In 1999, KWBA conceived of and developed an observation monitoring program. This is a voluntary program not required by the HCP/NCCP. Eight sites, referred to as Observation Monitoring Sites (OMS) and representing different aspects of KWB habitat (e.g., canal, ditch, basin, uplands, conservation bank), were selected for surveys and the development of photographic records. Quarterly, staff and/or consultants have observed each site and collected data on weather conditions, general vegetation conditions, and any other pertinent information. Also, photographs were taken looking north, east, south, and west, to be compared with prior and future images to identify changes. KWBA will continue the quarterly OMS program, building a photographic record and informational database, which will help provide insight for adaptive management of different sectors of the KWB. The OMS report is provided in Appendix C.

5.2 Ornithological Studies

The Kern Water Bank Authority has commissioned ornithological surveys since 2011 to help document the benefits KWB lands provide to the region. This is another voluntary program not required by the HCP/NCCP. Surveys conducted during the wet years have documented substantial benefits to water birds provided by KWB recharge programs. These surveys also document significant benefits to upland birds and raptors in both wet and dry years. All told, these surveys have identified 221 species of birds on KWB lands.

5.2.1 Water Bird Surveys

Prior to the development of Kern County's water infrastructure, much of the area was intermittently flooded by the Kern River and other minor streams. This flooding supported extensive wetlands, marshes, and Kern and Buena Vista Lakes, all along the Pacific Flyway. Numerous canals and Isabella Dam were constructed during the 20th century to capture and regulate waters for beneficial uses. However, this redirection also resulted in a reduction in wetland and marsh habitats by as much as 90%.⁵ The development of the Kern Water Bank (and other banking projects in Kern County) has re-established thousands of acres of intermittent wetlands in the region and provide much-needed habitat for migrating water birds.

⁵ Hundley, Norris, Jr., *The Great Thirst, Californians and Water, A History*, University of California Press, Berkeley, CA.

Sterling Wildlife Biology has been contracted to complete bird surveys since October 2011 (see report in Appendix D). During that period, there have been three significant recharge events: December 2010 through January 2012, January 2017 through February 2018, and January 2019 through January 2020. Overall water bird numbers reached 35,000 for the 2011/2012 event, nearly 34,000 in December 2017, and nearly 12,000 water birds in the spring of 2019. Ninety water bird species have been identified during these surveys, 10 of which are special-status species.

After the 2011/2012 survey, Sterling concluded that: “Overall, in terms of bird abundance, species diversity, acreage, location and habitat diversity, [the KWB] is one of the most important freshwater wetlands in California, especially when compared to other privately managed wetlands.” For the 2017/2018 survey, he concluded that: “The watering of many recharge ponds from January 2017 to January 2018 had created exceptional conditions for most water birds. Forster’s terns, Clark’s and western grebes and several duck species had re-established breeding populations. A large white-faced ibis breeding colony of several hundred pairs also formed in the M1 recharge basin for spring 2017. Although peak population levels for some groups did not reach those of 2011-2012, there was still a sizeable population for all groups of water birds including some that exceeded the 2011-12 population peaks. As fish populations grew into late 2017, fish-eating birds, including herons, egrets, terns, gulls, grebes, double-crested cormorant and American white pelican numbers increased dramatically to take advantage of their fish prey. Ducks and American coots also boosted their populations in response to the increased aquatic vegetation and invertebrate prey. As ponds were drying in late winter and spring 2018, much mudflat was exposed creating ideal conditions for shorebird habitat. Shorebird numbers peaked at close to 8,000 by early spring.” Sterling’s full report is located in Appendix D.

5.2.2 Upland and Raptor Surveys

Further ornithological studies were initiated in August 2012 to document bird use of the project area absent recharge activities during the winter, spring migration and the start of the breeding seasons. Upland bird surveys were conducted on 9 fixed transects, whereas raptor surveys were conducted by driving most water bank roads. A detailed report through May 2021 is provided in Appendix D. The results of the surveys can be summarized as follows:

- One hundred and thirty one species of birds were identified during the upland surveys;
- Upland species richness did not vary significantly through time, but populations did;
- A comprehensive survey for raptors and loggerhead shrikes (*Lanius ludovicianus*) on the entire project area indicated the presence of high numbers of raptors including red-tailed hawks (*Buteo jamaicensis*) and loggerhead shrikes;
- Raptor and loggerhead shrike numbers declined significantly during drought conditions and increase dramatically during wet years;
- The surveys documented 16 species of raptors including: American kestrels, bald eagles, Cooper's hawks, ferruginous hawks, golden eagles, merlins, northern harriers, osprey, peregrine falcons, prairie falcons, red-shouldered hawks, red-tailed hawks, sharp-shinned hawks, Swainson's hawks, turkey vultures, and white-tailed kites;
- Twenty-five special-status bird species (not including the 10 waterbird species) have been identified during the raptor and upland bird surveys since the project began.

Several rare birds have also been identified during the surveys including: a black-throated sparrow, a clay-colored sparrow, eight Brewer's sparrows which were wintering, sage thrashers, a chesnut-collared longspur, an eastern phoebe, Cassin's kingbirds, a purple martin, Lucy's and Virginia's warblers, a little stint, a glossy sided ibis, a glaucous gull, a sandhill crane, and a neotropic cormorant.

Sterling states that: "The Kern Water Bank has exceptional habitats for birds and many rare birds will likely be found and documented in the future dependent upon survey efforts... The bird use of property managed by the Kern Water Bank Authority is clearly very high in accordance to the large acreages of upland habitats. Overall, in terms of bird abundance, species diversity, acreage, location and habitat diversity, it is an important area of upland habitat, especially when compared to surrounding agricultural lands."

5.2.3 Peer-Reviewed Publications

The importance of the KWB to wetland birds have also been presented in Central Valley Birds.⁶ The following is excerpted from the publication.

“Following a greater than 90% loss of historical wetlands throughout the Central Valley (Fleskes 2012), the Central Valley Joint Venture (CVJV) was founded in 1988 to foster collaboration through partnerships to protect, restore, and enhance wetland habitats to achieve the goals of the North American Waterfowl Management Plan. This group, comprised of 20 federal and state agencies, environmental and duck hunting organizations, research institutions, and other stakeholders, was charged with creating and implementing plans to reach objectives of increased wetland acreage and waterfowl populations. In 2006, shorebirds, waterbirds and riparian songbirds were added to its responsibility. The recent implementation plan (CVJV 2020) includes specific wetland acreage and bird population goals for the Tulare Basin. Creation of wetlands can help the CVJV meet these goals to offset historic habitat loss and help recover migratory bird populations to levels prescribed in the plan (U.S. Fish and Wildlife Service and Kern National Wildlife Refuge 2007, CVJV 2020).”

“The KWB, along with the Kern National Wildlife Refuge (NWR) and the Tulare Lake Drainage District (TLDD), are the largest and most important wetlands within the Tulare Basin (Figure 1). It is important to evaluate the role of the KWB in context within the overall Tulare Basin wetland habitat ecosystem, especially regarding its potential to maximize its value to many waterbird species and to contributed to meeting CVJV’s implementation goals.”

Sterling’s study then compared both water bird numbers and species richness with the Kern NWR and TLDD. With respect to numbers, the waterbird populations are regionally substantial, exceeding those in the TLDD. With respect to species richness, the 90 waterbird species ranks

⁶ *Importance of the Kern Water Bank to Wetland Birds in the Tulare Basin, California*, John Sterling, Central Valley Birds, Spring, 2022.

the KWB among the top seven wetland sites in the Central Valley and third highest for species south of Merced. The number of inland waterbird families is also very high, with 12 of the 14 families represented. See Appendix E for the published document.

5.3 Sensitive Species Monitoring

As discussed above, the HCP/NCCP requires rare plant surveys and the monitoring of San Joaquin kit fox and Tipton kangaroo rat populations. South Valley Biology Consulting LLC (SVB) was contracted to conduct these activities in 2021 (see report in Appendix F). Some key points from their report are presented below.

SVB utilized four methods to complete sensitive species monitoring:

- Nighttime spotlighting surveys to determine San Joaquin kit fox populations;
- Infrared motion camera stations to further determine San Joaquin kit fox populations;
- Small mammal trapping to determine Tipton kangaroo rat populations; and
- Site surveys for special-status plant species.

Nine San Joaquin kit fox were identified during the spotlighting surveys. Other mammals that were identified during the surveys included: coyotes, American badgers, striped skunks, desert cottontails, black-tailed jackrabbits, and kangaroo rats. Raptors included barn owls, great-horned owls, northern harriers, and red-tailed hawks. Species identified with the infrared cameras included San Joaquin kit fox, black-tailed jackrabbit, desert cottontail, and striped skunk.

Small mammal trapping was conducted on two grids. One grid is located north of the Kern River in Sensitive Habitat (the “Strand” grid) and the other is located south of the Kern River in the Conservation Bank Area (the “Southeast” grid). Forty-four Tipton kangaroo rats were captured at the Southeast grid and none were captured at the Strand grid. The number of Tipton kangaroo rats trapped at the Southeast grid are the second highest ever recorded. Other animals captured included Heermann’s kangaroo rats, San Joaquin pocket mice and deer mice.

Importantly, San Joaquin antelope squirrels have also been observed in the conservation bank area for the first time in many years. Details of the sightings are provided in Appendix F.

Special-status plants identified on the KWB in 2021 included San Joaquin woolly threads (federally endangered), Hoover's woolly-star, and Kern mallow. Precipitation in the winter of 2020-2021 was not favorable, resulting in diminished growth of all species.

The SVB report provides a detailed discussion of factors that may have contributed to the changes seen in the populations of both wildlife and plants (Appendix F).

5.4 Miscellaneous Studies

The Endangered Species Recovery Program conducted camera surveys in 2017, 2019, 2020 and 2021 for San Joaquin Kit Foxes (SJKF) to determine if any that were sighted had mange. SJKF were identified in all of the surveys and none had mange. Other animals identified included coyotes, badgers, black-tailed jackrabbits, desert cottontails, striped skunks, roadrunners, common ravens, and great horned owls. The results of the surveys are presented in Appendix G.

6.0 Conservation Bank Report

The Kern Water Bank Authority Conservation Bank was established concurrently with the HCP/NCCP by the Conservation Bank Agreement (CBA). The CBA provides for 3,267 Conservation Credits (Credits) representing one-acre each. These Credits are provided by the KWBA as mitigation for impacts to Covered Species in the Permit Area as authorized by USFWS and CDFW. The Agreement requires that KWBA file an Annual Report to the CDFW Agencies each year documenting:

- The number of Credits available, sold, used, eliminated, and suspended, both cumulatively and in the preceding year;
- The name and address of each party purchasing Credits and the number of Credits that were sold, optioned, or transferred in the preceding year;
- A map showing the portion of the KWB Conservation Bank for which KWBA has delivered a Conservation Easement to the Department, and the portion of the KWB Conservation Bank unencumbered by a Conservation Easement; and
- Copies of the annual reports submitted by the Included Parties.

Annual conservation credit transactions as required by the agreement are summarized in Table 2. In 2021, one credit was sold to SoCalGas for the Line 85 Milepost 75.75 and 75.94 Pipe Recoat, In-Line Inspection, and Mainline Valve Installation Project (USFWS File No 08ESMF00-2021-TA-2506). To date 1,472 of the 3,267 credits have been sold. The SoCalGas transaction provided \$375 to the Endowment Fund held by CDFW.⁷

Figure 5 shows the portions of the Conservation Bank intended to be encumbered by Conservation Easements and the proposed Conservation Easement for 2020 transactions. Preliminary title reports for the proposed parcels are included in Appendix H. Pertinent correspondence related to Conservation Bank transactions, including the names and addresses of parties purchasing credits, is provided in Appendix I. A draft conservation easement is provided in Appendix J.

7.0 Management Plan

The Management Plan is to describe the operational activities contemplated for the Kern Water Bank during the next year, including construction, maintenance and repair of the infrastructure, and a description of the adaptive management activities to be carried out.⁸

⁸ Implementation Agreement, Section 3.3.5.

7.1 Water Bank Operations and Construction

Precipitation levels in the 2020/2021 season were very low and recovery operations are underway. These operations began January 1, 2022, and an estimated 64,000 acre-feet have been recovered through April 30. It is expected that recovery operations will continue through December. These recovery operations entail routine canal maintenance and well repairs as needed. These activities are conducted on existing facilities, and no new habitat disturbance occurred or is contemplated.

In addition to the activities associated with recovery operations, the following construction activities will continue:

- Replacement of recharge basin control structures and road crossings,
- Replacement, rehabilitation, and repair of wells, and
- Recharge basin maintenance.

In all cases, the appropriate Minimization of Impacts Requirements described in detail in Appendix B will be carried out.

7.2 Vegetation Management

KWBA expects to conduct limited grazing in portions of the KWB lands in 2022 in response to precipitation in the winter of 2021-2022 (Figure 6). Mowing, burning (when permissible), and herbicide applications will also be used where appropriate.

7.3 Hunting Programs

Very limited bird-hunting programs may be undertaken on KWB land.

8.0 Viability Fund Status and Financial Report

The KWBA Minor Amendment to the HCP/NCCP provided that the KWBA will provide funds to the Resource Agencies up to a total commitment of \$75,000. No funds have been provided through December 31, 2021.

A copy of the "Kern Water Bank Authority Financial Statements - December 31, 2021 and 2020" is included in Appendix K. The independent accounting firms of Barbich Hooper, King, Dill & Hoffman and Brown Armstrong Accountancy Corporation prepared the financial statements and auditor's report, respectively. Total assets on December 31, 2021 were \$94,584,098, current liabilities were \$6,679,836, and long-term liabilities (debt) were \$25,275,261.

Re: Minor Amendment Number 3 to Kern Water Bank Habitat Conservation
Plan/Natural Community Conservation Plan

Dear Director Bonham and Field Supervisor Norris:

This letter agreement ("Letter Agreement") evidences an agreement by and among the California Department of Fish and Wildlife ("Department"), United States Fish and Wildlife Service ("Service"), and the Kern Water Bank Authority ("Authority") (collectively referred to as the "Parties") to adopt a minor amendment ("Minor Amendment No. 3") to the above-referenced Habitat Conservation Plan/Natural Communities Conservation Plan dated October 2, 1997 ("KWB HCP/NCCP") as described below.

RECITALS

A. Effective July 16, 2019, the Department and the Authority agree that the January 17, 2002, ("Minor Amendment No. 2, 2002 Amendment") regarding 1) the Grant, aka Cheng Property and 2) the Powers Property referenced as the "Exchange Property" was never fully executed because it was not signed by the Service.

B. Effective June 23, 2004, the Department and the Service both approved and signed an amendment ("Minor Amendment No. 3, 2004 Amendment") to the KWB HCP/NCCP to increase the KWB Master Permit credit area according to the Revised Map 3 showing all of Kings County and a greater extent of the valley floor in both Tulare and Kern Counties.

C. Effective July 16, 2019, all Parties agree that Amendment 3 signed and executed by all Parties in 2004 to expand the Master Permit credit area is now effectively Amendment 2, 2002.

D. Effective July 16, 2019, all Parties agree that the Amendment signed by the Service in 2018, but not by the Department, was also never fully executed, making this Amendment 3, 2019.

E. Effective July 16, 2019, all Parties agree that the Authority entered into a California Wildlife Conservation Board Grant Agreement for Acquisition of Fee Interest, dated September

7, 2001, ("Grant Agreement") (attached hereto as Exhibit A) with the California Wildlife Conservation Board ("WCB") in which the Authority has acquired fee interest of approximately 495 acres of land in Kern County, California ("Grant Property") (legal description attached hereto as Exhibit B) for the purpose of wildlife habitat preservation, restoration and management, wildlife-oriented education and research, and for compatible public uses, all as may be consistent with wildlife habitat preservation. Up to five "withdrawal wells" and specified infrastructure may be installed on up to a limit of ten acres, however Recharge Basins are precluded on this property as it would be incompatible with wildlife habitat preservation for the species it is best suited, in this case upland sensitive and listed species.

F. The Authority has not reached the 481-acre limit on permanent disturbance for Facilities which the 635-acre Kern Water Bank Authority Mitigation Parcel ("KWBA Mitigation Parcel") was conveyed to compensate in the Grant of Conservation Easement - KWBA Mitigation Parcel, executed October 2, 1997 by KWBA and the California Department of Fish and Wildlife ("Department"), and agreed to by the Service ("Mitigation Parcel Grant"), attached hereto as Exhibit C, and with which the Authority desires to mitigate for limited water well construction.

G. The KWB HCP/NCCP Implementation Agreement states under Section 6.2 that Minor Amendments include, but are not limited to, the following:

- (a) An increase in the size of the Recharge Basins and Other Water Banking Facilities Sector, so long as (1) the related diminution in acreage is taken from the Compatible Habitat Sector, Sensitive Habitat Sector, Farming Sector and/or Conservation Bank Land Sector; and (2) the increase in size does not exceed, in the aggregate with all previous increases, fifteen percent (15%) of the original size of the Recharge Basins and Other Water Banking Facilities Sector. A diminution of the Conservation Bank Land Sector shall require an amendment to the Conservation Bank Agreement to reflect the reduced number of Conservation Credits (as such term is defined in the Conservation Bank Agreement) available for use or sale by KWBA. Areas on which a Conservation Easement has been recorded pursuant to the Conservation Bank Agreement may not be reduced in size as a result of a Minor Amendment.

H. The KWB HCP/NCCP Implementation Agreement Section 6.2 on page 64 also authorizes the parties to approve "any proposed amendment which all Parties agree is a Minor Amendment". Therefore, provided all Parties, have determined and agree that Minor Amendment No. 3 described in this Agreement qualifies as a minor amendment as shown by signing this document, then it may be executed as a Minor Agreement under the Implementation Agreement.

I. The Authority acquired approximately 160 acres directly east of the Grant Property known as the "Nikkel Property". Because the northern 140 acres were used for agricultural lands, this area is suitable for Recharge Basins. Both Properties are shown on Exhibit D.

J. The Parties desire to amend the KWB HCP/NCCP mapping including Map 2, showing the boundaries of the Project Permit Area (Exhibit E) and Map 4, showing the land uses within the KWB (Exhibit F) to include the Grant Property and the Nikkel Property.

K. The County of Kern proposes to extend the Kern River Parkway Bike Path across a portion of Kern Water Bank lands including Conservation Bank lands and the KWB Mitigation Easement, but not across lands under Conservation Easement for already allocated Conservation Bank credits, shown on Exhibit G.

L. The Parties desire to amend the KWB HCP/NCCP to:

(1) include the Grant Property and the Nikkel Property in the Permit Area increasing the area from 19,900 acres to 20,555 acres;

(2) authorize the incidental take of Covered Species as a result of Permitted Uses in accordance with the applicable provisions of the HCP/NCCP, and this Minor Amendment No. 3;

(3) designate 495 acres of the Grant Property as Compatible Habitat;

(4) designate 140 acres of the Nikkel Property as Recharge Basin, and designate 20 acres of the Nikkel Property as Compatible Habitat;

(5) increase the cumulative total acreage of Recharge Basin within the boundaries of the Permit Area, as expanded by this Minor Amendment No. 3, from 5,900 acres to 6,925 acres (consisting of an addition of 885 acres within the original boundaries of the Permit Area plus 140 acres within the Nikkel Property);

(6) modify the Threatened/Endangered Species Viability Fund;

(7) authorize the take of Covered Species incidental to the construction, operation, maintenance and use of the Kern River Bikeway Path on KWB lands as described in this Letter Agreement.

NOW, THEREFORE, the Parties hereby agree as follows:

1. The KWB HCP/NCCP is hereby amended as follows:

(a) Section II.D ("CONSTRUCTION OF FACILITIES") of the KWB HCP is hereby amended to add at the end thereof the following:

"Activities Within Wildlife Conservation Board Grant Property. KWBA may install and maintain up to 5 " withdrawal wells" on the property ("Grant Property ") that is the subject of the Wildlife Conservation Board Grant Agreement dated September 7, 2001, between KWBA and the Wildlife Conservation Board, including any necessary pipelines, roadways and electrical connections to operate within the water bank system as designed by KWBA. Wells shall be designed and installed to minimize the disruption of existing habitat and under no circumstances shall the areas permanently disturbed for construction of wells, roads, pipelines and other improvements on the Grant Property exceed ten (10) acres. Recharge Basins shall be prohibited on this Property."

(b) All references in the HCP/NCCP to the total acreage of Compatible Habitat shall be changed from 5,592 acres to 5,222 acres with the addition of 495 acres from the Grant Property and 20 acres from the Nikkel Property and the reduction of 885 acres for

the added recharge within the original boundaries of the Permit Area. All references in the HCP/NCCP to acreage of Recharge Basins shall be changed from 5,900 acres to 6,925 acres.

(c) Map 2 of the KWB HCP/NCCP, showing the boundaries of the Project Permit Area and Map 4, showing the land uses within the KWB, are hereby amended to incorporate the Grant Property and the Nikkel Property. All references in the KWB HCP/NCCP to the Permit Area in the KWB HCP/NCCP are revised to include the Grant Property and the Nikkel Property. All references in the KWB HCP/NCCP to the total acreage in the Permit Area shall be changed from 19,900 acres to 20,555 acres. Map 2 of the KWB HCP/NCCP, is replaced with "Map 2 Permit Area Revised" attached hereto as Exhibit E.

(d) Map 4 of the KWB/NCCP, is replaced with "Map 4 – Land Use Plan Revised" attached hereto as Exhibit F.

(e) The incidental take authorizations provided pursuant to the KWB HCP/NCCP shall be deemed to include (i) the authority to conduct the Permitted Activities described in this Minor Amendment No. 3 subject to the applicable restrictions in the HCP/NCCP as amended by this Minor Amendment No. 3, and (ii) the construction, maintenance, operation and use of the Kern River Bikeway Path on KWB land shown on Exhibit G.

(f) The first paragraph of Section V.C.3 of the HCP/NCCP is amended to read as follows:

"3. Threatened/Endangered Species Viability Fund

The fund will be funded over time in the sum of \$75,000. The KWBA will provide funds to the Resource Agencies up to a total commitment of \$75,000. The KWBA will send periodic statements for this fund to the Resource Agencies."

(g) The first bullet point in the first paragraph of Section V.E.1.a. of the HCP/NCCP is amended to read as follows:

"An increase in the size of the Recharge Basins and Other Water Banking Facilities Sector, so long as (1) the related diminution in acreage is taken from the Compatible Habitat Sector, Sensitive Habitat Sector, Farming Sector or Conservation Bank Land Sector; and (2) the increase in size does not exceed, in the aggregate with all previous increases, 15% of the original 6,381-acre size of the Recharge Basins and Other Water Banking Facilities Sector.

A reduction in the size of the Recharge Basins and Other Water Banking Facilities Sector, so long as (1) the related increase is added to the Compatible Habitat Sector, Sensitive Habitat Sector

or Conservation Bank Land Sector; and (2) the decrease in size does not exceed, in the aggregate with all previous decreases, 15% of the original 6,381-acre size of the Recharge Basins and Other Water Banking Facilities Sector.”

2. All terms of the KWB HCP/NCCP as amended, and all exhibits thereto, not expressly amended by this Letter Agreement shall remain in full force and effect.

3. Minor Amendment No. 3 to the KWB HCP/NCCP described herein shall take effect upon the execution of this Letter Agreement by all the Parties.

4. Unless otherwise specified herein, all capitalized terms in this Letter Agreement shall have the same meaning as provided in the KWB HCP/NCCP. This Letter Agreement may be executed in counterparts.

If the foregoing is acceptable to you, please execute this Letter Agreement in the space indicated below and return a copy to the undersigned.

Very truly yours,

Pursuant to Chapter 4, Division 2 (commencing with Section 1300) of the California Fish and Game Code, the Wildlife Conservation Board ("Grantor") hereby grants to **KERN WATER BANK AUTHORITY (KWB)** ("Grantee"), the sum of **SIX HUNDRED AND FIVE THOUSAND** Dollars (\$605,000.00) ("Grant Funds"), on the following terms and conditions of this Grant Agreement for Acquisition of Fee Interest ("Agreement").

EXHIBIT A

TERMS AND CONDITIONS OF GRANT

1. PURPOSE OF GRANT

Grantor is making this Grant for the purpose of facilitating the Grantee's acquisition of 495± acres of land, more or less, located southwest of the City of Bakersfield, Kern County, California (the "Property"). The Property is more particularly described in **Exhibit A**, which is attached hereto and made a part hereof by this reference.

Grantee agrees that if the Grant Funds are received and it acquires the Property, such acquisition will be for the purposes of wildlife habitat preservation, restoration and management, wildlife-oriented education and research, and for compatible public uses, all as may be consistent with wildlife habitat preservation and the operation of the Kern Water Bank.

2. CONDITIONS OF GRANT

2.1. Conditions Precedent. As conditions precedent to Grantor's obligation to deposit the Grant Funds in escrow:

i. Grantee and Grantor understand and agree that Grant Funds will be used as purchase money only, which excludes escrow and title fees and any other fees and costs incurred to accomplish the transaction and the conveyance of the Property

ii. Grantee includes as **Exhibit B** hereof a true copy of such resolution or other formal action of Grantee's governing Board as will provide evidence that the signatory hereto has been duly authorized to execute this Agreement on behalf of Grantee; and

iii. Grantor shall have reviewed and approved all documents pertaining to Grantee's acquisition of the Property, including any appraisals, preliminary title reports, agreements for purchase and sale, escrow instructions and the instruments of conveyance. Such review and approval by Grantor shall be timely and shall not be unreasonably withheld.

2.2. Essential Conditions. Upon the last to occur of (1) receipt of the Grant Funds and (2) acquisition of the Property, Grantee agrees:

i. that it will use, operate, maintain and manage the Property consistent with the "PURPOSE OF GRANT" as stated in Article 1 hereof.

ii. that, subject to mutual agreement of Grantor and Grantee regarding text and design, it will post signs on the Property to indicate the participation of Grantor and Department of Fish and Game (DFG) in the purchase of the Property, provided however, that the sign shall display Grantor's logo, as shown on **Exhibit C**, which is attached hereto and made a part hereof by this reference

iii. that the Property (including any portion of it or any interest in it) may not be sold or exchanged without the written approval of the State of California, through the Executive Director of the Wildlife Conservation Board (WCB), or its successor, provided that such approval shall not be unreasonably withheld as long as the purposes for which the Grant was awarded are maintained and all the Grant conditions must be passed on to any successor in interest.

iv. that the Property (including any portion of it or interest in it) may not be used as security for any debt without the written approval of the State of California, acting through the Executive Director of WCB, or its successor, provided that such approval shall not be unreasonably withheld as long as the purposes for which the Grant was awarded are maintained.

v. that Grantee shall record, concurrently with close of escrow in the purchase of the Property, a Memorandum of Unrecorded Grant Agreement, incorporating by reference this Agreement and giving public notice that Grantee received funds under this Agreement in order to assist Grantee in acquiring the Property and that, in consideration for the receipt of the Grant Funds, Grantee has agreed to the terms of this Agreement. The Memorandum shall be in the form attached hereto as **Exhibit D**.

3. BREACH OF ESSENTIAL CONDITIONS

3.1. In the event of Grantee's breach of any of the Grant conditions in section 2.2, Grantor shall give written notice to Grantee, describing such breach. Notice shall be deemed given when deposited in the U.S. Post Office, postage prepaid, addressed to Grantee, or by personal delivery to Grantee's place of business.

3.2. If Grantee does not, within ninety (90) days of notice given, cure the breach described in Grantor's section 3.1 notice or, in the event the breach is not curable within said ninety (90) days, Grantee fails to commence such cure, then Grantee shall be in default ("Default") under this Agreement.

4. REMEDIES

In the event of a Default under this Agreement, Grantor shall be entitled to receive, at Grantor's election, one of the following as the remedy for Grantee's Default:

a. Reimbursement to Grantor of the entire sum granted to Grantee pursuant to this Agreement, together with interest compounded semi-annually starting from the date of this Agreement to and including the date of default, at a rate equivalent to that which is being earned at the time of default on deposits in the State of California's Pooled Money Investment Account.

b. Conveyance by Grantee of a conservation easement in favor of the State, or at the election of Grantor, in favor of a qualified non-profit organization, together with a sum to Grantor which, when combined with the fair market value of the conservation easement, equals the sum granted to Grantee pursuant to this Agreement, together with interest payable at a rate equivalent to that which is being earned at the time of default on deposits in the State of California's Pooled Money Investment Account. The conservation easement shall be for the purposes of wildlife habitat preservation, restoration and management, wildlife-oriented education and research, and for compatible public uses, all as may be consistent with wildlife habitat preservation. The value of the conservation easement shall be determined by a fair market appraisal, as approved by Grantor and the State Department of General Services, to the extent required by law.

5. ADDITIONAL TERMS

5.1. Disbursement Procedure. Grantor shall disburse the Grant Funds according to the following procedure. When Grantee is ready to complete acquisition of the Property, Grantee shall request the disbursement of the Grant Funds by sending a letter to the Executive Director of the Wildlife Conservation Board. The letter shall be signed by an authorized representative of Grantee and shall contain all of the following:

- a. Name and address of Grantee;
- b. Number of Grant Agreement;
- c. Dollar amount of Disbursement;
- d. Name, address and telephone number of the title company or escrow holder, and the escrow account number to which the Grant Funds will be disbursed; and
- e. A statement by Grantee that all funds (exclusive of the Grant Funds to be provided under this Agreement) needed for completion of acquisition of the Property have been secured and have been or will be deposited to escrow at or about the same date as the requested Grant Funds. In making this statement, Grantee shall be entitled to reasonably rely on the representations of the transferor of the Property.

After approval of this Agreement by WCB, and upon receipt of the letter from Grantee requesting the disbursement of Grant Funds, Grantor will promptly and timely [estimated to be sixty (60) working days from the date the request is received] disburse Six Hundred and Five Thousand Dollars (\$605,000) into the designated escrow account.

5.2. Liability. Grantee agrees to indemnify, hold harmless and defend Grantor, the State of California, its officers, agents, and employees against any and all claims, demands, damages, costs, expenses or liability based solely on Grantee's use or ownership of the Property.

5.3. Amendment. This Agreement may be modified only with the written approval of Grantor and Grantee. No oral understanding or agreement not incorporated in this Agreement shall be binding on either of the parties.

5.4. Expiration.

5.4.1. Unless it has been terminated earlier as provided in section 5.5.1. hereof, this Agreement shall expire on June 30, 2002, if Grantee has not, on or before such date, closed escrow for the acquisition of the Property.

5.4.2. After close of escrow for the acquisition of the Property, unless this Agreement has previously expired or been terminated, this Agreement shall remain

in full force and effect for the purpose of securing compliance with the "PURPOSE OF GRANT" provisions set forth above.

5.5. Termination.

5.5.1. Prior to the last to occur of (1) Grantor's deposit of the Grant Funds into escrow and (2) Grantee's close of escrow for acquisition of the Property, either party may terminate this Agreement for any reason or for no reason, by providing the other party with a minimum of fifteen (15) days' written notice of such termination.

5.5.2. Any time after the close of escrow for the acquisition of the Property, Grantee shall have the right to terminate the Agreement by:

i. providing written notice to Grantor of Grantee's election to terminate this Agreement; and

ii. reimbursing Grantor the entire sum granted to Grantee pursuant to this Agreement, together with interest payable at the rate equivalent to that which is being earned at the time of termination on deposits in the State of California's Pooled Money Investment Account, or at the election of Grantor, the granting of a conservation easement to the State, or at Grantor's election, to a qualified non-profit organization, together with a sum to Grantor which, when combined with the fair market value of the conservation easement, has a value equal to the entire sum granted to Grantee pursuant to this Agreement, together with interest compounded semi-annually, starting from the date of this Agreement to and including the date of termination, at a rate equivalent to that which is being earned on deposits in the State of California's Pooled Money Investment Account at the time of termination. The conservation easement must be for the purposes of wildlife habitat preservation, restoration and management, wildlife-oriented education and research, and for compatible public uses, all as may be consistent with wildlife habitat preservation. The fair market value of the conservation easement shall be determined by an appraisal, as approved by Grantor and the State Department of General Services, to the extent required by law.

5.5.3. In the event of any termination of this Agreement in accordance with its terms, neither party will have any right or remedies against the other party except as provided herein, and each party shall cooperate with the other party to execute such documents as may be necessary to clear title to the Property

5.6. Authorization. This Agreement shall be deemed executed and effective when signed by both authorized representatives of each party and then received in the respective offices of Grantor and Grantee. An authorized representative of Grantor and Grantee shall sign four originals of this Agreement. Grantor shall receive three completely executed originals and Grantee shall receive one completely executed original.

5.7. Designee. All references herein to "Grantee" are intended to refer to Grantee or its designee, successor or assignee as may be approved by Grantor to the extent such approval is required under this Agreement.

6. AUDIT

Grantee shall maintain complete and accurate records of its actual project costs and shall retain said records throughout the term of the Agreement and for a period of three (3) years after final disbursement. During such time, said records shall be made available to the State of California for audit purposes during normal business hours. Expenditures not documented, and expenditures not allowed under the Agreement or otherwise authorized by Grantor shall be borne by Grantee. The audit shall be confined to those matters connected with the Agreement, including but not limited to, the administration and overhead costs.

7. Kern Water Bank Authority - Wells

The Kern Water Bank Authority shall have the right to install and maintain up to 5 "withdrawal wells" on the above described property. Each well shall have necessary piping, roadways and electrical connections to operate within the water bank system as designed by KWB. KWB shall design and install such wells to minimize the disruption and or destruction of existing habitat and under no circumstances shall the permanent disturbance of the "well areas", roads and or pipeline corridors exceed a total of 10 (ten) acres.

The signature of the Executive Director certifies that at the Board meeting held on August 30, 2001, the Wildlife Conservation Board authorized the award of an acquisition grant to Grantee as provided herein.

This Agreement is made and entered into this 7 day of September, 2001, in the State of California, by and between the Wildlife Conservation Board

and Kern Water Bank Authority, each of which does hereby agree to the terms and conditions referenced on pages 1 through 12, along with Exhibits, of this Agreement.

LEGAL DESCRIPTION

The land referred to herein is situated in the State of California, County of Kern, Unincorporated Area, described as follows:

Parcel 1:

The Northwest Quarter of Fractional Section 4, Township 30 South, Range 25 East, Mount Diablo Meridian, in the unincorporated area of the County of Kern, State of California, according to the Official Plat thereof.

Except all interest conveyed to Tenneco Oil Company, a Delaware corporation, in Assignment and Conveyance thereof recorded November 18, 1988 in the office of the Kern County Recorder, in Book 6183 of Official Records, at Page 1167, which interest can be briefly summarized as all oil, gas and other liquid and gaseous hydrocarbons, and in addition thereto carbon dioxide, hydrogen, helium, nitrogen, methane, sulfur (in each case in either liquid or gaseous form) and any other liquid or gaseous substances, inert or otherwise, or any of them, and any minerals or other substances produced in association therewith ("hydrocarbons") in, on or under the premises, together with all rights, privileges, duties and responsibilities in any way related thereto. Grantee acknowledges that this reservation is fully set forth in the conveyance referred to above and that it takes title subject to that conveyance and not subject to this summary which is for convenience only. Said Assignment and Conveyance was clarified by First Amendment thereof recorded January 17, 1989 in Book 6200 of Official Records, at Page 1908.

Also except all other minerals of whatever kind or character, all herein collectively called "minerals" not conveyed to Tenneco Oil Company whether such minerals are now known to exist or hereafter discovered (it being intended that the word "minerals" as used herein shall be defined in the broadest sense of the word) which are in, under or may be produced from the premises, all salt water, brines and geothermal resources, in, under or may be produced from said real property; the exclusive right, by whatever methods now or hereafter known, as grantor or its successors or assigns may deem advisable, to prospect for, investigate for, explore for, drill for, produce, extract, remove and reduce to possession and ownership, all such minerals, salt water, brines and geothermal resources, which are in, under or may be produced from the premises; the exclusive right to drill into and through the premises to explore for and thereafter produce and extract minerals, salt water, brines and geothermal resources which may be produced from adjacent property; the right to lay, construct, erect and

GRANT OF KERN WATER BANK CONSERVATION EASEMENT

(KWBA Mitigation Parcel)

THIS PERMANENT CONSERVATION EASEMENT ("Grant") is made this 2nd day of October, 1997 by and between the Kern Water Bank Authority, a joint powers authority ("Grantor"), the State of California, acting by and through its Department of Fish and Game, a subdivision of the California Resources Agency ("Grantee"), and the United States Fish and Wildlife Service ("FWS") with reference to the following facts:

RECITALS:

A. Grantor is the sole owner in fee simple of certain real property in the County of Kern, State of California, more particularly described in Exhibit A attached hereto and incorporated by this reference (the "Conservation Easement Property"). The Conservation Easement Property totals approximately 635 acres.

B. The Conservation Easement Property possesses open space and other habitat values which are important to the conservation of the certain sensitive species and also possesses attributes (collectively, "conservation values") of great importance to Grantee and the people of the State of California. Such conservation values provide habitat for threatened and endangered, and other sensitive species. The Conservation Easement Property is immediately adjacent to a certain approximately 530-acre parcel owned by Grantor, on which Grantor is concurrently conveying a conservation easement to Grantee (the "DWR Mitigation Parcel").

C. Grantor is a joint powers authority formed by certain public agencies and other entities in the County of Kern pursuant to California Government Code section 6500 et seq. for the purpose of operating a water bank project.

D. Under the California Endangered Species Act ("CESA") and other State law, Grantee has jurisdiction over the conservation, protection, restoration, enhancement and management of fish, wildlife, native plants, and habitat necessary for biologically sustainable populations of those species. Grantee is also the manager and trustee of fish and wildlife resources and their habitat pursuant to California Fish and Game Code section 1802.

E. FWS has jurisdiction over the conservation, protection, restoration, enhancement and management of fish, wildlife, native plants, and habitat to the extent set forth in the federal Endangered Species Act of 1973 ("FESA"), the Fish and Wildlife Coordination Act (16 U.S.C. section 661 et seq.), the Fish and Wildlife Act of 1956 (16 U.S.C. section 742a et seq.), and other federal laws.

F. Grantor intends to convey to Grantee and FWS the right to preserve, enhance and protect the conservation values of the Conservation Easement Property in perpetuity subject to the terms of this Grant.

G. Grantor has prepared and Grantee, along with the FWS, has approved a long-term habitat conservation plan ("Habitat Conservation Plan") dated the date hereof with regard to the Conservation Easement Property and other property. The Habitat Conservation Plan identifies uses of the Conservation Easement Property that are consistent with preserving the conservation values of the Conservation Easement Property. While the Habitat Conservation Plan is in effect (for an initial period of 75 years), Grantor shall have the right to use the Conservation Easement Property for the uses set forth in the Habitat Conservation Plan and accompanying Implementation Agreement. A memorandum of the Habitat Conservation Plan shall be recorded in the Official Records of Kern County prior to the recordation of this Grant.

H. Pursuant to the Implementation Agreement, Grantor is required to develop and have approved by Grantee and FWS a Permanent Management Plan for the Conservation Easement Property prior to the expiration of the Habitat Conservation Plan. After the Habitat Conservation Plan, related Implementation Agreement, and associated permits and authorizations have expired, the Conservation Easement Property shall be managed in accordance with this Grant and the Permanent Management Plan in perpetuity.

NOW, THEREFORE, in consideration of the above and mutual covenants, terms, conditions and restrictions contained herein, Grantor, Grantee and FWS agree as follows, and Grantor hereby grants and conveys to Grantee an easement in perpetuity over the Conservation Easement Property of the nature and character and to the extent hereinafter set forth (the "Easement").

1. **Purpose.** It is the purpose of the Easement to assure that the Conservation Easement Property will be retained forever in an open space condition (subject to those uses permitted in Sections 2 and 4 of this Grant) and for the conservation of threatened, endangered and

other sensitive species and related purposes and to prevent any use of the Conservation Easement Property that will impair or interfere with the conservation values of the Conservation Easement Property other than as set forth herein. Grantor intends and agrees that the Easement shall limit the use of the Conservation Easement Property, subject to the uses permitted in this Grant, to such activities, including, without limitation, those involving the management of the Conservation Easement Property, that protect or enhance the conservation values of the Conservation Easement Property. While the Habitat Conservation Plan is in force, the Conservation Easement Property may be subject to the additional uses and limitations imposed by the Habitat Conservation Plan. Since the Easement is in perpetuity, nothing in the Habitat Conservation Plan shall be construed to impose a limit on the duration of the Easement. When the Permanent Mitigation Plan is put in place, the Conservation Easement Property may be subject to additional uses and/or limitations imposed by the Permanent Mitigation Plan.

2. Rights of Grantee and Character of Easement.

(a) Rights Conveyed. To accomplish the purpose of the Easement, the following rights and obligations are hereby conveyed to and accepted by Grantee by the grant contained herein:

(i) To preserve, enhance and protect the conservation values of the Conservation Easement Property; and

(ii) To enter upon the Conservation Easement Property to carry out the purposes of the Easement.

(b) Use of Surface and Subsurface. The use of the surface of the Conservation Easement Property for conservation values is the exclusive use for the Conservation Easement Property subject to those other purposes set forth in Section 4 below. . With respect to the subsurface of the property comprising the Conservation Easement Property, Grantor retains the right to reasonable access to and use thereof for the use and maintenance of Grantor's existing wells and waterlines and canals, so long as Grantor's exercise of such retained

rights does not materially disturb, disrupt or interfere with the Easement; provided, however, that any such access and use shall be consistent with the purposes set forth herein. Grantee recognizes that this Grant is not binding upon the third-party owners of the mineral rights underlying the Conservation Easement Property.

(c) Prohibited Uses. The following uses by Grantor, its agents, and all third parties, are expressly prohibited, unless specifically authorized in the Habitat Conservation Plan while it is in effect, the Permanent Management Plan while it is in effect, or necessarily incident to the exercise by Grantor of its reserved rights under Section 4 below:

(i) Unseasonal watering, use of herbicides and/or rodenticides, weed abatement activities, incompatible fire protection activities and any and all other uses which may adversely affect the purposes of the Easement;

(ii) Use of off-road vehicles;

(iii) Erecting of any building, billboard or sign;

(iv) Depositing of soil, trash, ashes, garbage, waste, bio-solids or any other material;

(v) Excavating, dredging or removing of soil, loam, gravel, rock, sand or other material;

(vi) Altering the general topography of the Conservation Easement Property, including construction of roads; and

(vii) Removing, destroying, or cutting of trees, shrubs or other vegetation, except as required by law for (1) fire breaks, (2) maintenance of existing foot trails or roads, or (3) prevention or treatment of disease.

(d) Use By General Public. No use of the Conservation Easement Property by the general public is authorized hereunder without the express prior written consent of Grantor, Grantee and FWS, or their respective successors in interest in the Conservation Easement Property, and Grantor, Grantee and FWS shall not encourage or permit the general public to use or enter upon the Conservation Easement Property. For purposes of this subparagraph, the term "general public" shall not include persons accompanied by Grantor, Grantee or FWS or their employees, agents, representatives, contractors or subcontractors and entering onto the Conservation Easement Property for purposes related to the conservation values of the Conservation Easement Property and the purposes set forth in Section 4. Notwithstanding the foregoing, Grantor, Grantee and FWS acknowledge that representatives of the Grantee and FWS shall have a right of access onto the Conservation Easement Property for purposes associated with the conservation values hereof upon 24 hours notice to Grantor. In addition, so long as Grantee is a subdivision of the State of California, it shall have the right to administer a managed hunting program ("Hunting Program") on the Conservation Easement Property, provided that Grantee submits to FWS and Grantor for approval by Grantor and FWS, a description of such Hunting Program and specifying measures to insure that such Hunting Program will not interfere with, or damage, the Reserved Rights and Uses described in Section 4 or create a hazard to Grantor's officers, employees or agents. Without limiting in any way California Civil Code section 846, in the event that Grantor approves the Hunting Program, such approval, or any actions of Grantor pursuant to such approval, does not thereby (a) extend any assurance by Grantor that the Conservation Easement Property is safe for hunting purposes, or (b) impute or otherwise establish any person to whom access is provided pursuant to the Hunting Program to be an invitee or licensee to whom a duty of due care is owed by Grantor, or (c) assume responsibility by Grantor for, or incur liability by Grantor for, any injury to person or property caused by any act of such person to whom permission has been granted pursuant to the Hunting Program. The approval of the Hunting Program by Grantor does not create a duty of care for Grantor or a ground for liability against Grantor for injury to person or property.

(e) Reservation of Rights. Grantee's rights under this Easement are expressly made subject to Grantor's reserved rights under Section 4 and all other easements,

covenants, conditions, restrictions, reservations, rights and rights-of-way of record, apparent or of which Grantee has actual notice as of the date of recordation of this Grant.

(f) Assignment by Grantee. Grantee may assign its rights and obligations under this Grant only to an organization that is (1) approved by the Grantor and FWS which approval shall not be unreasonably withheld, and (2) a public agency or a qualified organization at the time of transfer under section 170(h) of the Internal Revenue Code of 1986, as amended (26 U.S.C. § 170(h) or any successor provision applicable), and the applicable regulations thereunder, and (3) authorized to acquire and hold a conservation easement under California Civil Code Section 815 et seq. (or any successor provision then applicable).

(g) No Abandonment. Grantee shall not abandon its rights and obligations under this Grant. In the event Grantee is unwilling or unable to carry out Grantee's obligations under this Grant, then Grantee shall transfer the Easement to a public entity or qualified organization willing to assume Grantee's rights and obligations, in accordance with Section 2(f)(1), (2) and (3). Any transfer of the Easement shall be approved by Grantor and FWS.

3. No Encumbrances.

Neither Grantor nor Grantee shall suffer or permit to be enforced against the Conservation Easement Property, or any portions thereof, any mechanics', materialmen's, contractors' or subcontractors' liens or any claim for damage arising from any services, supplies, labor or materials furnished or alleged to have been furnished to or for Grantor or Grantee at or for use on the Conservation Easement Property, and each party shall promptly pay or cause to be paid all of said liens, claims or demands caused by such party before any action is brought to enforce the same. If any such lien shall at any time be recorded against the Conservation Easement Property as a result of the foregoing, and the party causing the same shall fail, within 60 days after such recording, to either (i) pay and discharge the underlying claim and cause a lien release to be recorded or (ii) furnish to the other party a surety bond or other security reasonably satisfactory to the other party protecting the other party against liability for such lien and holding

the Conservation Easement Property free from the effect of such lien, then the other party may, but shall not be obligated to, take such action or pay such amounts as may be necessary to remove such lien, and the failing party shall immediately pay to the other party the amount so expended, together with interest thereon at the rate of 10% per annum accruing from the date of such payment until paid in full. Notwithstanding the foregoing, for so long as Grantee is the State of California, nothing herein shall be deemed to affect Grantor's obligation or duty to pay any claims for money or damages that are governed by the Tort Claims Act, Government Code section 810 et seq.

4. Reserved Rights and Uses and Responsibilities of Grantor.

(a) Utilities and Uses. The Easement is subject to the easements, covenants, conditions, restrictions, reservations, rights and rights-of-way of record, apparent or of which Grantee has actual notice, and Grantor's use and maintenance of existing wells, appurtenant structures, waterlines, canals and roadways as of the date this Grant is recorded in the Official Records of the County of Kern, and such additional easements, wells, appurtenant structures, waterlines, canals and roadways as Grantor shall designate at any time after the date of recordation of this Grant, subject to the prior written approval of Grantee and FWS, which approval shall not be unreasonably withheld, and compliance with all applicable laws and regulations.

(b) Water Storage and Extraction. Grantor shall have the right to install, construct, repair, maintain, and operate water recharge, water recovery, and water conveyance facilities, including, but not limited to, recharge ponds, levees, water wells, pipelines, recharge canals, recovery canals, pumps, and appurtenant facilities such as pump sheds, fences and access roads, as permitted under the Habitat Conservation Plan. Grantor shall have the right to store water in the subsurface of the Conservation Easement Property. Grantor shall have the right to drill additional extraction wells in the Conservation Easement Property, and build the improvements and infrastructure necessary to support the additional extraction wells, as permitted under the Habitat Conservation Plan. KWBA shall have the right to install, construct, repair, maintain, and operate the Kern River Reverse Flow Channel Project with all necessary appurtenances thereto, including without limitation pump stations.

(c) Grazing. Grantor shall have the right to use the Conservation Easement Property for grazing purposes, or to permit grazing, if permitted by, and in accordance with the Habitat Conservation Plan while it is in effect and in accordance with the Permanent Management Plan while it is in effect.

(d) Prevention of Trespass; Fencing. Grantor shall undertake all reasonable actions to prevent the unlawful entry or trespass by persons whose activities may degrade or harm the conservation values of the Conservation Easement Property. Fencing shall be installed and maintained only in accordance with the Habitat Conservation Plan while it is in effect and in accordance with the Permanent Management Plan while it is in effect.

(e) Costs of Management. Grantor retains all responsibilities and shall bear all costs of any kind relating to the ownership, operation, upkeep, and maintenance of the Conservation Easement Property. The obligation to provide adequate funding to maintain the conservation values of the Conservation Easement Property shall be perpetual. Grantor, Grantee and FWS have entered into a Security Agreement whereby Grantor has issued to Grantee a note and deed of trust securing Grantor's management obligation during the term of the Habitat Conservation Plan and a further note and deed of trust securing Grantor's management obligation in perpetuity. The Implementation Agreement requires Grantor to commence preparing five years prior to the termination of the associated permits and authorizations, and have approved by Grantee and FWS, a Permanent Management Plan for the Conservation Easement Property and certain other property. After the Habitat Conservation Plan, Implementation Agreement and associated permits and authorizations have expired, the Conservation Easement Property will be managed in accordance with the terms of this Grant and the Permanent Management Plan.

5. Sale of Fee Interest.

(a) Grantor may transfer the fee title interest or grant a security interest in the Conservation Easement Property provided it gives Grantee and FWS not less than 30 days prior written notice of its intent to transfer such fee title interest. Notice shall be given in the manner required in this Grant. Grantor agrees to incorporate the terms of this Grant in any deed or

other legal instrument by which Grantor divests itself of any interest in all or a portion of the Conservation Easement Property. The failure of Grantor to perform any act required by this section shall not impair the viability of this Grant or limit its enforceability in any way. Grantor may lease the Conservation Easement Property, or any portion thereof, for grazing purposes and may convey other interests in such lands only as expressly permitted by the Habitat Conservation Plan and related Implementation Agreement by and among FWS, Grantee and Grantor, and related Conservation Bank Agreement by and among FWS, Grantee and Grantor.

6. **Insurance.**

(a) **Requisite Coverages.** For so long as Grantor is KWBA, Grantee shall, at all times during Grantor's ownership of the Conservation Easement Property, at its sole cost and expense, obtain and thereafter maintain comprehensive general liability and automobile insurance (including non-owned auto), which shall provide a 30-day notice to Grantor in the event of cancellation or any material change in coverage. The foregoing insurance policies shall reflect that the policy is primary insurance as respects any claim, loss or liability arising directly or indirectly from any of Grantee's activities on the Conservation Easement Property, and any other insurance maintained by Grantor shall be considered noncontributing. This liability insurance must be in a form satisfactory to Grantor and written with limits of liability not less than \$1,000,000 combined single limit bodily injury and property damage liability per occurrence covering the activities and obligations contemplated of Grantee under this Grant. Grantee shall furnish a Certificate of Insurance (or, if requested by Grantor, copy of the policy) evidencing the foregoing coverage to Grantor for approval. Grantee shall also maintain worker's compensation insurance in an amount required by law, together with employers' liability insurance. Grantee shall provide Grantor with evidence of the worker's compensation and employer's liability insurance coverage, with a waiver of subrogation agreement by the insurance carrier as respects Grantor. Nothing in this paragraph shall limit Grantee's obligations under the other provisions of this Grant. Any policies required hereunder may be made a part of a blanket policy of insurance, so long as such blanket policy contains all of the provisions required herein and does not in any way reduce the coverage, impair the rights of Grantor hereunder or negate the requirements of this Grant.

(b) Self-Insurance. So long as Grantee is a subdivision of the State of California and the State of California self-insures, Grantee's liability shall be governed by the laws of the State of California relating to the payment of claims against the State, and Grantee shall not be required to obtain insurance or furnish evidence of insurance. If at any time Grantee is not a subdivision of the State of California, Grantee shall not self-insure any portion of the insurance required under this section without the express written consent of Grantor, which consent may be withheld by Grantor in its sole and absolute discretion.

(c) Release/Waiver of Subrogation. Grantee, for itself and its successors, hereby releases and discharges Grantor from all claims and liabilities arising from or caused by any hazard covered by the insurance coverage required herein in connection with the activities conducted by Grantee on the Conservation Easement Property pursuant to this Grant, regardless of the cause of the damage or loss.

(d) Obligations. Nothing herein shall limit Grantee's obligations under the other provisions of this Grant. The insurance required to be maintained hereunder shall insure against any acts or omissions of Grantee, provided nothing herein shall be interpreted to waive any rights Grantor may have as to any of Grantee's insurance nor shall Grantor be required to make a claim against any such Grantor's insurance.

(e) Grantor's Obligations. To the extent Grantor enters the Conservation Easement Property under the Easement, then Grantor shall comply with the insurance provisions of this section 6 applicable to Grantee prior to its entry onto the Conservation Easement Property.

7. Taxes. Grantor shall pay before delinquency all taxes, assessments, fees, and charges of whatever description levied on or assessed against the Conservation Easement Property by competent authority (collectively "taxes"), except that Grantor shall have no obligation to pay any taxes or assessments which may be levied against the Easement itself, as opposed to the underlying fee and Grantor shall furnish Grantee with satisfactory evidence of payment of taxes and assessments upon request. Grantee shall be responsible regarding the imposition of any taxes or assessments levied against the Easement itself, it being understood that while the Easement is held

by a governmental entity for public benefit purposes, such Easement should be exempt from all such taxes and assessments.

8. **Notices.** Any notice, demand, request, covenant, approval, or other communication to be given by a party to the other(s) shall be given by personal service, telegram, or express mail, Federal Express, DHL or any other similar form of airborne/overnight delivery service, or mailing in the United States mail, postage prepaid, certified and return receipt requested, addressed to the parties at their respective addresses as follows:

9. **Recordation.** Grantee shall promptly record this instrument in the official records of Kern County, California.

10. **Miscellaneous Provisions.**

(a) **Controlling Law.** This Grant shall be governed by and interpreted in accordance with the laws of the State of California and applicable Federal laws.

(b) **Liberal Construction.** Any general rule of construction to the contrary notwithstanding, this Grant shall be liberally construed in favor of the grant to effect the purpose of this Grant and the policy and purpose of Civil Code Section 815 et seq. If any provision in this instrument is found to be ambiguous, an interpretation consistent with the purposes of this Grant that would render the provision valid shall be favored over any interpretation that would render it invalid.

(c) **Severability.** If any provision of this Grant, or the application thereof to any person or circumstances, is found to be invalid, the remainder of the provisions of this Grant, or the application of such provision to persons or circumstances other than those as to which it is found to be invalid, as the case may be, shall not be affected thereby.

(d) **No Rights in Public.** Nothing herein contained shall be deemed to be a gift or dedication of any portion of the Conservation Easement Property to or for the general public, it being the intention of the parties hereto that this Grant shall be strictly limited to and for the purposes herein expressed.

(e) **Waiver: Remedies.** No delay on the part of any party hereto in exercising any right, power or privilege hereunder shall operate as a waiver thereof, nor shall any waiver on the part of any party hereto of any right, power or privilege hereunder operate as a waiver of any other right, power or privilege hereunder, nor shall any single or partial exercise of any right,

power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege hereunder.

(f) Successors. The covenants, terms, conditions and restrictions of this Grant shall be binding upon and inure to the benefit of the parties hereto and each of their respective successors and assigns, and shall continue as a servitude running in perpetuity with the Conservation Easement Property. This Grant shall be binding upon and shall inure to the benefit of Grantor and its successors and assigns and Grantee and its assigns.

(g) Captions. The captions in this Grant have been inserted solely for convenience of reference and are not a part of this Grant and shall have no effect upon construction or interpretation.

(h) Counterparts. The parties may execute this Grant in two or more counterparts, which shall, in the aggregate, be signed by all parties; each counterpart shall be deemed an original.

(i) No Other Obligations. This Grant imposes no other obligations or restrictions on Grantor and neither its successors nor any person or entity claiming under them shall be in any way restricted from using the Conservation Easement Property in a customary manner except as provided herein.

(j) Entire Agreement. This instrument sets forth the entire agreement of the parties with respect to the grant of easement and supersedes all prior discussions, negotiations, understandings or agreements relating to the grant.

11. Remedies. If Grantee or FWS determines that Grantor is in violation of the terms of this Grant or that a violation is threatened, Grantee or FWS shall give written notice to Grantor of such violation and demand corrective action sufficient to cure the violation and, where the violation involves injury to the easement resulting from any use or activity inconsistent with the purpose of this Grant, to restore the portion of the Easement so injured. If Grantor fails to cure the violation within 15 days, or fails to continue diligently to cure such violation until finally cured,

Grantee and/or FWS may bring an action at law or in equity in a court of competent jurisdiction to enforce the terms of this Grant, to enjoin the violation ex parte as necessary, by temporary or permanent injunction to recover any damages to which Grantee and/or FWS may be entitled for violation of the terms of this Grant, or injury to any conservation values protected by this Grant, including adverse impacts to any threatened or endangered species, or sensitive species, and to require the restoration of the Easement to the condition that existed prior to any such injury. If Grantee and/or FWS determines that circumstances require immediate action to prevent or to mitigate significant damage to the conservation values of the Easement, Grantee and/or FWS may pursue its remedies under this paragraph without prior notice to Grantor or without waiting for the period provided for cure to expire. The rights of Grantee and FWS under this paragraph apply equally in the event of either actual or threatened violations of the terms of this Grant, and Grantor agrees that Grantee's and FWS's remedies at law for any violation of the terms of this Grant are inadequate and that Grantee and/or FWS shall be entitled to the injunctive relief described in this section, both prohibitive and mandatory, in addition to such other relief to which Grantee and/or FWS may be entitled, including specific performance of the terms of this Grant, without the necessity of proving either actual damages or the inadequacy of otherwise available legal remedies.

Grantee's and FWS's remedies described in this paragraph shall be cumulative and shall be in addition to all remedies now or hereafter existing at law or in equity. Furthermore, the provision of Civil Code Section 815 et seq. are incorporated herein by this reference and this Grant is made subject to all of the rights and remedies set forth therein. If at any time in the future, Grantor or its successors and assigns or any subsequent transferee uses or threatens to use such lands for purposes not in conformance with the stated conservation purposes contained herein, notwithstanding Civil Code Section 815 et seq., California Attorney General and FWS each have standing as an interested party in any proceeding affecting this Grant. If Grantor or if Grantee and/or FWS fails to exercise any right or fails to enforce any obligation of this Grant, such failure shall not be deemed to waive any other right which Grantor or Grantee and/or FWS may hold, including subsequent exercise of the same right to subsequent enforcement of the same obligation. Nothing contained in this Grant shall be construed to entitle Grantee and/or FWS to bring any action against Grantor for any injury to or change in the easement resulting from causes beyond Grantor's control, including, without

limitation, fire, flood, storm, earth movement or from any prudent action taken by Grantor under emergency conditions to prevent, abate or mitigate significant injury to the Easement resulting from such causes.

IN WITNESS WHEREOF, Grantor and Grantee have entered into this Grant as of the day and year first above written.

Exhibit H to Implementation Agreement - Minimization of Impacts Requirements

American Bittern (*Botaurus lentiginosus*)

Exhibit H to Implementation Agreement

Minimization of Impacts Requirements

1. Biological Monitor

A qualified biologist shall monitor all ground-disturbing activities prior and during construction in the Sensitive Habit Sector and will oversee measures undertaken to reduce Incidental Take of Covered Species.

2. Construction Practices

a. KWBA Oversight

During construction a representative of the company with the authority to assure compliance with these Required Management obligations, and adequately trained to understand the obligations imposed hereby and to notice the presence of Covered Species shall be present on the construction site at all times that construction work is ongoing.

b. Delineation of Disturbance Areas Prior and during construction

KWBA shall clearly delineate disturbance area boundaries by stakes, flagging, or by reference to terrain features, as directed by the Department and the Service, to minimize degradation or loss of adjacent wildlife habitats during operation.

c. Signage

Prior and during construction, KWBA shall post signs and/or place fencing around construction sites to restrict access of vehicles and equipment unrelated to site operations.

d. Resource Agency Notification

At least 20 working days prior to initiating ground disturbance for project facilities in designated salvage/relocation areas, KWBA shall notify the Fresno Field Office of the Department and the Sacramento Field Office of the Service of their intention to begin construction activities at a specific location and on a specific date. The Agencies will have 10 working days to notify the KWBA of their intention to salvage or relocate Covered Species in the construction area. If KWBA is notified, they will wait an additional five days to allow the salvage/relocation to take place.

e. Salvage and Relocation

KWBA will allow time and access to the Service and/or the Department, or their designees, to relocate Covered Species, at the Resource Agencies' expense, from construction areas prior to disturbance of areas that have been identified by the Resource Agencies as having known populations of the Covered Species they wish to salvage or relocate.

f. Construction Site Review

All construction pipes, culverts, or similar structures with a diameter of three inches or greater that are stored at a construction site on the Kern Water Bank for one or more overnight periods shall be thoroughly inspected for trapped kit foxes and other animals before the subject pipe is subsequently buried, capped, or otherwise used or moved in any way. Pipes laid in trenches overnight shall be capped. If during construction a kit fox or other animal is discovered inside a pipe, that section of pipe will not be moved or, if necessary, will be moved only once to remove it from the path of construction activity until the animal has escaped.

g. Employee Orientation

An employee orientation program for construction crews, and others who will work on-site during construction, shall be conducted and shall consist of a brief consultation in which persons knowledgeable in endangered species biology and legislative protection explain endangered species concerns. The education program shall include a discussion of the biology of the Covered Species, the habitat needs of these species, their status under FESA and CESA, and measures being taken for the protection of these species and their habitats as a part of the project. The orientation program will be conducted on a as needed basis prior to any new employees commencing work on the Kern Water Bank. Every two years or at the beginning of construction for the Supply/Recovery canal a refresher course will be conducted for employees previously trained. A fact sheet conveying this information shall also be prepared for distribution to all employees. Upon completion of the orientation, employees shall sign a form stating that they attended the program and understand all protection measures. These forms shall be filed at KWBA's offices and shall be accessible by the Department and the Service.

h. Standards for Construction of Concrete Canals

Concrete lined canals will have a side slope of 1.5 to 1 or less and the sides will have a concrete finish which will assist in the escape of animals. If canals are determined by the Department or the Service to be substantial impediments to kit fox movement, plank or pipe crossings will be provided across concrete canals in areas identified by the Resource Agencies as having high kit fox activity.

i. Standards for Construction of Earthen Canals

Earthen canals will have a side slope of 1.5 to 1 or less. With the exception of the supply/recovery canal, interconnected earthen canals may be as wide as 40 feet. If canals are determined by the Department or the Service to be substantial impediments to kit fox movement, plank or pipe crossings will be provided across the canals in areas identified by the Resource Agencies as having high kit fox activity.

3. On-Going Practices

a. Equipment Storage

All equipment storage and parking during site development and operation shall be confined to the construction site or to previously disturbed off-site areas that are not habitat for covered species.

b. Traffic Control

KWBA's project representative shall establish and issue traffic restraints and signs to minimize temporary disturbances. All construction related vehicle traffic shall be restricted to established roads, construction areas, storage areas, and staging and parking areas. Project related vehicles shall observe a 25 MPH speed limit in all project areas except on county roads and state and federal highways.

c. Food Control

All food-related trash items such as wrappers, cans, bottles, and food scraps generated both during construction and during subsequent facility operation shall be disposed of in closed containers and shall be regularly removed from the site. Food items may attract kit foxes onto a project site, consequently exposing such animals to increased risk of injury or mortality.

d. Dog Control

To prevent harassment or mortality of kit foxes or destruction of kit fox dens or predation on this species, no domestic dogs or cats, other than hunting dogs, shall be permitted on-site.

e. Pesticide Use

Use of rodenticides and herbicides on the site shall be permitted only in accordance with the Vegetation Management Plan approved by the Department and the Service or if such use is otherwise approved by the Department and the Service on a case-by-case basis. This is necessary to prevent primary or secondary poisoning of Covered Species utilizing adjacent habitats, and the depletion of prey upon which kit foxes depend.

4. Project Representatives

KWBA shall designate a specific individual as a contact representative between KWBA, the Service, and the Department to oversee compliance with protection measures detailed in this Exhibit. KWBA shall provide written notification of the contact representative to the Department and the Service within 30 days of issuance of the Section 10(a) Permit and Section 2081/2835 Management Authorization. Written notification shall also be provided by KWBA to the Department and the Service in the event that the designee is changed.

5. Notification Regarding Dead, Injured or Entrapped Listed Animals

Any employee who kills or injures a San Joaquin kit fox, blunt-nosed leopard lizard, Tipton kangaroo rat, San Joaquin antelope squirrel, or other Covered Species listed as a threatened or endangered animal under FE SA or CESA, or who finds any such animal either dead, injured, or entrapped shall report the incident immediately to KWBA's representative who shall, in turn, report the incident or finding to the Service and the Department. In the event that such observations are of entrapped animals, escape ramps or structures shall be installed immediately to allow the animal(s) to escape unimpeded. In the event that such observations are of injured or dead animals, KWBA shall immediately notify the Service

and the Department by telephone or other expedient means. KWBA shall then provide formal notification to the Service, and the Department, in writing, within three working days of the finding of any such animal(s). Written notification shall include the date, time, location, and circumstances of the incident. The Service contact for this information shall be the Chief, Endangered Species Division, Sacramento Field Office. The Department contact shall be the Environmental Services Supervisor at the San Joaquin Valley-Southern Sierra Region Headquarters. The Service or the Department will be notified if any other animal which is otherwise a Covered Species is found dead or injured.

6. Construction of Supply/Recovery Canal

Within sixty days prior to the construction of the supply/recovery canal within the zone marked within the Map of the Kern Water Bank, KWBA shall conduct a limited survey within the area of the Kern Water Bank which will be affected by that construction, with the sole goal of identifying potential San Joaquin kit fox dens and/or burrows occupied by burrowing owls. KWBA shall contact the Service and the Department pursuant to the salvage procedures set forth above if any kit fox dens are found.

7. Fully-Protected Species

KWBA, the Service and the Department recognize that certain species found on the Kern Water Bank, including the blunt-nosed leopard lizard, have certain special statutory protections ("Fully-Protected Species") pursuant to sections 3511, 4700,5050 and 5515 of the California Fish and Game Code (the "Fully Protected Species Statutes"). The Department agrees that compliance by KWBA with the following procedures shall constitute compliance with the Fully Protected Species Statutes: (A) KWBA will review with the Resource Agencies all actions which risk causing the Take of a Fully-Protected Species prior to engaging in any such action. (B) KWBA will review the project site, adjacent area and existing survey information to determine the likelihood of the presence of Fully-Protected Species. (C) If the review indicates the presence of Fully-Protected Species in the project site or adjacent area, KWBA will engage in project-specific measures to assure that no Take of such Fully-Protected Species occurs. Measures include monitoring, avoidance, hand excavation and relocation, trapping, enclosures, inspection of trenches, project timing, and modification of project site disturbance areas. Any relocation, trapping or other activity which would be considered a "take" of the species under CESA shall be done either by the Service or at the direction of the Service by individuals who possess their own incidental take permits for scientific purposes from the Service.

Vegetation Monitoring Program Observation Monitoring Sites and Livestock Grazing Summary

INTRODUCTION

The Kern Water Bank (KWB) vegetation monitoring program consists of eight permanently established vegetation Observation Monitoring Sites (OMS), each one located in a representative habitat on the KWB (e.g., canal, ditch, pond, uplands, old farmlands, and conservation lands). The locations of monitoring sites have been unchanged since their establishment in the late 1990's. Their locations are shown in Figure 1. The primary purpose of monitoring these sites is to provide a qualitative evaluation and documentation of the dynamic nature of the vegetation on the KWB. Data collected, and observations made at the monitoring sites are used to help guide vegetation management decisions, particularly regarding livestock grazing strategies in an attempt to help improve and maintain habitat quality, control invasive plants, and to facilitate the application of successful adaptive management strategies for the KWB.

METHODS

All eight of the vegetation monitoring sites are typically visited each quarter by one biologist. The biologist collects data such as the observed plant and animal species, basic weather conditions, general vegetation conditions, and other pertinent information. Lastly, photographs from all four cardinal directions (North, East, West, and South) are taken to provide a visual representation of the conditions encountered at each site. The only modification made to the photographic methodology is when recharge is occurring and an OMS site is inundated, making it unfeasible to access the site. In these cases, a single photograph is taken showing the OMS location post. This approach has resulted in many years of successive photographic data that help to illustrate the dynamic nature of the KWB. The data collected from each observation monitoring site is provided as Attachment 1.

RESULTS AND DISCUSSION

Water is the key to life in the southern San Joaquin Desert. More than any other single factor, species are affected most by the availability of water in some form or another. Some species at KWB such as a vast array of waterbirds depend on water not just for drinking as a part of their daily metabolic needs, but much if not all their prey or other essential food items live in and depend upon the availability of water. Even other species such as the San Joaquin kit fox (*Vulpes macrotis mutica*), which is known to have the amazing ability to acquire sufficient water for their needs without having to actually drink water (an adaptation to living in a desert environment that is not at all unique to the kit fox) is nevertheless dependent on the availability of water for their survival. This is because in order for the kit fox to acquire enough water for their survival through their diet and metabolic processes, the prey they consume must contain sufficient water in their

tissues. Some of these prey species are directly dependent upon drinking enough water (essentially all the bird prey species) and some prey species such as kangaroo rats and mice may not necessarily need to drink water; similar to the kit fox, but here too their food items must contain adequate moisture for their survival needs. It has been widely established over the many years of operations at the KWB that essentially all species present benefit from an adequate water supply. This water supply is largely a function of the rainfall and snowfall that occur during the rain year. When rainfall totals are low, it typically leads to diminished habitat quality, not only in wetlands, but also in upland environments as well.

Rainfall during the 2021 rain year (October 1, 2020 – September 30, 2021) for the KWB and surrounding vicinity was approximately 2.94 inches. This is significantly lower than the 7.70 inches that accumulated during the 2020 rain year (October 1, 2019 – September 30, 2020) and just 48% of the long-term average in the Bakersfield area of 6.12 inches. This low rainfall had a very pronounced effect on the vegetation production in 2021. In fact, vegetation at all eight OMS was noticeably small in stature with very little primary production of herbaceous plants observed during the growing season. A good illustration of these conditions is shown in Photograph 1 which illustrates conditions observed during the first quarter of 2021 at OMS 7 which is located within the South Area conservation land bank. This photograph, taken on February 23, 2021, was during the early part of the season when only a few cattle were present - just 35 Animal Units – (an Animal Unit or AU, is one adult cow and her calf) that were being used to thin out some of the residual dry matter left from the 2020 season. All the cattle were removed only one week later at the end of February after it was looking like there could be a diminished growth of herbaceous vegetation due to the rainfall becoming scarce. If rainfall were to continue in sufficient quantity, cattle would have been turned out to help keep growth in check. However, rainfall stayed quite scarce for the remainder of the year and no cattle were returned to the South Area in 2021. Photographs 2 and 3 show conditions through the spring and summer at the same OMS 7.

The primary means to control vegetation growth at the KWB is via a managed livestock grazing program that has been in place for many years. As was already discussed above, rainfall conditions in 2021 did not result in a need for any prolonged grazing in any of the areas at KWB. However, a couple of later rainstorms led to some undesirable growth of Russian thistle (*Salsola tragus*) in some areas during the summer and early fall in 2021. One such area was located within the North Main Area at KWB where a bloom of Russian thistle was becoming established during the latter part of June. Cattle were turned out in early July to attempt to combat this late-season bloom. The cattle did do a good job in this area in helping to remove a lot of the excessive growth. Photograph 4 shows a portion of the area on August 25, 2021, just prior to the drawdown of cattle in this area. All cattle were completely gone from this area during the first week of September.

Another area where cattle were utilized to attempt to help reduce a heavy bloom of Russian thistle in 2021 was the newly constructed Nikkel Ponds located south of Stockdale Highway and west of Enos Lane. The Nikkel Area faces significant challenges with Russian thistle due to its geographic location downwind from historically problematic

Russian thistle stands that tend to perpetuate on other landowner properties to the west and northwest of the Nikkel Area. Photograph 5 shows the conditions at one of the two new basins on the Nikkel Area just after cattle were turned out in late June 2021. The cattle were monitored for effectiveness of combating the Russian thistle plants for several weeks. Although the cattle did eat portions of the plants and seemed to make some headway, the results were not as significant as was hoped (Photograph 6). In early August it was discovered that the cattle were causing some significant damage to the basin berms and it was decided that the relatively minor beneficial effects the cattle were providing on eating the Russian thistle were outweighed by the repairs to the berms that would be required and the cattle were removed in mid-August.

There were also some very positive observations made during 2021 regarding special-status species despite the low rainfall conditions. The number of San Joaquin kit fox observations made during the 2021 nighttime spotlighting and camera station monitoring activities were higher than what was reported in recent prior years. Additionally, the number of Tipton kangaroo rats that were trapped at the permanently established trapping grids located within the conservation back area was among the highest ever recorded (SVB 2022, in preparation). Also, SVB biologists continued to record observations of San Joaquin antelope squirrels at KWB in 2021, with four separate observations occurring throughout the 2021 season. These positives may be largely a function of more favorable conditions prevailing in 2019 and 2021 for these species and the presence of good residual dry matter and seed that were produced during those two above-normal precipitation seasons. Still, we believe that the high-quality of the native vegetation communities within the conservation bank lands and elsewhere at KWB, coupled with careful adaptive management actions allow for these species to do reasonably well even in less than optimal years.

Photograph 2.

Same site as Photograph 1 on May 20, 2021, showing open conditions with animal runways and abundant small mammal burrows.

Photograph 3.

Same site as Photographs 1 and 2 on August 31, 2021. These open conditions still with abundant small mammal activity prevailed throughout the remainder of the season without the need for grazing.

Photograph 4.

A portion of an area within the North Main Area at KWB on August 25, 2021, that was heavily infested with Russian thistle in June and July 2021. Cattle were used in July and August to remove almost all of the plants prior to most plants setting

Photograph 5.

A portion of one of the recently constructed Nikkel Area ponds on July 8, 2021, showing Russian thistle growth and cattle nipping at the softer portions of the plants.

Photograph 6.

Same pond basin as in Photograph 5 as it appeared on July 27, 2021, showing cattle still nipping at the Russian thistle plants, but having only a relatively minor impact on these plants.

Kern Water Bank

Waterbird, Raptor and Upland Bird Survey Report: October 2011 – May 2022

31 May 2022

Introduction

The property managed by the Kern Water Bank Authority supports a wealth of native wildlife, especially an abundance of upland birds and raptors attracted to the recharge ponds and/or the upland habitats. In order to document and quantify this natural resource value, John Sterling of Sterling Wildlife Biology conducted bird surveys from late August 2012 to late March 2021. These surveys are intended to capture a snapshot of the bird use of the project area during the winter, spring/fall migration and the breeding seasons. The resulting data serve to document the regional importance of habitats on the Kern Water Bank for raptors and upland birds during this period. Most importantly, the data describe the baseline of existing conditions that may be used to inform range management practices with regard to productive bird habitat. This baseline data will be used to measure population trends with range management enhancement and/or unmanaged changes in habitat due to climate conditions.

Methods

Survey Methods

For the waterbird surveys, no surveys were conducted in 2020 to May 2022 due to lack of watered ponds. In previous years, survey dates for 2011-12 were 18-19 October, 25-26 October, 15-16 November, 30 November – 1 December, 13-14 December, 23-25 January, 10-11 February, 28-29 February, 10-11 March, and 8-9 April; for 2017 were 21-22 January, 3-4 February, 23-24 February, 14-15 March, 23-24 March, 1-2 April, 9-10 April, 21-22 April, 3-4 May, 11-12 May, 1 October, 19 October, 2 December; for 2018 were 17 January, 16 February, 20 March; and for 2019 only four visits (1 April, May 29-31, July 9-10 and August 20 2019) due to fluctuations of ponds. Each pond was labeled in the datasheet according to the name on the map provided by the Kern Water Bank Authority. One pond was not marked on the map and was labeled CX for this study. For each pond, Mr. Sterling counted all individuals for species with fewer than one hundred individuals. For species with larger numbers of individuals, he made estimates by counting in increments of ten or one hundred. All watered ponds were visited in all surveys. All data were entered into Microsoft Excel spreadsheets (See attached Appendix A excel file).

For the raptor/Loggerhead Shrike and upland bird surveys, John Sterling visited the sites approximately every two weeks for a total of 251 raptor/Loggerhead Shrike and 220-223 upland bird surveys. The dates of the surveys were approximately every two weeks starting on 31 August 2012 to 27 May 2022, with 3-4 surveys during some winter, fall and spring migration months and with breaks in June and July in some years. Raptor/Loggerhead Shrike surveys were conducted in June and July only in 2015–2021. Upland bird surveys were not conducted regularly during much of the summer period as most nesting had been completed by 31 May, and there were few birds remaining on the study area until fall migration began in September. Upland bird surveys were conducted on fixed, transects (Figure 1). Mr. Sterling conducted upland bird surveys by walking transects and recording all birds heard or seen within 200 meters of the transect line. He tabulated the numbers of each species. Transects were 0.25 to 0.5 miles long. For the raptor surveys, Mr. Sterling drove most roads to cover the entire project area and kept running tallies of numbers of individuals of all raptor species and Loggerhead Shrike. All data were compiled onto spreadsheets (See attached Appendix B & C files).

Descriptions of Upland Bird Survey Transects

The following are brief descriptions of the bird habitat along each of the survey transects including photographs showing conditions on 7 June 2013.

Transect A

The transect borders a large canal that is watered and supports a few water birds. As such, it also supports tules and some sunflowers and other ruderal plants along its edge. There are several large willow trees (*Salix* sp.) but the habitat is mostly open, ruderal fields with some tumbleweed cover (*Salsola* sp.). During wet years, the ruderal vegetation is rank and relatively tall (up to 4 ft).

Figure 1. Locations of Upland Bird Survey Transects on the Kern Water Bank

Transect B

This transect borders a canal that was watered until spring 2012. It supports several willow trees along its banks along with mulefat, thistles and other ruderal vegetation. The fields are dry ponds and support ruderal vegetation.

Transect C

This transect is a honey mesquite (*Prosopis glandulosa*) woodland with some tree tobacco, annual grasses and some ruderal vegetation.

Transect D

The west side of this transect is a dry pond that is now an open willow woodland with moderate ruderal and annual grassland cover. The east side is a dry pond that is now a ruderal field with low, sparse vegetative cover.

Transect E

This transect has a honey mesquite woodland on the south side, with some annual grasses, but otherwise little vegetative cover apart from the mesquite. On the north side is a dry pond that is a ruderal field.

Transect F

This transect is relatively barren with some grasses, forbs and in some years dominated by tumbleweed.

Transect G

This transect has several honey mesquite shrubs on the east side, but the west side is dominated by saltbush (*Atriplex* sp.).

Transect H

This transect has some Fremont cottonwood saplings, along with an open honey mesquite woodland and tall ruderal vegetation on the west side. The east side is a dry pond and now a ruderal field.

Transect I

This transect has two small willow trees in a field dominated by tumbleweed on the south side, while the north side is an alfalfa field on property adjacent to the project area.

Special-Status Species Criteria

In evaluating the potential presence of special-status species, the following criteria were used to determine which species should be included:

- Bird species listed, or proposed for listing, as threatened or endangered under the ESA (50 CFR 17.11 [listed animals], and various notices in the Federal Register [proposed species]);
- bird species that are candidates for possible future listing as threatened or endangered under the ESA (61 FR 40: 7596-7613, February 28, 1996);
- bird species listed, or proposed for listing, by the State of California as threatened or endangered under CESA (14 CCR 670.5);
- bird species that meet the definitions of rare or endangered under CEQA (CEQA Guidelines, Section 15380);
- bird species of special concern to CDFG (CDFG in preparation [birds, Shuford and Gardali 2008];
- bird species fully protected in California (California Fish and Game Code, Section 3511 [birds]; and
- bird species included in CDFG's list of special animals and monitored by the California Natural Diversity Database (CNDDB).

Results

Two hundred and twenty-one species of birds have been recorded thus far at the Kern Water Bank during water bird, upland bird and raptor surveys since this project began in mid October 2011 (Appendix A). Many of those are discussed below or in the previous reports (Sterling Wildlife Biology; 27 April 2012, 9 December 2013, 1 June 2015, 23 May 2016, 11 June 2017, May 2018, May 2019, May 2020, and May 2021).

Upland Birds

One hundred and thirty-one species of birds were detected during the upland bird surveys. Of the nine transects, Transects A, C and H have the largest number of species with one hundred and twenty-four, ninety-two and eighty-nine, respectively (Figure 2). Although species richness (number of species) did not vary greatly over time in each transect, numbers of birds counted fluctuated greatly (Figures 3-12). Overall, June 2020 through May 2022 surveys resulted in lower numbers of birds than in previous post-drought years that greatly lowered the mean number of birds for each transect. Transects with the most birds contained mesquite and/or willow trees. Transect I usually harbors large numbers of sparrows during the winter when northern half of transect is planted in alfalfa. These fields were fallow in 2020 to 2021 so overall numbers of birds are dramatically lower. This past year additional species were found in most transects, so it is likely that more species will continue to be documented.

Raptors and Shrikes

The comprehensive survey for raptors and Loggerhead Shrikes on the entire project area resulted in high numbers of raptors including Red-tailed Hawks and Loggerhead Shrikes (Figures 13-14), but also documented fifteen species of raptors using upland habitats during the surveys (Appendix B). Overall numbers of raptors dipped sharply after the winter of 2012-2013 and then steadily decline to fewer than twenty individuals from February 2014 through May 2015, then consistently over twenty from October 2015 to March 2016, and rising considerably to over sixty for much of the fall and winter of 2017-18. Conversely, Loggerhead Shrikes rebounded during the breeding season in 2015 after a similar decline (Figure 14). The increase from ten to fifty-five during a two-month period in spring 2015 was due to good reproductive success of local breeding population. The primary difference among the habitat conditions between spring of 2014 and 2015 was the lack of grasses and forbs in 2014 that resulted in low prey populations (large insects and lizards) in contrast to the tremendous amount of grasses and forbs in winter and spring of 2015. Although the amount of grasses and forbs were lower in 2016, the higher population maintained through the winter of 2015-2016 led to a higher breeding population that also had good reproductive success. The raptor and shrike populations increased dramatically during the winter of 2017-18 likely due to increased populations of prey. In 2019-2020, shrike populations fluctuated with a post-breeding high of 76 in July 2019 to a low of 26 in early October and rebounded to over sixty by January likely due to influx of migrants from the northern part of the species' range. In 2020-2021, populations also fluctuated from a post-breeding high of 78 in July 2020 to a winter low of 37. A low count of 24 on 6 August 2020 was an anomaly and high temperatures could have been a factor for the depressed count. For raptors, population levels in winter and summer were lower those of the previous winter and breeding season, likely due to reduced prey abundance from lack of watered ponds and lower vegetation growth.

Special Status Bird Species

There have been twenty-five special-status bird species found during the raptor and upland bird surveys since the project began in October 2011 (Table 2) with an additional ten species of waterbirds found during waterbird surveys.

Table 2. Species Status Bird Species (Waterbirds, Landbirds and Raptors) found on the Kern Water Bank

Species Name	Conservation/Legal Status	Seasonal Status	Habitat	Record Dates
Canvasback	IUCN Least Concern	Migration, Winter	Marshes and open ponds	Found almost daily in winter and in smaller numbers in spring when habitat is available.
Redhead	CA Species of Special Concern	Migration, Winter, Nesting	Marshes and open ponds	Found almost daily throughout year when habitat is available.
Barrow's Goldeneye	CA Species of Special Concern			One on 25 January 2012
White-faced Ibis	CA Watch List; IUCN Least Concern	Migration, Winter, Nesting	Marshes and open ponds	Found daily throughout year when habitat is available.
American White Pelican	CA Species of Special Concern	Migration, Winter	Marshes and open ponds	Found almost daily throughout year

				when habitat is available.
Double-crested Cormorant	IUCN Least Concern	Migration, Winter	Marshes and open ponds	Found almost daily throughout year when habitat is available.
Cooper's Hawk	CA Watch List	Migration, Winter, Potential nesting	Nests in trees, hunts in woodlands and open grasslands	Daily during migration with some in winter
White-tailed Kite	State Fully Protected	Migration, Winter, Potential nesting	Nests in trees, hunts in open grasslands	Daily during migration and winter in 2011-2012 with up to 16 individuals, but absent during drought. Only 1-3 in winters of 2017-18, 2018-2019 and 2019-2020. Numerous counts of 4-6 during 2020-2021 were highest since 2011-2012.
Northern Harrier	CA Species of Special Concern	Migration, Winter, Potential nesting	Nests on the ground, hunts in wetlands and open grasslands	Daily during migration and winters in 2011-2012, 2016-17 and 2017-18, but mostly absent in drought winters with a few scattered records of individual migrants. Likely nesting in 2018-2021.
Swainson's Hawk	CA Threatened Species	Nesting, Migration, Winter	Nests in trees, hunts in open grasslands	Nesting in summer 2012, scattered winter records in 2011-12; up to five individuals in Mar-May 2013; up to three individuals in Mar-May 2014; and up to four individuals in Apr/May 2015. No nest located on water bank property in 2015. Three active nests on water bank property in 2016 (Figure 14). Approximate locations: 1) 35°20'35.59"N, 119°20'27.20"W; 2) 35°20'43.52"N, 119°15'42.37"W; and 3) 35°19'11.17"N, 119°13'15.58"W. No active nests found in 2017. No active nests found in 2018, but up

				to fourteen individuals seen in spring 2018 so may be nesting on site. Nesting occurred in 2019 and 2020 with 2-3 pairs. Likely nesting pair in spring 2021. Two possible nesting pairs in spring 2022.
Ferruginous Hawk	CA Watch List	Winter	Hunts in open grasslands	Daily during winter except in 2017-18 with only one occurrence; rare dark morph individual in March 2016
Golden Eagle	State Fully Protected and Federal Eagle Protection Act	Winter	Hunts in open grasslands	Twelve winter records
Bald Eagle	State Fully Protected and Federal Eagle Protection Act	Winter, Migration	Hunts in wetlands and open grasslands	One record of second-year old bird on 30 October 2018 and another of an adult on 9 March 2020.
Osprey	CA Watch List	Migration, Winter	Hunts in wetlands and canals	Daily during winters of 2011-12, 2016-17, 2017-2018 and 2019-2020 with only a few sightings of migrants during other periods
Snowy Plover (inland)	CA Species of Special Concern	Migration, potentially in Winter	Open mudflats	Two on 20 March 2018
Mountain Plover	CA Species of Special Concern and Federal Proposed Threatened	Migration, Winter	Roosts and forages in grasslands	Two on 14 October 2013
Long-billed Curlew	CA Watch List and Federal Bird of Conservation Concern	Migration, Winter	Roosts and forages in grasslands and wetlands	Scattered winter and migration records
Caspian Tern	CA Watch List; Federal Bird Species of Conservation Concern	Migration, Winter, Potential nesting	Marshes and open ponds	Found almost daily throughout year when habitat is available.
Black Tern	CA Species of Special Concern	Migration	Open ponds	Two on 21 April and 3 May 2017
Burrowing Owl	CA Species of Special Concern	Nesting, Migration, Winter	Nests and hunts in grasslands	Found on most visits through year, and nested each spring
Vaux's Swift	CA Species of Special Concern	Migration	Forages over wetlands and grasslands	Found during a few spring migration visits
Merlin	CA Watch List and Federal Bird of		Hunts in grasslands and wetlands	Regular during late fall to spring with 41 records.

	Conservation Concern			
Peregrine Falcon	Federal Bird of Conservation Concern	Migration, Winter	Hunts in grasslands and wetlands	Regular during fall and winter of 2011-12, scattered records since then, increased sightings in 2017 and 2018. Total of 51 records.
Prairie Falcon	CA Watch List and Federal Bird of Conservation Concern	Migration, Winter	Hunts in grasslands	Found on most visits from Nov through Mar especially during the drought winters with 68 records.
Nuttall's Woodpecker	Federal Bird of Conservation Concern	Nesting, Migration, Winter	Nests in trees, forages in woodlands	Found on some survey visits on Transects A, B, C.
Willow Flycatcher	CA Endangered Species	Migration	Roosts in trees, hunts in open woodlands forages	Regular but sparse during migration
Vermilion Flycatcher	CA Species of Special Concern	Migration, Winter. Potential nesting	Nests in trees, forages in open woodlands and scrublands	Several fall and winter records of at least ten individuals since 2011 including at least six different individuals in 2017, and two together on Transect A in winter of 2019-2020.
Loggerhead Shrike	CA Species of Special Concern and Federal Bird of Conservation Concern	Nesting, Migration, Winter	Nests in trees, hunts in open woodlands and scrublands	Found during each survey visit with a low of 10 and a high of 93 during spring 2018.
California Horned Lark	CA Watch List	Nesting, Migration, Winter	Nests on ground, forages in barren fields with little grassland cover	Found during each survey visit. Many breeding during 2015-2022.
Purple Martin	CA Species of Special Concern	Migration	Forages over wetlands and grasslands	1 Apr 2012 and 23 May 2019
Lucy's Warbler	CA Species of Special Concern	Migration	Nests in trees, hunts in open woodlands and scrublands	1-4 Oct 2012; second record for the entire Central Valley
Grasshopper Sparrow	CA Species of Special Concern	Migration, Winter, Potential nesting	Nests on ground in grasslands	13 Nov, 10 Dec 2013, 23 Oct 2015
Tricolored Blackbird	CA Species of Special Concern and Federal Bird of Conservation Concern	Nesting, Migration, Winter	Nests in ruderal and marsh vegetation, forages in grasslands, fields and wetlands	Nesting in summer 2012 and 2017, found most days in migration and winter during 2011-2012; nesting off site in 2015, 2018, and 2019 but foraging on the water bank property. May have a few nests in 2020 along Kern River at Transect E.

				No nesting in 2021 as of 21 May. No nesting in 2022 but nesting off the site as small flocks seen flying over during April and May going from unknown nesting site to and from foraging sites
Yellow-headed Blackbird	CA Species of Special Concern	Migration, Winter. Potential nesting	Nests in marsh vegetation, forages in grasslands, fields and wetlands	Regular during migration and winter in 2011-12, and spring 2017-2019 (may have nested in 2017)
Lawrence's Goldfinch	Federal Bird of Conservation Concern	Migration, Winter, Potential nesting	Nests in trees, forages in open woodlands and scrublands	Two late fall records in 2013, pairs on 23 Apr 2015, 1 Apr and 9 May 2016. Flocks Oct 2015-Jan 2016. Small flocks in spring 2018-2021. Largest flock ever recorded for this species was 700 on a single field on 4 December 2018.

Rare Birds

A few birds were discovered during the surveys that are not special-status species, but out of their normal range. These records are very important to our understanding of vagrancy in birds and the data are archived by county editors for "North American Birds" magazine and the online eBird database (administered by Cornell University's Laboratory of Ornithology). During fall migration two Black-throated Sparrows were found on Transects A and C. This desert species is very rare in the Central Valley. A fall migrant Clay-colored Sparrow was in mesquite and cottonwoods between transects A and B. This midwestern species is rare anywhere in California and especially in the Central Valley from which there are fewer than ten documented records. Surprisingly, no fewer than eight Brewer's Sparrows were found wintering in 2012-13 and several have been found each winter thereby establishing the area as a regular wintering area. Before the project there were very few documented records of this Great Basin and desert species during winter months in the Central Valley. There have been seven records of migrant Sage Thrashers—a Great Basin species, which is a rare but annual migrant in the Central Valley. During a 2012 fall survey, a Chestnut-collared Longspur was heard calling in flight over Transect I. This is a very rare wintering bird in the San Joaquin Valley and Tulare Basin with fewer than ten records. On a Christmas Bird Count before these surveys began, an Eastern Phoebe was documented for one of very few San Joaquin Valley and Tulare Basin records of this eastern species, which rarely occurs in California. During a spring surveys on 1 April 2012 and 12 March 2015, single Cassin's Kingbirds were found establishing the only Tulare Basin records away from eastern Bakersfield (only one record from nearby Kings County). Also on 1 April 2012, a male Purple Martin was photographed migrating over grasslands for one of few records for the Tulare Basin and San Joaquin Valley. Two rare warblers, Lucy's and Virginia's were found during fall migration for only the second and third records for the Central Valley, respectively. At least six different Vermilion Flycatchers were present from fall 2017 to early spring 2018. This rare desert species has been increasing in the Central Valley in recent years and has nested in nearby Kings County at least once. Rare inland gulls include Sabine's, Glaucous, and Western found on 1 October 2017, 26 February 2019, and 27 January 2018, respectively. On 12 May 2019, the Central Valley's second Neotropic Cormorant was found and seen again on 15 May. Also the first Kern County record of Glossy Ibis was photographed on 23 April 2019, but could not be relocated. An amazingly large flock of 700 Lawrence's Goldfinches were in one dry field on 4 December 2018, which may be the largest flock on record for this species. High counts in the global database eBird were less than 350.

Highlights for June 2019 to May 2020 include a juvenile Brown Pelican on 9 August 2019, only the third or fourth record for Kern County, a Little Stint on 8 March 2020 from Europe that is rarely encountered in California and is the first record for Kern County, an adult Glaucous Gull probably the first record of an adult for Kern County and one of few records for the species, a Sandhill Crane which rarely ventures south from its wintering grounds at Pixley NWR in Tulare County on 29 January and 30 March 2020, an Eastern Phoebe that wintered along Transect H, and a Swamp Sparrow that wintered along Transect E and is the second record for the Kern Water Bank.

There were few highlights for June 2020 to May 2021 with a Green-tailed Towhee on 17 March a likely over-wintering bird as their spring migration period starts in mid-April. A single adult male Vermilion Flycatcher was only one found—fewer than in recent years. A Short-eared Owl on 12 November was the first seen during surveys (others had been documented by Kern Water Bank staff).

There were no real highlights for June 2021 to May 2022.

The Kern Water Bank has exceptional habitats for birds and many rare birds will likely be found and documented in the future dependent upon survey efforts.

Discussion

The bird use of property managed by the Kern Water Bank Authority is clearly very high in accordance to the large acreages of upland and wetland habitats. Overall, in terms of bird abundance, species diversity, acreage, location and habitat diversity, it is an important area of upland habitat, especially when compared to surrounding agricultural lands. And it is even more important for its wetland habitat when water is available. These surveys documented particularly large populations raptors and shrikes, sparrows, and many other species typical of native upland habitats on the San Joaquin Valley floor. Of particular interest were the differences in the effect of the drought conditions among the years. There was measureable precipitation in winter of 2014-2015 and in the spring of 2015 with lesser amounts in winter 2015-2016 and spring 2016, and again in winter 2016-2017 which resulted in much growth of grasses and forbs throughout the water bank property. Little measurable precipitation in winter of 2020-2021, resulted in very little new vegetation growth during spring 2021 that left the area mostly devoid of grasses and forbs. There was more precipitation in the winter of 2021-2022, but still not enough to end the drought. However, this precipitation resulted in more grasses and forbs than in the previous year, but not matching non-drought years. As a result, overall land bird populations had increased from the previous year.

Loggerhead Shrike populations were lower than in previous five years but higher than 2013-2014 levels, likely the result of continued drought. These shrikes prey upon large insects and lizards that were common during the springs of 2015, 2016, 2017 and 2018. The highest counts of Loggerhead Shrikes of the survey project were of 93 during two surveys in June and July 2018—the result of a successful breeding season for a large nesting population. The breeding season of 2019 was also successful with a large population influx of juveniles and 2020 was moderately successful while maintaining population levels above those during the drought.

From June 2021 through May 2022, raptor counts were down slightly from the previous year, but still above counts during the prolonged drought period from fall 2013 to fall 2017.

Importance of The Kern Water Bank to Wetland Birds in the Tulare Basin, California

John Sterling, Sterling Wildlife Biology, 26 Palm Ave, Woodland, CA 95695

The Kern Water Bank (KWB) occupies approximately 20,600 acres in the Tulare Basin of the southern San Joaquin Valley of California. The KWB is operated by the Kern Water Bank Authority (KWBA) under a Habitat Conservation Plan/Natural Community Conservation Plan (HCP/NCCP) executed on October 2, 1997 (Kern Water Bank Authority 1997). The HCP/NCCP provides for the overall management of KWB lands to “accomplish both water conservation and environmental objectives. The primary water conservation objective is to store water in the aquifer during times of surplus for recovery during water shortages. The main environmental objective is to set aside large areas of the KWB for threatened, endangered, and sensitive species and to implement a program to protect and enhance the habitat.” The KWB is critical to Kern County meeting the goals of the Sustainable Groundwater Management Act by providing a reliable source of water during times of drought to both farmers in the southern San Joaquin Valley and the residents of Bakersfield. At the same time, the KWB has provided up to 8,900 acres of intermittent wetland habitat and 11,000 acres of upland habitat to preserve wildlife resources. The intermittent wetlands were created primarily from converted agricultural land and provide important habitat for many wetland bird species.

Following a greater than 90% loss of historical wetlands throughout the Central Valley (Fleskes 2012), the Central Valley Joint Venture (CVJV) was founded in 1988 to foster collaboration through partnerships to protect, restore, and enhance wetland habitats to achieve the goals of the North American Waterfowl Management Plan. This group, comprised of 20 federal and state agencies, environmental and duck hunting organizations, research institutions, and other stakeholders, was charged with creating and implementing plans to reach objectives of increased wetland acreage and waterfowl populations. In 2006, shorebirds, waterbirds and riparian songbirds were added to its responsibility. The recent implementation plan (CVJV 2020) includes specific wetland acreage and bird population goals for the Tulare Basin. Creation of wetlands can help the CVJV meet these goals to offset historic habitat loss and help recover migratory bird populations to levels prescribed in the plan (U.S. Fish and Wildlife Service and Kern National Wildlife Refuge 2007, CVJV 2020).

Research documenting population a decline in numbers of dabbling ducks (Anatinae) and an increase in diving ducks (Aythyini, Merginae, Oxyurini) in the Tulare Basin from 1973–2000 (Fleskes et al. 2018) indicates the importance of increasing freshwater wetlands to benefit these populations. In addition, freshwater wetlands such as those found irregularly on the KWB support a large fish population that attract large populations of pelicans, cormorants, herons, egrets, terns, gulls and grebes that largely prey upon fish. The KWB, along with the Kern National Wildlife Refuge (NWR) and the Tulare Lake Drainage District (TLDD), are the largest and most important wetlands within the Tulare Basin (Figure 1). It is important to evaluate the role of the KWB in context within the overall Tulare Basin wetland habitat ecosystem, especially regarding its potential to maximize its value to many waterbird species and to contributed to meeting CVJV’s implementation goals.

I present results of waterbird surveys conducted at KWB from 2011 through 2019 and compare numbers of waterbirds to those of two other major wetland areas in the Tulare Basin. Biodiversity, as measured by species richness, is also an important consideration in ecosystem functions and conservation planning. Therefore, I also compare waterbird species richness at KWB to other major wetland sites in California’s Central Valley.

STUDY AREA

The study area focuses on the KWB, but in order to provide regional context, includes the TLDD and the Kern NWR which are the primary wetlands of the Tulare Lake Basin (Figure 1). Wetlands at the three locations are managed for different purposes; the KWB for aquifer recharge, TLDD to dispose of and mitigate for saline water runoff from agricultural irrigation, and the Kern NWR for habitat to support waterbirds. The former two areas provide waterbird habitat as a byproduct of their water management.

The KWB currently has 89 basins totaling 8,900 acres that have been created with levees to hold water to recharge the aquifer. The number of basins holding water varies greatly according to availability of water that the KWBA can purchase. When water is unavailable, the basins become dry. The basins vary in size from 6.4 to 556 acres, with most of the largest basins on the western side of the KWB. Water depth varies between and within ponds because they are graded with an incline toward the west in order to promote gravity movement of water between ponds. Also, some ponds have deeper areas that provide variable water depths within them. Water depth in each basin varies constantly based on the water application, infiltration to the aquifer, and evaporation. The acreage of wetland vegetation for each pond has never been measured at any given time, and it varies among basins (for example see Figure 2) and continuously as vegetation develops during wetted periods and dessicates when ponds are dry. Wetland vegetation includes areas dominated by cattail (*Typha* sp.), bulrush (*Scirpus* sp.), and sedges (*Carex* sp.) among other marsh plants.

Much of the 4,740 acres of wetlands in the TLDD consist of open ponds with highly saline water with no wetland vegetation. The ponds support a food chain dominated by invertebrates, including brine shrimp (*Artemia* sp.) and brine fly (*Ephydra* sp.) that are adapted to saline conditions. The Kern NWR features 11,249 acres of mostly freshwater wetlands with a large proportion in dense marsh and few open water ponds.

METHODS

I visited watered ponds to conduct waterbird surveys on the KWB on the following survey dates by year.

- 2011: 18–19 and 25–26 October, 15–16 November, 30 November–1 December, 13–14 December;
- 2012: 23–25 January, 10–11 and 28–29 February, 10–11 March, and 8–9 April;
- 2017: 21–22 January; 3–4 and 23–24 February; 14–15 and 23–24 March; 1–2, 9–10, and 21–22 April; 3–4 and 11–12 May; 1 and 19 October; and 2 December;
- 2018: 17 January, 16 February, 20 March; and
- 2019: 1 April, 29–30 May, 9–10 July, and 20 August.

These dates corresponded to the periods when water was available on the KWB. Therefore, surveys were not conducted between mid-April 2012 and January 2017, and between April 2018 and March 2019 and after August 2019, when the area was dry.

I counted waterbirds at each pond from roads while in my car if birds were alarmed by my presence, or outside and next to car if birds were calm. The largest ponds required counts from several locations in order to view the entire pond. Each pond was labeled using names provided by the KWBA, and species counts were compiled separately for each pond. All ponds that contained water were visited during all surveys. I counted all individuals for species with fewer than one hundred individuals. For those with larger numbers, I estimated by counting in increments of 10, 50, or 100. Surveys of all ponds took 6–12 hours, depending upon the number of ponds and birds present.

Data from the TLDD were collected on a standardized route, using similar methods as on the KWB, surveyed one day each month from December through February during 2012–13 and 2018–2020 (Hanson Environmental and Tulare Lake Drainage District 2012, 2013, 2018, 2019, 2020, 2021).

Data for the Kern NWR and KWB from the mid-winter waterfowl Pacific Flyway survey in 2011 and 2012 came from the annual aerial surveys conducted by the U.S. Fish and Wildlife Service (S. Frazer pers. comm.). Data from 2021 for the Kern NWR came from a land-based survey on November 12 (U.S. Fish and Wildlife Service 2022).

I compared waterbird species richness at KWB to other Tulare Basin sites and other important Central Valley wetlands, using data from the KWB surveys and data compiled from eBird records (as of March 3, 2022). Where a wetland location had more than one eBird hotspot, I counted species among all hotspots at that location.

RESULTS

Waterbird Numbers

In years when KWB wetlands exist, their wintering waterbird counts are regionally substantial, smaller than those on the Kern NWR but larger than on TLDD (Table 1). The KWB ponds had water only during three periods since the start of the surveys: October 2011–April 2012, January 2017–March 2018, and April–September 2019. KWB supported high populations of waterbirds in two of these three periods, with counts over 30,000 (Figure 3). Data from the aerial waterfowl and coot surveys conducted on 6 January 2012 at 20 locations in the Tulare Basin (S. Frazer pers. comm.) show that the KWB had the second highest count (21,902) following the Kern NWR (40,084) and that the two areas combined supported 62% of the Tulare Basin’s waterfowl and coot population.

Waterbird Species Richness

KWB biodiversity, as measured by species richness (i.e., number of different species), encompassed 90 waterbird species. Its richness ranks among the top seven wetland sites in the Central Valley and the third highest species total south of Merced County (Table 2). Another indicator of diversity is the representation of waterbird families in the species composition. Of the annually occurring waterbird families in inland California, all were represented at KWB except loons (Gaviidae) (which are primarily found inland at deep water lakes, reservoirs, and occasionally in rivers) and jaegers (Stercorariidae), which are rare fall migrants.

DISCUSSION

The up to 8,900 acres of intermittent wetlands on the KWB, along with 11,249 acres on the Kern NWR and 4,740 acres on the TLDD, provide important habitat for wetland bird populations in the Tulare Basin. The KWB provides nesting habitat for many waterbird species that rely upon freshwater wetlands, which also nest at the Kern NWR but less commonly on the TLDD due to lack of wetland vegetation. While many species breed, others use these wetlands during post-breeding dispersal and fall migration during the summer months (Table 3). Regionally significant breeding populations of the Redhead, Eared Grebe, Clark's Grebe, Western Grebe, Forster's Tern, Double-crested Cormorant and White-faced Ibis have been documented on the KWB (Table 3). And wintering waterbird populations were over 30,000 on several occasions (Figure 3), and peak counts included large numbers of American White Pelican, numerous duck species, American Coots, and many others (Table 3).

The total number of waterbirds on the KWB varied greatly (Figure 3) due to number of watered ponds, length of time that ponds had water, and pond seasonality, with long periods of no water due to drought and lack of available water for the KWBA to purchase. Regardless of these factors, the large number of waterbirds illustrate the importance of the wetlands to the KWB and to the Tulare Basin. Without water, there are no waterbirds. Add water and they will come.

The establishment of semi-permanent wetlands year-round is considered the best approach for enhancing waterbird populations (CVJV 2020). Semi-permanent wetlands have water from October through July, and water draw-down can take a few weeks depending upon evaporation and percolation rates. Because August and September are the peak months for fall shorebird migration, prolonging draw-down by maintaining some shallow water and mudflats during this period would provide valuable shorebird foraging habitat. The CVJV is “only recommending a wetland habitat objective for semi-permanent wetlands at this time. These wetlands provide much-needed summer habitat and the water management and maintenance schedule is the most realistic option for most wetland managers” (CVJV 2020). This management strategy allows for the development of wetland vegetation and fish and other prey populations to develop. Establishment of semi-permanent wetland is also critical for maintaining suitable habitat during wintering, migrating, and breeding seasons that are required to support a diversity of wetland bird species. Maintaining semi-permanent wetlands on the KWB each year would increase food resources in the Tulare Basin that are currently insufficient to support the basin’s waterfowl population goals set by the CVJV (2020). Finally, additional wetlands would help CVJV objective of 11,166 additional acres for a total of 30,000 acres of wetlands, of which 4,774 acres of semi-permanent wetlands are needed to achieve the goal of 10,000 acres in the Tulare Basin (CVJV 2020).

Introduction

This report documents the results of the 2021 annual wildlife monitoring activities conducted at the Kern Water Bank (KWB). On behalf of the Kern Water Bank Authority (KWBA), biologists from South Valley Biology Consulting LLC (SVB) conducted all monitoring activities contained in this report.

As identified on Page IV-6 the KWB Habitat Conservation Plan/Natural Community Conservation Plan (KWBA 1997), hereinafter referred to as HCP/NCCP, the annual and bi-annual monitoring consisted of the following activities:

- San Joaquin kit fox (*Vulpes macrotis mutica*) monitoring

Nighttime spotlighting surveys to document the presence of San Joaquin kit fox, its predators and competitors, such as coyote (*Canis latrans*), red fox (*Vulpes vulpes*), American badger (*Taxidea taxus*), and bobcat (*Lynx rufus*), as well as several other nocturnal animals on the KWB.

In addition to the prescribed spotlighting surveys, infrared motion camera stations were implemented again in 2020 to provide supplemental documentation of kit fox activity on the KWB.

- Tipton kangaroo rat (*Dipodomys nitratoides nitratoides*) monitoring.

Trapping surveys on two established trapping grids to assess known population areas of Tipton kangaroo rats on the KWB.

- San Joaquin woollythreads (*Monolopia congdonii*), Kern mallow (*Eremalche parryi* ssp. *kernensis*) and other rare plant species monitoring.

San Joaquin Kit Fox Monitoring

Introduction

San Joaquin kit fox monitoring at the KWB in 2021 consisted of nighttime spotlighting surveys conducted on established routes located throughout the KWB. These surveys are conducted annually to provide an index of San Joaquin kit fox presence on the property. Data collected from the surveys are useful in supplying insights into the densities of not only kit foxes, but also their predator and competitor species that occur within the KWB property. The main predator/competitor species for the San Joaquin kit fox on the KWB are coyotes (*Canis latrans*), bobcats (*Felis rufus*), and American badgers (*Taxidea taxus*). Although the non-native red fox (*Vulpes vulpes*) is also known to occur in the region, this species has not been observed for many years at the KWB.

Methodology

Prior to conducting the nighttime spotlighting surveys, all the lesser-travelled areas of the established nighttime spotlighting route were driven by the biologists during daylight hours. This is typically done every season in the interest of safety; however, the daylight surveys also allow for identifying areas where the most suitable habitats for San Joaquin kit fox are located and for identifying potential den locations that would be worthwhile to target during the nighttime spotlighting surveys. Although the KWB is a very dynamic place and can vary dramatically from year to year, there has not been any need to significantly alter the established spotlighting route in prior years, and this was also the case in 2021. Figure 1 provides an illustration of the 2021 survey route.

Nighttime spotlighting surveys were conducted for six nights during the evening hours. Surveys commenced at or immediately after dusk and most surveys generally took from 3 to 3.5 hours to complete. Survey dates included October 5th, 6th, 7th, 12th, 13th, and 14th. The established survey route is just over 50 miles in length. Therefore, as has been done in prior years, the survey route was divided into two portions totaling approximately 25 miles each (Figure 1). As in prior years, the East Route consisted of all portions lying east of Enos Lane (Highway 43), and an approximately 6-mile stretch lying west of Interstate 5 and south of the Kern River. The other route, referred to as the West Route, encompassed all remaining portions of the established route that lie west of Enos Lane. Both routes were surveyed three times each over the six nights, yielding approximately 150 miles of nighttime spotlighting surveys conducted during the 2021 survey effort.

Each survey was conducted by three biologists, traveling in a vehicle at approximately 5-10 miles per hour. One biologist focused on driving the vehicle, but also was able to provide assistance in identifying species encountered, and was in charge of recording wildlife observations onto a data sheet at specified intervals throughout the survey session. The remaining two biologists each used a 3-million candlepower hand-held spotlight to observe eye-shines and individual animals. Double counting of observations was avoided by maintaining a constant communication while surveying and determining pre-defined areas of observation for each biologist. Observations of all identified animals, paying particular attention to kit fox and their predator/competitor and prey species, were recorded onto standardized field data sheets. The data sheets were later compiled into a Microsoft Access® database. All San Joaquin kit fox observations and observations of kit fox predator and competitor species, such as coyote, bobcat, and American badger, were recorded using a handheld Global Positioning System (GPS) datalogger and the recorded information was later entered into the database.

Results

Results from the nighttime spotlighting surveys are presented in Figure 2. The locations of San Joaquin kit fox and competitor/predator species observations are presented in Figure 1.

There were nine observations of San Joaquin kit fox made during the 2021 nighttime spotlighting surveys. All observations occurred during three separate survey sessions on October 5th, 6th, and 7th. All the observations were made during survey sessions of the East Route, with eight of the observations occurring within the South and Southeast areas of the conservation bank lands and one observation occurring within the James Area recharge lands. (Figure 1).

A total of 13 coyotes were observed during the surveys on all 5 of the 6 survey nights. Most of the observations were of just a single individual; however, two individuals were observed together on two separate occasions. On all occasions, all individuals appeared to be foraging for prey (Figure 1).

Other San Joaquin kit fox predator/competitor species observed during the 2021 nighttime spotlighting surveys included four American badgers, and one unidentified canid or badger that was seen on October 6th in the far eastern portion of the South Area conservation bank lands. The locations of all these observations are also shown on Figure 1.

Other mammalian species observations made during the 2021 nighttime spotlighting surveys included: 17 desert cottontails (*Sylvilagus auduboni*), 57 black-tailed jackrabbits (*Lepus californicus*), 4 kangaroo rats (*Dipodomys* spp.), one bat (unidentified species) and 3 striped skunks (*Mephitis mephitis*).

Numerous avian species were observed during the 2021 nighttime spotlighting surveys. Birds of prey observations included 3 burrowing owls (*Athene cunicularia*), 6 barn owls (*Tyto alba*), 5 great horned owls, one Cooper's hawk (*Accipiter cooperii*), 2 northern harriers (*Circus hudsonius*), 4 red-tailed hawks (*Buteo jamaicensis*), and one American kestrel (*Falco sparverius*). Other avian species included killdeer (*Charadrius vociferus*), loggerhead shrike (*Lanius ludovicianus*), mallard (*Anas platyrhynchos*), great blue heron (*Ardea herodias*), and great egret (*A. alba*).

Discussion

San Joaquin kit fox predator/competitor species observations made during the 2021 nighttime spotlighting surveys were mostly similar to what was reported for 2020 (SVB 2021a). Only 13 coyote observations were recorded in 2021, this represents 3 observations less than the 16 coyote observations made during the 2020 surveys. Coyotes are typically well-represented at the KWB and observations are typically made in all areas and nearly all habitat types. The slightly lower number of observations in 2021 may be due to a continued decline in the number of key prey species such as rabbits and hares. The numbers of observations of these prey species saw a continued decline as well. As was discussed in the 2020 annual report (SVB 2021a), desert cottontail and black-tailed jackrabbit observations during the 2020 nighttime spotlighting surveys had dropped significantly from what were observed in 2019. The number of desert cottontail observations were significantly lower again in 2021 with only 17 individuals observed. Black-tailed jackrabbit observations also declined from 73 observations made in 2020 to 57 observations in 2021. Rabbit Hemorrhagic Disease

(RHD) that was reported to be a concerning factor for significant rabbit mortalities elsewhere in Kern County did not appear to manifest itself at the KWB, as no obvious large-scale mortalities of rabbits were observed. The declines in the number of rabbits at KWB appear to be more likely attributed to the natural ebbs and flows of these species numbers and it is likely that their numbers will increase again in future years as precipitation and primary production improve.

American badgers were observed on four occasions during the 2021 nighttime spotlighting surveys. This CDFW species of special concern appears to be fairly well represented at the KWB with individuals observed in most areas throughout the year. American badger activity is often observed during other annual monitoring activities and they appear to be most numerous in areas where abundant prey such as kangaroo rats, mice and other small prey species are found.

2021 marked the fourth consecutive year with San Joaquin kit fox observations made during the nighttime spotlighting surveys. Although the nighttime spotlighting surveys are very useful, the nature of the methodologies do not always result in observations of kit foxes being made. Although most of the observations of kit foxes tend to be concentrated in the Southeast Area in any given year, we are starting to make observations elsewhere at the KWB more frequently. In 2021, not only did we have observations of kit foxes in the Southeast Area, but also in the South Area and the James Area which is actually within the compatible habitat sector of the James Area groundwater recharge basins. The James area observation in particular is encouraging to see, and it shows that not only the conservation bank lands are used by the San Joaquin kit fox, but the compatible habitat areas within the recharge portions of the KWB are also being utilized by this species.

Along with the nighttime spotlighting survey sessions to help provided an index of San Joaquin kit foxes and their predator/competitor species at KWB, infrared motion detection camera monitoring has proved to be a very important complement to these surveys. SVB has used camera monitoring at 12 different camera stations during the annual monitoring activities for the past few years now. The cameras are placed throughout the KWB in a variety of habitats to try to collect photographs of San Joaquin kit foxes and their predator/competitor species. In 2021 SVB biologists placed a total of 12 cameras in several areas spread throughout the KWB (Figure 1). An infrared motion detection camera was placed at each station along with a perforated can of cat food that was securely fastened to the ground with a 12-inch metal stake. All cameras were operated for 6 consecutive days and nights from November 22nd through November 29th.

San Joaquin kit fox was photographed on two separate occasions (November 23rd, and November 24th at Camera Station 3. This correlates with the several kit fox observations made during the nighttime spotlighting surveys conducted earlier in the year. Camera Station 3 is situated in the Southeast Area within the conservation land bank. The habitat in this area is exceptional for San Joaquin kit fox and this area has been a

hotbed of kit fox activity for many years now. Although much of the lands are previously farmed from many years ago, the habitat has regenerated with very high quality grassland and shrubland habitat that are ideal for the kit fox. The area provides an abundant food supply in the form of many small mammals and other prey species, along with adequate cover to help provide protection from coyotes and other potential predators.

Coyote visitations were photographed at 5 of the camera stations in 2021. All visitations were of one single individual. No bobcats observed during the nighttime spotlighting surveys conducted in 2021, but one individual was photographed at Camera Station 12 located in the West Area just outside one of the recharge basins (Figure 1).

Other wildlife species photographed included black-tailed jackrabbit, kangaroo rat, striped skunk (*Mephitis mephitis*), racoon (*Procyon lotor*), and white-crowned sparrow (*Zonotrichia leucophrys*), and western meadowlark (*Sturnella neglecta*). Representative photographs of some of the wildlife from the camera station monitoring are provided below.

Tipton Kangaroo Rat Monitoring

Introduction

Tipton kangaroo rat monitoring at the KWB is required annually at two permanently established trapping grids in accordance with the HCP/NCCP. The Strand Grid is located in the northwest $\frac{1}{4}$ of Section 7, Township 30 South, Range 26 East and the Southeast Area Grid is located in the northwest $\frac{1}{4}$ of Section 33, Township 30 South, Range 26 East.

Methodology

The Strand Grid and the Southeast Area Grid are both standard 110-meter by 110-meter, 144-station, small mammal trapping grids. Each grid consists of twelve equidistant rows, spaced 10 meters apart. Monitoring efforts at each grid in 2021 consisted of four successive nights of trapping. Trapping was conducted at the Southeast Area Grid on July 13th, 14th, 15th, and 16th. The Strand Grid was trapped on July 20th, 21st, 22nd, and 23rd. This technique yielded a total of 1,152 trap nights over the course of the 2021 trapping effort.

A 15-inch x 4-inch x 4.75-inch Sherman live trap was placed at each trap location. Each trap was baited using a millet-based seed mix. A wadded paper towel and a fist full of polyester batting were also included in each trap to provide insulation and bedding material for the captured animals. The traps were baited and set in the evening and checked just prior to sunrise the following morning. Two biologists worked independently on separate trap rows and checked 72 traps each morning. This technique was utilized to help reduce the handling time and minimize stress to the captured animals. Each captured animal was identified to species and the individual's weight, age, and sex were also recorded onto a standardized data sheet. After all data were collected and recorded, the animal was temporarily marked ventrally with a non-toxic ink marker and then immediately released at the site of capture. To further minimize subsequent handling times, males were marked with a blue marker and females were marked with red. Additionally, an individual was weighed only once, and no re-weighing of recaptured animals was conducted.

Deer mice (*Peromyscus maniculatus*) were not handled in the same manner as all the other species. When a deer mouse was captured, no data on sex, weight, or any other parameter was collected. Therefore, the number of deer mice reported here includes recaptures. This was a safety consideration intended to minimize potential exposure to Hantavirus. Although the concerns from exposure to Hantavirus have somewhat waned in the past several years, SVB will continue to minimize handling of deer mice during future trapping efforts unless and until recommendations health officials are changed from the current methodologies.

Results

Results from the 2021 Tipton kangaroo rat monitoring are summarized in Figure 3.

No Tipton kangaroo rats were captured at the Strand Grid in 2021. Other animals trapped at the Strand Grid were as follows: 56 Heermann's kangaroo rats (*Dipodomys heermanni*), 4 San Joaquin pocket mice (*Perognathus inornatus*), and 14 deer mice.

The trapping effort at the Southeast Area Grid yielded a total of 44 Tipton kangaroo rats, 7 Heermann's kangaroo rats, one San Joaquin pocket mouse (*Perognathus inornatus*), and 5 deer mice.

Discussion

Female Tipton kangaroo rat (red marking on abdomen indicates a female recapture) at Southeast Area Grid

The numbers of Tipton kangaroo rats trapped in 2021 were unexpectedly high. In fact, the 44 new captures were among the highest ever recorded for a single monitoring effort (47 new captures were recorded at the Southeast Area Grid in 2017). There were only 6 individuals captured in 2019 and 15 in 2020. SVB also conducts annual live trapping at the neighboring Coles Levee Ecosystem Preserve (CLEP) and we often compare results with the trapping efforts conducted there with the KWB trapping effort. From 2020 to 2021, we saw a similar number of Tipton kangaroo rats captured at CLEP during both monitoring years (n=65 for 2020, and n=60 for 2021). However, during the same period at the KWB, we saw a nearly 200% increase in the number of Tipton kangaroo rats trapped (n=15 for 2020, and n=44 for 2021). This is despite the very low rainfall that occurred during the 2021 rain year (October 1, 2020 – September 30, 2021),

which saw just 2.94 inches of precipitation during that time period. In looking at long term fluctuations in numbers of Tipton kangaroo rats trapped at both CLEP and the KWB, precipitation has always played a key role. However, there are times when the populations do not necessarily mirror the precipitation total. Although, this has not been common, it does sometimes happen. We have attributed these uncommon fluctuations to the ability of the species to exploit favorable environmental conditions that are often experienced with abundant rainfall resulting in correspondingly abundant seed and other food for a time. However, these exploitations are generally short-lived and cannot be sustained through multiple seasons without a return to normal or above normal precipitation to replenish the available seed for kangaroo rats.

San Joaquin pocket mouse at Southeast Area Grid

The habitat at the Southeast Area Grid where Tipton kangaroo rats seem to dominate, is a very high-quality alkali sink scrub. The Tipton kangaroo rat is widely known to thrive in

this type of habitat and we have seen this play out for several seasons. Heermann's kangaroo rats also occur at the Southeast Area Grid, but they never seem to dominate at that grid. At the same time that 15 and 44 Tipton kangaroo rats were trapped in 2020 and 2021, respectively, just 1 Heermann's kangaroo rat was trapped in 2020 and only 2 were trapped in 2021 at the Southeast Area Grid. Contrast this with the Strand Grid which has become dominated by dense stands of allscale (*Atriplex polycarpa*). We trapped 77 Heermann's kangaroo rats at the Strand Grid in 2020 and the number actually dropped to 56 individuals in 2021. This is a pattern that we have seen for several years now where the Heermann's kangaroo rats population seems to fluctuate much more widely than the Tipton kangaroo rat population, especially in the negative direction when precipitation is low. It would appear that the Tipton kangaroo rat, can compete quite well in situations where habitat conditions are excellent, while at the same time holding their own against competitors in the same habitats, even when precipitation levels are low. Still, the key to sustaining these Tipton kangaroo rat populations rests in maintaining the high quality alkali sink habitats that remain at the KWB and other nearby areas within the southern San Joaquin Desert.

Sensitive Habitat Botanical Monitoring

Introduction

Seven special-status plant species have been reported to occur at the KWB. These are: Hoover's woolly-star (*Eriastrum hooveri*), San Joaquin woollythreads (*Monolopia congdonii*), recurved larkspur (*Delphinium recurvatum*), Kern mallow (*Eremalche kernensis*), oil neststraw (*Stylocline citroleum*), Horn's milk-vetch (*Astragalus hornii* var. *hornii*), and slough thistle (*Cirsium crassicaule*). Each year SVB biologists conduct site visits to known populations of the special-status species on the KWB. These site visits continue throughout the late winter and into the early summer and beyond in favorable rainfall years.

Results and Discussion

The 2019 - 2020 rain year (October 1, 2020 - September 30, 2021) was well below the long-term normal average of approximately 6.12 inches in the Bakersfield and surrounding area (DWR 2021). Precipitation in the Bakersfield area was just 2.94 inches, which equates to an approximate deficit of about 48%. As a result, overall primary production in general was greatly diminished and conditions were mostly not favorable for the special-status plant species populations that were visited at KWB in 2021.

San Joaquin woollythreads is the earliest to germinate and bloom of all the special-status plants at KWB. Germination is often quite variable, but in most years with adequate precipitation, individual plants begin to germinate in late January or early February. In 2021, SVB commenced monitoring of known San Joaquin woollythreads populations at KWB on February 10th. All of the known populations of San Joaquin woollythreads were visited by SVB biologists on this date, and most populations were visited again on several other occasions throughout its germination and growing

season. Site visits were timed to help document the progress of growth and vigor of plants in 2021. Initially, due to the very low rainfall and initial observations of very small plants and very dry conditions, SVB biologists believed that very few, if any of the observed San Joaquin woollythreads plants would mature enough to survive much into March. However, although the great majority of plants were generally very small in stature, some plants were surprisingly vigorous considering the diminished conditions in 2021. At the two larger population sites at KWB (the Uhler and Main Populations) some plants produced flowers and fruits. None of the other known populations ever matured far enough to do so.

SVB biologists also visited some of the known populations of Hoover's woolly-star on the KWB in 2021. This species was also mostly in short stature and produced a diminished amount of flowering individuals in 2021. Although SVB biologists were able to identify plants at each of the known sites that were visited, only approximately 30 to perhaps 50 percent of the plants appeared to mature enough to produce flowers and fruits. It is worth noting that the most vigorous individuals seem to have been associated with cryptogamic crusts within the old Strand Oil Field lands east of Enos Lane.

SVB biologists also visited several known sites where Kern mallow has been observed in prior years. Similar to the other special-status species observations, although many plants had germinated and some plants matured to produce flowers and then fruits, in 2021 all observed plants were small in stature and most plants produced very few flowers. In fact, many of the plants we observed only appeared to produce just one flower for the season.

San Joaquin Antelope Squirrel

San Joaquin antelope squirrels have re-established at the KWB and SVB biologists have been making additional observations of this species at the KWB since their rediscovery on January 22nd, 2020. In 2021, a total of four observations of San Joaquin antelope squirrels were made. All observations were made within the KWB conservation lands in and around the South Area (Figure 4). Three of the observations were of adult squirrels foraging during the daytime and one observation was of a very young juvenile on April 30th, 2021, that was observed briefly as it retreated into a burrow. Unfortunately, it was not possible to obtain photographs of these observations as the individuals did not remain stationary long enough to obtain a clear photograph. The observation of the juvenile San Joaquin antelope squirrel is probably the most significant of all the observations made in 2021, as it indicates that the population is continuing to breed and expand their numbers. SVB reported seeing two juvenile San Joaquin antelope squirrels in 2020 (SVB 2021a) at KWB. We believe that the population of San Joaquin antelope squirrels is expanding eastward on the conservation lands, and it is anticipated that if this continues, we will see San Joaquin antelope squirrels in other areas at the KWB in future seasons.

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties.* Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of June 23, 2014 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

To Be Determined

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

KERN WATER BANK AUTHORITY

The estate or interest in the land hereinafter described or referred to covered by this Report is:

A fee.

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2014-2015, a lien not yet due or payable.
2. General and special taxes and assessments for the fiscal year 2013-2014 are exempt.
3. Taxes and assessments, if any, of the North Kern Water Storage District.
4. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.
5. Any title or claim of interest of the United States of America, the State of California, or claimants thereunder, based upon the assertion that said land was known to be mineral in character on June 1, 1855, the date the survey thereof was approved by the Surveyor General.
6. The effect of a map purporting to show the land and other property, filed April 9, 1937 in Book 4, Page(s) 48, 49 and 50 of Record of Surveys.
7. An oil and gas lease executed by Kern County Land Company, a California corporation as lessor and Richard S. Rheem, doing business under the fictitious name of Richard S. Rheem, operator as lessee, recorded November 13, 1963 in Book 3662, Page 542 of Official Records.

Defects, liens, encumbrances or other matters affecting the leasehold estate, whether or not shown by the public records.

8. Terms, provisions, covenants, restrictions and conditions contained in a document executed pursuant to the California Land Conservation Act of 1965 (Williamson Act) and recorded February 27, 1970 as Instrument No. 10922 in Book 4372, Page 684 of Official Records.
- Affects: The land and other property.
9. An easement for canal and incidental purposes, recorded December 6, 1978 in Book 5159, Page 2217 of Official Records.

NOTICE

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier's checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier's checks, or certified checks whenever possible.

LIST OF PRINTED EXCEPTIONS AND EXCLUSIONS (BY POLICY TYPE)

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (02-03-10)
EXCLUSIONS

- In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:
- 1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
 - (a) building;
 - (b) zoning;
 - (c) land use;
 - (d) improvements on the Land;
 - (e) land division; and
 - (f) environmental protection.

This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
 - 2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
 - 3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
 - 4. Risks:
 - (a) that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
 - (b) that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
 - (c) that result in no loss to You; or
 - (d) that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
 - 5. Failure to pay value for Your Title.
 - 6. Lack of a right:
 - (a) to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
 - (b) in streets, alleys, or waterways that touch the Land.

This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
 - 7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows: For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

<u>Your Deductible Amount</u>	<u>Our Maximum Dollar Limit of Liability</u>

Covered Risk 19: 1% of Policy Amount or \$5,000.00 (whichever is less)	\$25,000.00
Covered Risk 21: 1% of Policy Amount or \$2,500.00 (whichever is less)	\$5,000.00

ALTA RESIDENTIAL TITLE INSURANCE POLICY (6-1-87)
EXCLUSIONS

- In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:
- 1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
 - (a) and use
 - (b) improvements on the land
 - (c) and division
 - (d) environmental protection

This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at Policy Date.
This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.
 - 2. The right to take the land by condemning it, unless:

- (a) a notice of exercising the right appears in the public records on the Policy Date
 - (b) the taking happened prior to the Policy Date and is binding on you if you bought the land without knowing of the taking
 - 3. Title Risks:
 - (a) that are created, allowed, or agreed to by you
 - (b) that are known to you, but not to us, on the Policy Date -- unless they appeared in the public records
 - (c) that result in no loss to you
 - (d) that first affect your title after the Policy Date -- this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks
 - 4. Failure to pay value for your title.
 - 5. Lack of a right:
 - (a) to any land outside the area specifically described and referred to in Item 3 of Schedule A OR
 - (b) in streets, alleys, or waterways that touch your land
- This exclusion does not limit the access coverage in Item 5 of Covered Title Risks.

2006 ALTA LOAN POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- 4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
- 5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
- 6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
- 7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

- 1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- 2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an

inspection of the Land or that may be asserted by persons in possession of the Land.

- 3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
- 6. Any lien or right to a lien for services, labor or material not shown by the public records.

2006 ALTA OWNER'S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 or 10); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
- 4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
- 5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

Privacy Information
We Are Committed to Safeguarding Customer Information

In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information - particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our subsidiaries we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability

This Privacy Policy governs our use of the information that you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its Fair Information Values.

Types of Information

Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information

We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers

Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security

We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American's Fair Information Values. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

Information Obtained Through Our Web Site

First American Financial Corporation is sensitive to privacy issues on the Internet. We believe it is important you know how we treat the information about you we receive on the Internet. In general, you can visit First American or its affiliates' Web sites on the World Wide Web without telling us who you are or revealing any information about yourself. Our Web servers collect the domain names, not the e-mail addresses, of visitors. This information is aggregated to measure the number of visits, average time spent on the site, pages viewed and similar information. First American uses this information to measure the use of our site and to develop ideas to improve the content of our site. There are times, however, when we may need information from you, such as your name and email address. When information is needed, we will use our best efforts to let you know at the time of collection how we will use the personal information. Usually, the personal information we collect is used only by us to respond to your inquiry, process an order or allow you to access specific account/profile information. If you choose to share any personal information with us, we will only use it in accordance with the policies outlined above.

Business Relationships

First American Financial Corporation's site and its affiliates' sites may contain links to other Web sites. While we try to link only to sites that share our high standards and respect for privacy, we are not responsible for the content or the privacy practices employed by other sites.

Cookies

Some of First American's Web sites may make use of "cookie" technology to measure site activity and to customize information to your personal tastes. A cookie is an element of data that a Web site can send to your browser, which may then store the cookie on your hard drive. FirstAm.com uses stored cookies. The goal of this technology is to better serve you when visiting our site, save you time when you are here and to provide you with a more meaningful and productive Web site experience.

Fair Information Values

Fairness We consider consumer expectations about their privacy in all our businesses. We only offer products and services that assure a favorable balance between consumer benefits and consumer privacy.

Public Record We believe that an open public record creates significant value for society, enhances consumer choice and creates consumer opportunity. We actively support an open public record and emphasize its importance and contribution to our economy.

Use We believe we should behave responsibly when we use information about a consumer in our business. We will obey the laws governing the collection, use and dissemination of data.

Accuracy We will take reasonable steps to help assure the accuracy of the data we collect, use and disseminate. Where possible, we will take reasonable steps to correct inaccurate information. When, as with the public record, we cannot correct inaccurate information, we will take all reasonable steps to assist consumers in identifying the source of the erroneous data so that the consumer can secure the required corrections.

Education We endeavor to educate the users of our products and services, our employees and others in our industry about the importance of consumer privacy. We will instruct our employees on our fair information values and on the responsible collection and use of data. We will encourage others in our industry to collect and use information in a responsible manner.

Security We will maintain appropriate facilities and systems to protect against unauthorized access to and corruption of the data we maintain.

THIS MEMORANDUM OF LEASE, dated March 11, 1963,
between KERN COUNTY LAND COMPANY, a California corporation, hereinafter called
"Owner", and **RICHARD S. RHEEM, doing business under the fictitious**
name of Richard S. Rheem, Operator,

hereinafter called "Lessee" (whether one or more),

WITNESSETH THAT:

Owner hereby leases to Lessee and Lessee hereby leases from Owner, for the purpose of exploring and drilling for and producing hydrocarbons, all those lands situated in Kern County, California, particularly described in Exhibit A attached hereto, and hereby made a part hereof.

This lease is made upon and is subject to each and all of the terms, provisions, covenants and conditions set forth in that certain Oil and Gas Lease of even date herewith between the parties hereto covering the lands hereinabove described, and said Oil and Gas Lease is hereby incorporated herein with the same force and effect as though herein set forth at length.

Upon the termination of said lease, either in whole or in part and whether by surrender or otherwise, Lessee agrees to deliver to Owner a quitclaim deed covering all rights of Lessee in and to the lands as to which said lease shall so terminate, and the parties agree that the effect of any such quitclaim deed shall be to terminate all rights of Lessee under said lease in and to such lands, including, without limiting the generality of the foregoing, all easements, servitudes and rights of way in, upon, over or across such lands, the right to remove equipment therefrom, and all other rights of any and every kind in and to such lands under or pursuant to said lease, excepting only rights expressly reserved in such quitclaim deed.

IN WITNESS WHEREOF, the parties have executed this instrument in duplicate the day and year first above written.

LAND USE CONTRACT

(California Land Conservation Act of 1965,
and Open-Space Land Valuation Law of 1967.)

THIS CONTRACT, entered into this 17th day of February
19 70 by and between the COUNTY OF KERN, a political subdivision of
the State of California, herein referred to as "COUNTY," and
Kern County Land Company, a Delaware corporation
hereinafter referred to as "OWNER,"

W I T N E S S E T H :

(a) WHEREAS, Owner is the owner of certain real property
situate in the County of Kern, State of California, which is devoted
to agricultural use and is located within an area which has been
designated by the County as an agricultural preserve, and a description
of said land, together with a reference to the map showing the location
of said agricultural preserve, is set forth in Exhibit "A" attached
hereto and incorporated herein by reference; and

(b) WHEREAS, both Owner and County desire to limit the use
of such land for the purposes of preserving it pursuant and subject
to the conditions set forth in this Contract and in the California
Land Conservation Act of 1965, as amended, in order to preserve a
maximum amount of the limited supply of agricultural land and to there-
by conserve the State's economic resources, to maintain the agricultural
economy of the State, and to assure an adequate, healthful and nutri-
tious food for future residents of this State and nation; and

(c) WHEREAS, the Owner desires to have the benefits of Article
XXVIII of the California Constitution and of Sections 421 through 429,
inclusive, of the Revenue and Taxation Code and other provisions of
law relating to the valuation and assessment of open-space land subject
to enforceable restrictions, as are now or may be from time to time
in effect;

BOOK 4372 PAGE 685

NOW, THEREFORE, the parties hereto, in consideration of the mutual covenants and conditions set forth herein and the substantial public benefits to be derived therefrom, do hereby agree as follows:

1. TERM OF CONTRACT; AUTOMATIC EXTENSION; NOTICE OF INTENT NOT TO RENEW:

(a) This Contract shall be effective as of the 28th day of February next succeeding the date of this Contract, to wit, the date which is first mentioned herein, and shall remain in effect for an initial term of ten (10) years from and including such date and during renewals of this Contract.

(b) Each 28th day of February of each year during which this Contract shall be in effect shall be deemed to be the annual renewal date of this Contract, as mentioned in Sections 51244 and 51245 of the Act. On said annual renewal date a year shall be added automatically to the initial term aforementioned, and the term of this Contract shall be thereby renewed and extended, unless notice of nonrenewal has been given as provided in Section 51245 of the Act.

(c) If the County or Owner gives notice of intent in any year not to renew this Contract, the Contract shall remain in effect for the balance of the term or extended term remaining since the original execution or the last renewal of the Contract, as the case may be.

2. CONTRACT MADE PURSUANT TO LAND CONSERVATION ACT:

This Contract is made and entered into pursuant to the California Land Conservation Act of 1965 (Chapter 7 of Part 1 of Division 1 of Title 5 of the California Government Code commencing with Section 51200) sometimes referred to herein as the "Land Conservation Act" or "Act," and is subject to all of the provisions thereof.

BOOK 4372 PAGE 686

3. ENFORCEABLE RESTRICTION:

(a) It is mutually agreed that this Contract is and shall be an enforceable restriction within the meaning and for the purposes of Article XXVIII of the Constitution of the State of California, said Land Conservation Act, and said Sections 421 through 429, inclusive, of the Revenue and Taxation Code as are now or may be from time to time in effect; and it is contemplated that this Contract shall be enforced and administered by the County in such a manner as to accomplish the purposes of said Article of the California Constitution and the aforementioned statutes.

(b) It is mutually understood that the County may bring any action in court necessary to enforce this Contract, including, but not limited to, an action to enforce this Contract by specific performance or injunction.

4. CONTRACT MADE IN CONFORMITY WITH UNIFORM RULES ADOPTED BY COUNTY:

(a) This Contract is also made and entered into pursuant to the provisions of the Uniform Rules adopted by the Board of Supervisors of the County governing the administration of agricultural preserves, including but not confined to the land use restrictions and enumeration and definition of compatible uses therein contained.

(b) It is expressly understood and agreed that during the term of this Contract or any renewals thereof the Board of Supervisors of the County may add to those agricultural and compatible uses specified in the Resolution or Resolutions prescribing Uniform Rules governing the administration of the agricultural preserve within which the land described in this Contract is located or may otherwise modify said Uniform Rules, provided, however, that the subsequent elimination or reduction in scope of a compatible use which is so enumerated or defined, or the subsequent imposition of any land use restriction which

BOOK 4372 PAGE 687

is not set forth, in said Uniform Rules as of the date of this Contract, shall not be deemed to effect the land described in this Contract unless and except with the written consent of the Owner.

(c) The Uniform Rules which are applicable to the agricultural preserve in which the land herein described is situated are incorporated herein by reference, including those Uniform Rules as are in effect at the date of this Contract and, subject to the limitations aforementioned in this Article, those amendments or additions thereto which may be subsequently adopted from time to time.

5. EXCLUSION OF USES OTHER THAN AGRICULTURAL AND COMPATIBLE USES:

(a) During the term of this Contract or any renewals thereof the herein described land shall not be used for any purpose other than agricultural uses and those uses compatible with agricultural uses.

(b) As used in this Contract, the following terms shall have these respective meanings:

(1) "Agricultural uses" shall mean the use of land for the purpose of producing an agricultural commodity for commercial purposes.

(2) "Agricultural commodity" shall mean any and all plant and animal products produced in this state for commercial purposes.

(3) "Compatible uses" shall mean those uses enumerated in the Uniform Rules, or as determined by the Land Conservation Act.

(4) "Uniform Rules" shall mean the Uniform Rules adopted by the Board of Supervisors of the County governing the administration of agricultural preserves, as more fully described in Article 3 hereinabove.

BOOK 4372 PAGE 688

6. LIMITATION ON STRUCTURES:

During the term of this Contract or any renewals thereof no structure shall be erected upon said land except such structures as may be directly related to agricultural uses and those uses compatible with agricultural uses.

7. EFFECT ON PLANNING AND ZONING POWERS:

It is mutually understood and agreed that neither the provisions of this Contract nor of any Uniform Rule adopted by the Board of Supervisors of the County shall in any manner effect, limit or supersede the planning and zoning powers of the County.

8. CONTRACT RUNS WITH LAND; EFFECT OF DIVISION OF LAND:

(a) All provisions of this Contract shall run with the land described herein.

(b) This Contract shall be binding upon, and inure to the benefit of, all successors in interest of the owner.

(c) Whenever land under this Contract is divided, the Owner of any parcel of such divided land may exercise, independent of any other Owner of any other portion of such divided land, any of the rights of the Owner in the original Contract, including the right to give notice of nonrenewal and to petition for cancellation. The effect of any such action by the Owner of a parcel created by such division of land under this Contract shall not be imputed to the Owners of the remaining parcels and shall have no effect on the Contract as it applies to the remaining parcels of the divided land.

9. ANNEXATION TO CITY:

In event of annexation by a city of any land under this Contract, such city shall succeed to all rights, duties and powers of the County under this Contract, except as otherwise provided in the Land Conservation Act.

BOOK 4372 PAGE 689

10. OWNER TO FURNISH INFORMATION:

(a) Owner agrees to furnish the County with such information as the County shall require in order to enable it to determine the continuing eligibility of the land herein described with respect to the terms of the Act, the provisions of this Contract, and under the Uniform Rules relating to the preserve in which said land is situated, from time to time when requested by the County.

(b) Owner agrees that a copy of this Contract may be recorded by the County, and agrees to properly acknowledge all signatures required of Owner herein for such purpose.

11. WAIVER OF PAYMENTS:

Owner hereby waives any obligation of County to make any payments to Owner under this Contract and Owner shall not receive any payment from County in consideration of the obligations imposed hereunder, it being recognized and agreed that the consideration for the execution of the within Contract is the substantial public benefit to be derived therefrom and the advantage which will accrue to Owner as a result of the effect on the method of determining the assessed value of land described herein and any reduction therein due to the imposition of the limitations on its use contained in this Contract.

12. CANCELLATION:

This Contract may only be cancelled in accordance with the provisions of Sections 51280-51285 of the Act.

13. EFFECT OF REMOVAL OF LAND FROM AGRICULTURAL PRESERVE:

It is agreed that removal of any land under this Contract from an agricultural preserve shall be equivalent of notice of non-renewal by the County, for the purposes of Section 426 of the Revenue and Taxation Code, as now in effect or as it may from time to time be amended, and applicable provisions of the Land Conservation Act.

BOOK 4372 PAGE 690

14. EFFECT OF EMINENT DOMAIN OR OTHER ACQUISITION OF LAND:

(a) When any action in eminent domain for the condemnation of the fee title of the entire parcel of land herein described is filed, or when such land is acquired in lieu of eminent domain for a public improvement by a public agency or person or whenever there is any such action or acquisition by the federal government or any person, instrumentality or agency acting under authority or power of the federal government, this Contract shall be deemed null and void as to the land actually being condemned or so acquired as of the date the action is filed, and upon the termination of such a proceeding, this Contract shall be null and void for all land actually taken or acquired.

(b) When such an action to condemn or acquire less than all the entire parcel land herein described is commenced, this Contract shall be deemed null and void as to the land actually so condemned or acquired.

(c) The land actually taken by the means aforementioned in this Article shall be removed from this Contract. Under no circumstances shall land be removed from this Contract that is not actually taken by the means aforementioned, except as otherwise provided in the Land Conservation Act, as now in effect or as it may from time to time be amended.

15. INCORPORATION OF PROVISIONS OF ACT BY REFERENCE; SUBSEQUENT AMENDMENTS:

(a) The provisions of the Land Conservation Act, including any amendments enacted on or before the date of this Contract, are incorporated herein and made a part of this Contract by reference, and all of the provisions of this Contract shall be subordinate thereto and construed harmoniously therewith.

BOOK 4372 PAGE 691

(b) Any provision contained in any amendments to the Land Conservation Act enacted from time to time subsequent to the date of this Contract and which is procedural or remedial in effect shall also be deemed incorporated herein and made a part of this Contract by reference.

(c) Any provision contained in any amendments to the Land Conservation Act enacted from time to time subsequent to the date of this Contract which has the effect of altering a substantive right or obligation of the Contract shall not be deemed incorporated herein, unless with the mutual consent of the parties hereto or unless otherwise provided in this Contract. Such substantive right or obligation shall include, but is not limited to, the following: increasing or decreasing the term of the Contract; eliminating or altering the right to or grounds for nonrenewal or cancellation of the Contract; or eliminating, adding, or modifying any land use restriction or compatible use of land.

(d) Any provision of any amendments to the Land Conservation Act enacted from time to time subsequent to the date of this Contract which is incorporated by reference herein as provided in this Article shall be substituted in place of any corresponding provision of this Contract and all other provisions of this Contract shall be construed harmoniously therewith.

(e) In event any sections of the Land Conservation Act referred to herein are renumbered, any references to sections herein shall be deemed renumbered accordingly.

16. AMENDMENT BY MUTUAL AGREEMENT:

This Contract may be amended at any time and from time to time by mutual agreement in writing of the parties hereto endorsed hereon or attached hereto, subject to any express provisions to the contrary contained in this Contract or in the Land Conservation Act.

BOOK 4372 PAGE 692

17. NOTICES, MANNER OF GIVING:

(a) Notices to be given to Owner pursuant to this Contract, or as may otherwise be required by law in connection with the administration of this Contract, may be sent by first-class United States Mail addressed to Owner at the address shown below Owner's signature hereinbelow, and the Owner expressly waives any other method of giving notice to him.

(b) Notices to be given to County pursuant to this Contract may be sent by first-class United States Mail addressed to Board of Supervisors, County of Kern, Kern County Courts and Administration Building, 1415 Truxtun Avenue, Bakersfield, California.

(c) Such notices may also be given by one party to the other by personal service.

(d) By the means mentioned in this Article a party may give to the other notice of a new address, after which notices to be given to such party shall be sent by the means indicated in this Article to such party at such new address.

IN WITNESS WHEREOF, the parties hereto have executed the within Contract the day and year first above written.

GRANT OF CANAL EASEMENTS

TENNECO WEST, INC., a Delaware corporation, hereinafter called "Grantor", hereby GRANTS to the NORTH KERN WATER STORAGE DISTRICT, a water storage district organized and existing under and by virtue of the California Water Storage District Law, herein called "Grantee", subject to a condition subsequent, an easement for canal purposes only, over, in and upon that certain real property situated both in the City of Bakersfield and in the unincorporated area of Kern County, California, more particularly described in Exhibit A attached hereto and hereby made a part hereof.

AS A MATERIAL PART OF THE CONSIDERATION by Grantee to Grantor for the canal easement herein granted, Grantee represents and warrants that said easement is being acquired and shall be used for the sole and exclusive purpose of operating and maintaining upon said real property a canal for the transportation of water, and in furtherance of such representation and warranty, Grantor hereby EXCEPTS AND RESERVES to itself, its successors and assigns, a right of reentry to recover use and possession of the real property encumbered by this easement of any part thereof free of the effect of this grant of easement, if and when and to the extent that all or any part thereof shall have ceased to be operated and maintained for canal purposes; and such right of reentry and recovery of use and possession, free of the effect of this grant of easement, is hereby authorized by Grantee to be effected by the recordation in the office of the County Recorder of said Kern County of a unilateral instrument executed by Grantor, or its successor or assign, reciting (a) the names of Grantor and Grantee, (b) a reference to the date and place of recordation of this grant of easement, (c) the date of cessation of operation and maintenance of the canal of the part or parts thereof to which such right of reentry and recovery is to be effected (d) the description of said real property or the relevant part or parts thereof as to which such right of reentry and recovery shall apply, and (e) a statement to the effect that such instrument is recorded pursuant to this grant of easement.

Grantor reserves the right to use, and to permit others to use the premises for any and all purposes which do not hinder or preclude such use of the premises by Grantee and, without limiting the generality of the foregoing, reserves the right to lay, construct and install pipelines, roads, ditches, fences, pole lines and other facilities in, upon, across or along the premises.

Grantee shall, at its expense, promptly comply with any and all laws, ordinances, rules, regulations, requirements and orders whatever, present, or future, of the national, state, county, or municipal government which may in any way apply to the use, maintenance or occupation of or operations on the premises by Grantee hereunder.

SECOND AMENDMENT OF
PIPE LINE LICENSE AGREEMENT

THIS AGREEMENT, dated February 11, 1981, by and between TENNECO WEST, INC., a Delaware corporation, TENNECO REALTY DEVELOPMENT CORPORATION, a Delaware corporation, together hereinafter called "Tenneco", the CITY OF BAKERSFIELD, a municipal corporation hereinafter called "City", and TOSCO CORPORATION, a Nevada corporation, hereinafter called "Licensee",

WITNESSETH THAT:

WHEREAS, heretofore Kern County Land Company, predecessor in interest to Tenneco, and the Norwalk Company, predecessor in interest to Licensee, entered into a Pipe Line License Agreement dated January 26, 1951, whereby Tenneco, as owner, granted to Licensee the license to use certain real property in the County of Kern, State of California, for the purposes and subject to the terms and conditions set forth in said Pipe Line License Agreement; and

WHEREAS, by Amendment of said Pipe Line License Agreement dated October 25, 1968, said Agreement was modified in certain particulars; and

WHEREAS, Tenneco transferred certain real property to the City subject to said Pipe Line License Agreement; and

WHEREAS, the parties now desire to again amend said Pipe Line License Agreement in certain particulars.

NOW, THEREFORE, for valuable consideration, the receipt of which is hereby acknowledged, the parties mutually agree as follows:

1. That the description of the premises contained in said Pipe Line License Agreement shall be and is hereby amended to delete said description in its entirety, the center line of which is described as follows:

Beginning at a point on the east line of Section 10, Township 31 South, Range 25 East, M.D.B. & M. distant thereon 919.24 feet north of the east quarter corner; thence North 89° 16' 14" West, 1,295.5 feet to the true point of beginning of this description; thence South 89° 16' 14" East, 1,889.62 feet; thence North 45° 09' 46" East, 14,087.20 feet; thence North 44° 57' East, 3,176.44 feet; thence North 45° 31' 21" East, 4,836.20 feet; thence South 89° 56' 06" East, 2,224.41 feet; thence North 46° 21' 30" East, 10,451.76 feet; thence North 35° 06' 30" East, 201.55 feet; thence North 49° 15' 30" East, 4,150.70 feet; thence North 40°

3. Tenneco and the City, as owners and as their respective interests may appear, hereby grant to Licensee the license to use the strip of land described in paragraph 2 above, for the purposes and subject to the terms and conditions set forth in said Pipe Line License Agreement. Licensee does hereby surrender and quitclaim to Tenneco and the City, as owners and as their respective interests may appear, all of its right, title, and interest under said Pipe Line License Agreement in and to the strip of land described in paragraph 1 hereof.

4. That the City shall be deemed to be an Owner within the context of the word "Owner" under said Amendment dated October 25,

800-5353 PAGE 2354

1968 with respect to that portion of the premises and pipeline facilities described in paragraph 2 herein which is located on land owned by the City at the time of the execution of this Second Amendment of Pipeline License Agreement, subject to the following:

- a. The obligations of Licensee under said Amendment to the City are personal to the City; and such obligations of Licensee shall not otherwise run with the land.
- b. Whenever the City by written notice to Licensee shall require that all pipe and other property installed by the Licensee be removed from the premises, or any specified portion thereof, and relocated between the same terminal points, then the Licensee shall promptly comply with such notice and restore the surface of the ground from which such removal is made to its natural contour and condition; provided, however, that the City shall specify the elevation or depth of the relocated pipeline from the surface and, for any horizontal relocation, shall provide the land and right-of-way in the vicinity of that portion of pipe or other property to be relocated. The term "vicinity" as used herein shall be deemed to include land and right-of-way within a distance of one hundred twenty feet of the location from which removal is made.
- c. Whenever this City by such written notice requires Licensee to relocate pipe or other property as aforesaid, then Licensee shall bear the cost and expense associated therewith on the first, and only the first, departure of that portion of the pipeline to be relocated from the existing elevation or depth or from the premises described in paragraph 2. Any subsequent relocation of any portion of the pipeline previously relocated shall be at the expense and cost of the City.
- d. Nothing in this paragraph 4 shall change, alter or amend the obligations of Licensee to and the rights of Tenneco under either said Amendment dated October 25, 1968 or said Pipeline License Agreement dated January 26, 1951.

5. That except as otherwise expressly herein amended, each and every term, covenant, condition, and provision contained in said Pipe Line License Agreement as amended shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have executed this Agreement, in triplicate as of the date first hereinabove written.

EXCEPTING AND RESERVING to Grantor, its successors and assigns, forever, provided, however, that:

- a. While reserving the rights set forth below, Grantor recognizes that: (i) the property conveyed is to be used for extraction and recharge of potable water and to restore portions of the real property to its natural state; and (ii) that Grantee will be installing ponds, canals, and other similar facilities on the property conveyed, and, accordingly, Grantor shall not unduly interfere with the anticipated operations of Grantee.
 - b. Grantor, or its successors and assigns, upon being provided proof thereof, shall compensate Grantee, or its successors and assigns, for any and all actual damage to structures upon said real property and for any increased operating costs incurred by Grantee, its successors and assigns, as the result of such damage which is caused by the exercise of the rights excepted and reserved herein;
 - c. Grantor, its successors and assigns, shall exercise the rights herein reserved in a manner which will protect its facilities from damage by Grantee's water spreading operations on said real property;
 - d. Grantor, its successors and assigns, shall conduct all operations under this reservation in accordance with either (i) then applicable Federal, State, and/or local regulations, or (ii) current applicable Federal, State, and/or local regulations, whichever shall be more stringent, at the time of such operations; and
 - e. Grantee shall have the right, at any and all reasonable times, to inspect Grantor's operations or work in progress.
1. All oil, gas, and other hydrocarbons, and all other minerals of whatever kind or character (all herein collectively called "minerals") now known to exist or hereafter discovered (it being intended that the word "minerals" as used herein shall be defined in the broadest sense of the word and shall include, but not be limited to, oil, gas, other hydrocarbons, and all other mineral substances and products, both metallic and nonmetallic, solid, liquid, or gaseous) which are upon, in, under, or may be produced from said real property; all salt water (water containing over 10,000 p.p.m. T.D.S.) which is in, under, or may be produced from said real property.
 2. The exclusive right, by whatever methods now or hereafter known, as Grantor, or its successors or assigns, may deem advisable, at all times and without charge, to prospect for, investigate for, explore for, drill for, produce, mine, extract, remove, and reduce to possession and ownership, all such minerals and salt water (water containing over 10,000 p.p.m. T.D.S.) (excluding, however, sand and gravel) which are upon, in, under, or may be produced from said real property, the exclusive right to drill into and through said real property to explore for and thereafter produce and extract minerals which may be produced from adjacent real property; the right to lay, construct, erect, and place upon and in said real property and use, maintain, and operate thereon and thereafter remove all buildings, tanks, pressure plants, and other machinery, fixtures, and equipment, pipelines, telephone lines, electric power lines, roads, powerhouses, or other structures and facilities as Grantor, or its successors and assigns, may deem advisable for the exercise and enjoyment of the rights herein excepted and reserved. In

exercising its rights hereunder, Grantor shall take all reasonable precautions to avoid contamination of, or damage to, any fresh water aquifer;

3. The exclusive right at all times and without charge to treat, process, (but not refine) store upon, and remove from said real property such minerals and salt water;
4. The exclusive right, at all times and without charge, to produce and extract such minerals by repressuring the subsurface sands and strata with fluids or gases or by such other method or methods as Grantor, or its successors or assigns, may deem advisable, and to inject and store and thereafter remove such fluids and gases, whether or not indigenous to said real property;
5. The exclusive right, at all times and without charge, to utilize for the benefit of Grantor and third parties the surface of said real property for the construction, maintenance, operation, use, repair, replacement, or removal of oil, gas, and water pipelines, telephone, telegraph, and power lines, and other structures over and across said real property, the aforementioned pipelines, telephone, telegraph and power lines being necessary, incidental to, or convenient in exploring for, producing and extracting the minerals underlying the lands in the vicinity of said real property. In acting under this reservation, Grantor shall utilize its best efforts to provide maps of existing pipelines and roads and shall advise Grantee of the location of any new pipelines or roads known to it;
6. The right, at all times and without charge, to investigate for, explore for, drill for, produce, remove, and reduce to possession and ownership, up to 50,000 barrels per day of fresh water (containing less than 10,000 p.p.m. T.D.S.) from aquifers underlying said real property deemed necessary by Grantor, or its successors or assigns, to use in prospecting, exploring, drilling, mining, producing, extracting and removing (including, but not limited to, use in unit operations, water flooding, thermal extraction of minerals, or other secondary recovery methods now or hereafter known), or other operations in connection with the full enjoyment and exercise of the rights herein excepted and reserved, provided, however, that all such water may be used only upon the land subject to this reservation;
7. The right, at all times and without charge, to exercise all rights herein excepted and reserved and any and all rights upon said real property as Grantor, its successors or assigns, deem necessary, incidental to, or convenient, whether alone or jointly with adjacent lands to the extent it is reasonable to do so, in exploring for, producing, and extracting the minerals and salt water herein excepted and reserved; and
8. The right, at all times and without charge, of access to said minerals, fresh water, and salt water, and of ingress and egress to and from, over and across said real property for all purposes deemed necessary by Grantor, its successors and assigns, in the exercise of the rights excepted and reserved herein.

NOV 21 1995

The Department of Water Resources, State of California, hereby (1) reserves to itself title to one-half of the La Hacienda Program Water and one-half of the Berrenda Mesa Demonstration Program Water; and (2) grants to Kern County Water Agency one-half of the La Hacienda Program Water, one-half of the Berrenda Mesa Demonstration Program Water, all of the 1995 water, and all other water on, in, or under the real property which has not been reserved to the State herein. "Berrenda Mesa Demonstration Program Water" shall mean 2,532 acre feet of groundwater that has not been extracted by the State before the close of escrow on the property as part of the 1990 Berrenda Mesa Demonstration Program. "La Hacienda Program Water" shall mean the 83,127 acre feet of water that has not been extracted before the close of escrow of the 98,005 acre-feet of the groundwater purchased by the State from the Kern County Water Agency, and the Kern County Water Agency from La Hacienda, Inc., in 1991. "1995 Water" shall mean all water on, in, or under the real property upon closing that was delivered to and spread upon the real property at any time during 1995 by or for the Kern County Water Agency or its member units or the members of the Kern Water Bank Authority. (Does Not Affect Parcels 62 and 63).

Subject to special assessments, if any, restrictions, reservations, and easements of record.

The Director of Water Resources has determined that the said real property was acquired for State water development purposes, is no longer needed, and is not now being used for water development purposes.

The conveyance is executed pursuant to the authority vested in the Director of Water Resources by law.

Dated December 13, 1995.

DECLARATION OF COVENANTS CONDITIONS & RESTRICTIONS

This Declaration is made this 14th day of Dec, 1995 by the KERN WATER BANK AUTHORITY, a California Joint Powers Authority ("KWBA") for the benefit of the KERN COUNTY WATER AGENCY, a California public agency ("Agency").

WHEREAS, KWBA and Agency have entered into a Transfer and Exchange Agreement, dated December 13, 1995, which at Section 3 provides for execution and recording of this Declaration upon the Agency transferring the Real Property described at Exhibit B to KWBA.

NOW, THEREFORE, KWBA DOES HEREBY PROVIDE THIS DECLARATION OF COVENANTS, CONDITIONS & RESTRICTIONS:

1.0 Definitions: The following definitions shall apply to this Declaration:

(a) "Agency Basic Contract Member Units": shall mean those member units that entered into long-term water supply contracts with the Agency prior to January 1, 1996, for an entitlement to a portion of the State Water Project furnished to the Agency annually by the State of California pursuant to the Agency's November 15, 1963 water supply contract with the State of California and any amendments thereto.

(b) "Agency Non-Basic Member Units": shall mean any member units of the Agency other than Agency Basic Contract Member Units.

(c) "Agency Member Units": shall mean member units of the Agency as that term is defined in Section 2(g) of the Kern County Water Agency Act, California Statutes 1961, Chapter 1003, as amended.

(d) "Member Entities": shall mean those entities that have become members of the Kern Water Bank Authority by executing the Joint Powers Agreement for the Kern Water Bank Authority, and their successors and assigns that become members.

(e) "Project": shall mean the Project described in Article V of the Joint Powers Agreement for the Kern Water Bank Authority.

(f) "Property": shall mean the approximately 19,890 acres of real property together with all improvements thereon located within Kern County, California, more fully described in Exhibit A attached hereto and incorporated herein by reference.

(g) "SWP Agricultural Contractors": for purposes of this Declaration shall mean the following State Water Project contractors: County of Kings; Dudley Ridge Water District; Empire West Side Irrigation District; Kern County Water Agency; Oak Flat Water District; and Tulare Lake Basin Water Storage District.

(h) "SWP Urban Contractors": shall mean every State Water Project contractor other than the SWP Agricultural Contractors.

2.0 General - Property Benefitted & Burdened By Declaration: It is the intent of the parties that each restraint or restriction relating to the use, repair, maintenance or improvement of the Property shall constitute a covenant running with the land, binding upon all successive owners of all or any portion of the Property. Such covenants shall be for the benefit of the land of Agency as described in Exhibit A, and shall burden the Property described in Exhibit B.

3.0 Use Of Property:

3.1 The annual consumptive use of groundwater upon any of the Property by KWBA, any successor in interest to KWBA, or any transferee of any interest in the Property, shall be limited to 0.3 acre feet per acre; provided however, that KWBA, any successor in interest thereto, or any transferee of any interest in any of the Property may make arrangements for additional supplies, which may include water banked by KWBA and/or its Member Entities. In the event of a breach of the restrictions provided for in this Section, Agency shall have the rights and remedies provided for in Section 3.6.

3.2 Neither the whole, nor any part, nor any interest in the property described in Exhibit C, may be sold, transferred, leased, subleased, assigned, conveyed or encumbered without the express prior written consent of Agency Board of Directors, provided that (i) Agency shall not unreasonably withhold such consent; and (ii) upon consultation with the Agency, such property may be encumbered as a bona fide security for improvements upon this Property used for water banking purposes and such restrictions on transfer shall not apply to any transfer upon or deed in lieu of foreclosure of such permitted encumbrance or be binding upon any transferee pursuant to or in lieu of foreclosure or upon

such transferee's successors and assigns. In no event shall withholding of consent of the Agency be deemed unreasonable if Agency determines that the property involved can be used economically for groundwater storage and recovery for agricultural water use in Kern County. If Agency so determines, and KWBA disputes such determination, the matter shall be resolved by arbitration in accordance with the provisions of Title 9 (commencing with Section 1280) of Part 3 of the California Code of Civil Procedure. In determining whether the property affected can be economically used for groundwater storage and recovery for agricultural use in Kern County, the arbitrator shall not consider the possible economic returns from any other potential uses of the property. If the arbitrator determines that the property affected can not be used economically for such purpose, and KWBA thereafter elects to dispose of such property, Agency shall have a right of first refusal to purchase or lease such property on the same terms and conditions as those provided for in the proposed sale or lease. Any offer, acceptance, or agreement for such sale or lease by KWBA with a third party must state in writing that it is subject to such rights of Agency. KWBA shall serve written notice on Agency of the terms of such proposed sale or lease, and of any material amendments or modifications of such terms. Agency shall have 90 days after receipt of written notice of the terms of such sale or lease, or of any material amendments or modifications of such terms, whichever is later, to exercise such right of first refusal. In the event of a breach of the restrictions provided for in this Section, Agency shall have the rights and remedies specified in Section 3.6.

3.3 The property described in Exhibit D may be sold, transferred, leased, subleased, assigned, conveyed or encumbered; provided that all of the net proceeds from such disposition shall be used solely for the development, operation (including purchase of water) or maintenance of the Project, including any amortization of indebtedness incurred for such development, operation or maintenance, unless (i) substantially all the property described at Exhibit C has been or is being disposed of because it has been determined by the Agency or an arbitrator in accordance with the procedure set forth in Section 3.2 that the property described in Exhibit C can not be used economically for groundwater storage and recovery for agricultural water used in Kern County, or (ii) otherwise agreed to in writing by the Agency. In the event of a breach of the restrictions provided for in this Section, Agency shall have the rights and remedies provided for in Section 3.6.

3.4 The property described in Exhibit E may be sold, transferred, leased, subleased, assigned, conveyed or encumbered; provided that all of the net proceeds from such disposition shall be used solely for the development, operation (including purchase of water) or maintenance of the Project, including any amortization of indebtedness incurred for such development, operation or maintenance, unless (i) substantially all the property described at Exhibit C has been or is being disposed of because it has been determined by the Agency or an arbitrator in accordance with the procedure set forth in Section 3.2 that the property described in Exhibit C can not be used economically for groundwater storage and recovery for agricultural water used in Kern County, or (ii) otherwise agreed to in writing by the Agency. In the event that any of the property described in Exhibit E is sold, transferred, or conveyed, and KWBA does not retain and reserve a fee interest or a permanent exclusive easement, to

each of the well sites located thereon described in Exhibit F, together with any pumps or motors or other equipment used in connection with such wells, Agency shall have and is hereby granted an option (the "Option") to purchase such property at the fair market value. Agency may exercise the Option only if KWBA attempts to sell, transfer or convey any property listed on Exhibit F without retaining and reserving the well sites located thereon listed on Exhibit F. The Option shall be exercised by the Agency providing written notice to KWBA of the exercise of such option within 30 days of Agency's receipt of written notice from KWBA or any record owner of title to such property of a proposed sale, conveyance or transfer. Within 90 days of the date the parties agree as to the fair market value of the Property or within 90 days of the date of the appraisal provided for below, whichever is earlier, Agency and the owner of such property shall enter into the purchase agreement attached hereto as Exhibit G. The purchase price for such property shall be the fair market value of the property. In the event that the parties can not agree to the fair market value of the property within 30 days after the exercise of the Option, the parties shall select an M.A.I. appraiser to appraise the property. Each party shall pay one-half of the cost of such appraisal. In the event that the parties do not agree upon an appraiser within 45 days after the exercise of the Option, each party shall name an appraiser, and those appraisers shall jointly name an appraiser to appraise such property. In no event shall KWBA consummate more than three transfers or other transactions subject to this section without retaining the rights to such well sites.

3.5 KWBA may request that Agency make property which is subject to the restrictions contained in 3.2, subject instead to the provisions of 3.3. Such modification shall be subject to the written consent of the Agency; provided, Agency shall not unreasonably withhold such consent. If the Agency so determines, and KWBA disputes such determination, the matter shall be resolved by arbitration in accordance with the provisions of Title 9 (commencing with Section 1280) of Part 3 of the California Code of Civil Procedure. In the event the Agency so consents, Agency and KWBA shall promptly execute, acknowledge and record an appropriate amendment to this Declaration containing such modification.

3.6 In the event that KWBA, or any successor in interest to KWBA, or any transferee, lessee, sublessee or assignee of the Property affected, shall violate any of the restrictions or restraints upon such Property, or enter into any agreement which would cause such restrictions or restraints to be violated, or otherwise breach the terms of Sections 3.2, 3.3, 3.4 or 3.5, Agency shall have the following rights and remedies, at its sole election:

3.6.1 Agency shall be entitled to a temporary restraining order, and preliminary and permanent injunctions, restraining the breach of such restrictions; and in addition; any sale, transfer, lease, sublease, assignment, conveyance, encumbrance or use in violation or breach of the terms of Sections 3.3, 3.4 or 3.5 of this Declaration shall be void and of no force or effect; and Agency shall further be entitled to declaratory relief so providing;

3.6.2 Agency shall be entitled to any other remedies it may have at law or in equity.

3.7 The foregoing provisions of Sections 3.1 through 3.6 of this Declaration shall not apply if KWBA elects to change its form to another form of public entity, and in connection with such change of form transfers title to the Property to such successor entity, provided that (i) 66-2/3% of the members of the KWBA are members of or participants in the successor agency; and (ii) such successor agency assumes the obligations under this Declaration in the same manner as required of the KWBA. The foregoing provisions of Sections 3.1 through 3.6 of this Declaration also shall not apply to any succession to the rights, interests and obligations of KWBA pursuant to Section 5.6(c) of the Joint Powers Agreement of the KWBA, dated October 16, 1995, as amended from time to time, provided that the reconstituted Authority assumes the obligations under this Declaration in the same manner as required of the KWBA.

4.0 Priorities For Use Of The Project:

4.1. The KWBA Member Entities shall have the first priority right to use the Project for the recharge, storage and/or recovery of water primarily for the use within the boundaries of the Agency and Dudley Ridge Water District. Included within such priority will be uses of the Project for recharge of high flow Kern River flows under terms and conditions of agreement(s) entered into between the KWBA or any of its Member Entities and the holders of Kern River water rights. The KWBA and/or its Member Entities intend to enter into long term exchanges and programs with other entities including entities outside of Agency boundaries. Such exchanges will be subject to the following:

4.1.1 Any such exchange or program with interests outside the boundaries of the SWP Agricultural Contractors, shall be subject to the approval of Agency under the same terms and conditions as Agency applies to other Agency Member Units.

4.1.2 If approved, these transactions will be included in this first priority use category.

4.2 To the extent there is recharge, storage and/or recovery capacity available in the Project facilities beyond that needed for the first priority ("Excess Capacity"), Agency Basic Contract Member Units, including Agency and its improvement districts, shall have the second priority right to use the Project for the recharge and/or recovery of water for use in the boundaries of Agency if they pay the Fair Compensation for such use or a lesser amount agreed to by KWBA. The meaning of "Fair Compensation" shall be the same as that set forth in California Water Code section 1811. The KWBA Board of Directors may establish from time to time such rates consistent with said section 1811.

4.3 The third priority shall be any Agency Non-Basic Contract Member Unit for use within Kern County, subject to the approval of terms and conditions acceptable

to the KWBA and approval of Agency, where Agency approval would otherwise be required absent the Project.

4.4 The fourth priority shall be any person, entity or organization within the County of Kern for use within Kern County, subject to terms and conditions acceptable to KWBA and approval of Agency, where Agency approval would otherwise be required absent the Project.

4.5 Any excess Capacity available beyond that needed for these first four priorities can be made available to other persons, entities, or organizations, including SWP Urban Contractors, on terms and conditions acceptable to the KWBA and Agency.

IN WITNESS HEREOF, this Declaration has been executed the date first above written.

EXHIBIT F

Exhibit G
to
Declaration of Covenants, Conditions & Restrictions

PURCHASE AGREEMENT AND ESCROW INSTRUCTIONS

This Purchase Agreement and Escrow Instructions ("Agreement") is made by and between Kern County Water Agency, a public agency ("Buyer"), and _____ a joint powers agency ("Seller"), with reference to the following facts:

RECITALS

A. Seller owns certain real property consisting of approximately _____ acres of _____ located in _____ County, California, as more particularly described in Exhibit "A" and incorporated herein by this reference (the "Real Property").

B. Buyer and the Department of Water Resources, State of California ("DWR"), have entered into that certain Agreement for the Exchange of the Kern Fan Element of the Kern Water Bank dated _____, 1995 (the "Master Agreement"). Pursuant to the terms of the Master Agreement, DWR transferred certain real property, including the Real Property herein, to Buyer.

C. Seller and Buyer have entered into that certain Transfer And Exchange Agreement dated as of _____, 1995, (the "Transfer Agreement") and that certain Declaration of Covenants, Conditions and Restrictions dated _____, 1995 (the "Declaration"). Pursuant to the terms of the Transfer Agreement, Buyer transferred most of the real property acquired by Buyer from DWR under the Master Agreement, to Seller herein.

D. Pursuant to Section 3 of the Transfer Agreement, the Declaration shall create restrictions and covenants running with the Real Property. Pursuant to Section 3.4 of the Declaration, Buyer has an option on certain property described therein, on the terms and conditions described therein (the "Option").

E. Seller has exercised the Option as to the Real Property. Pursuant to Section 3.4 of the Declaration, the parties hereto are entering into this Agreement for the purchase and sale of the Real Property.

NOW, THEREFORE, in consideration of the mutual covenants and conditions herein contained, and for other good and valuable consideration moving between parties, Buyer and Seller agree as follows:

AGREEMENT

1. **Definition of Property.** Seller shall convey, transfer, assign, and deliver the Real Property to Buyer, as provided by this Agreement. The Real Property shall also include all of the following additional real, personal, and mixed property located on or relating to the Real Property: (i) all water rights and water contracts owned or used by Seller relating to the Real Property, excepting water in storage underlying the Property in the Kern Water Bank; (ii) all buildings, improvements and fixtures; (iii) all wells, pumps, motors and equipment; and (iv) all permits, approvals, easements, licenses, or other rights appurtenant to, or relating to the Property. The Real Property and the additional property described herein are collectively referred to as the "Property".

2. **Purchase and Sale; Price.**

2.1 Seller agrees to sell to Buyer and Buyer agrees to buy from Seller, all of the Property. The purchase price for the Property is the fair market value as determined in Section 2.2 (the "Purchase Price"). At least one business day prior to the Close of Escrow, Buyer shall deposit with the Escrow Holder, a bank cashier's, certified check or wire transfer in the amount of the Purchase Price.

2.2 The Purchase Price is determined in the manner provided for in Section 3.4 of the Declaration. That section provides that the purchase price for such property shall be the fair market value of the property. In the event that the parties can not agree to the fair market value of the property within 30 days after the exercise of the Option, the parties shall select an M.A.I. appraiser to appraise the property. Each party shall pay one-half of the cost of such appraisal. In the event that the parties do not agree upon an appraiser within 45 days after the exercise of the Option, each party shall name an appraiser, and those appraisers shall jointly name an appraiser to appraise such property.

3. **Escrow.** "Escrow Holder" shall be Chicago Title Insurance Company, located at 4700 Stockdale Highway, Bakersfield, California 93309. This Agreement shall, to the extent possible, act as escrow instructions. The parties agree to execute all further escrow instructions required by Escrow Holder, which further instructions shall be consistent with this Agreement. "Close of Escrow" is defined to be the recordation of the Grant Deed from Seller to Buyer for the Real Property, which shall occur on or before _____ or on such other date as the parties hereto shall mutually agree in writing.

4. **Costs and Fees.** Buyer and Seller shall each pay one-half of (i) Escrow Holder's fees; (ii) the cost of preparing, executing, and acknowledging any deeds or other

instruments required to convey title to Buyer; (iii) the cost of recording the Grant Deed required to convey title to the Real Property to Buyer or its nominee; and (iv) any taxes imposed on the conveyance of title to the Real Property to Buyer under the Documentary Transfer Tax Act. Seller shall pay any other closing costs, including the cost of the title insurance policy provided for in this Agreement.

5. Title.

5.1 Upon Close of Escrow, the title to the Real Property shall be subject only to those exceptions numbered _____ on Preliminary Title Report No. _____ (dated _____) ("Preliminary Title Report").

5.2 Upon Close of Escrow, the Property shall be free of all other liens or encumbrances, and Seller shall, except as to the Declaration, at its sole costs and expense, cause any title exceptions not expressly approved in 5.1 above to be removed from the Preliminary Title Report and policy of title insurance prior to Close of Escrow.

6. Possession. Full possession of the Property shall be delivered to Buyer at Close of Escrow.

7. Representations and Warranties of Seller. Seller hereby represents and warrants to Buyer that:

7.1 Seller is a California joint powers agency in good standing and has full power and authority to execute and enter into this Agreement and to consummate the transactions contemplated hereunder. This Agreement constitutes a valid and binding agreement of Seller enforceable in accordance with its terms.

7.2 To the best of Seller's actual knowledge, during Seller's ownership of the Property, Seller's ownership, use, and operation of the Property has been and is in compliance with all applicable state, federal and local statutes, ordinances, orders, requirements, laws or regulations affecting the Property.

7.3 At Close of Escrow, the Property will not be subject to any liens, or encumbrances other than those approved in Sections 5.1 and 5.2 above, and except as disclosed on Exhibit 7.3 there is no pending or to the best of Seller's actual knowledge threatened litigation or administrative proceedings affecting the Property or this Agreement. Buyer is not assuming any monetary liabilities, liens, encumbrances, or obligations of any kind (whether contractual or otherwise) related to the ownership and use of the Property by Seller prior to the Close of Escrow.

7.4 To the best of Seller's actual knowledge, during Seller's ownership of the Property, except as listed on Exhibit 7.4 hereto:

7.4.1 There have been no Hazardous Substances, or storage tanks containing Hazardous Substances, placed in, on, under, or about the Real Property, except as disclosed in the Master Agreement.

7.4.2 Seller has not conducted or authorized the generation, transportation, storage, treatment, or disposal on the Real Property of any Hazardous Substance;

7.4.3 The Real Property is not in violation of any federal, state, or local law, ordinance, regulation, order, decree or judgment relating to environmental conditions on, under, or about the Real Property.

7.4.4 There have been no (i) pending or threatened litigation or proceedings before any administrative agency; (ii) pending notices from any governmental authority, or employee or agent thereof; or (iii) communications, notices, or agreements with any governmental agency or private party any of which relate in any way to the presence, release, threat of release, placement, generation, transportation, storage, treatment, or disposal of any Hazardous Substance.

7.5 As used herein, the term actual knowledge shall mean (i) such actual knowledge of any executive, managerial, professional or technical employee of such party whose job or management duties relate in whole or in material part to the Kern Water Bank project, or (ii) information contained in written files, records or documents in the possession or control of the party to be charged with such knowledge.

"Hazardous Substance" shall have the meaning given to such term in Section 1.7 of the Master Agreement.

8. Representations and Warranties of Buyer. Buyer hereby represents and warrants to Seller that:

8.1 Buyer has the full power and authority to execute and enter into this Agreement and to consummate the transactions contemplated hereunder; and

8.2 This Agreement constitutes a valid and binding agreement of Buyer enforceable in accordance with its terms.

9. Survival of Representations and Warranties. All of the representations and warranties of Buyer and Seller made in conjunction with or pursuant to this Agreement shall survive the Close of Escrow and the delivery of the Grant Deed.

10. Buyer's Conditions of Closing. The Close of Escrow and Buyer's obligation to purchase the Property pursuant to this Agreement are expressly conditioned on:

10.1 The conveyance to Buyer of good and marketable title to such Property, as evidenced by a standard form CLTA Title Insurance Policy in the amount of _____ Dollars (\$ _____), issued by Escrow Holder, subject only to such liens or encumbrances, as are expressly approved by Buyer in paragraph 5.1 of this Agreement.

10.2 Buyer's final inspection and reasonable approval of the condition of the Property.

10.3 Seller having delivered into escrow all documents or instruments required by this Agreement, and having complied with all other covenants and conditions to be performed or complied with by Seller; and

10.4 The representations and warranties of Seller contained in this Agreement being true on and as of the Close of Escrow as if the same were made on and as of such date.

11. Failure of Buyer's Conditions. Buyer shall notify Seller and Escrow Holder prior to the Close of Escrow of the failure of any of the conditions set forth in this Agreement. Should any of the conditions to Buyer's obligation to close the escrow and complete purchase of Property as specified in this Agreement fail to occur prior to the date established herein for the Close of Escrow, Buyer shall have the power, exercisable by giving written notice to the Escrow Holder and to Seller, to waive the condition or to cancel the Escrow, terminate this Agreement, and recover all amounts paid to Seller or to the Escrow Holder on account of the Purchase Price for the Property. The Escrow Holder shall be, and is hereby irrevocably instructed by Seller and Buyer, on any such failure of conditions and receipt of such cancellation and termination notice from Buyer, to immediately refund and deliver to Buyer all monies and instruments deposited by Buyer in Escrow pursuant to this Agreement, and to deliver to Seller all instruments deposited by Seller in escrow pursuant to this Agreement.

12. Seller's Conditions of Closing. The Close of Escrow and Seller's obligation to complete the sale of the Property to Buyer is conditioned on:

12.1 The representations and warranties of Buyer contained in this Agreement being true on and as of the Close of Escrow as if the same were made on and as of such date; and

12.2 Buyer having delivered into escrow the Purchase Price and all other funds as required by this Agreement and having complied with all other covenants and conditions to be performed or complied with by Buyer.

13. Failure of Seller's Conditions. Should any of the conditions to Seller's obligation to close the escrow and complete the sale of the Property as specified in this

Agreement fail to occur prior to the date established herein for the Close of Escrow, Seller shall have the power, exercisable by giving written notice to the Escrow Holder and to Buyer, to cancel the Escrow and terminate this Agreement. Seller's cancellation of the Escrow pursuant to this paragraph shall not constitute a waiver of any other rights or remedies available to Seller from breach of this Agreement by Buyer. The Escrow Holder shall be, and is hereby irrevocably instructed by Seller and Buyer, on any such failure of conditions and receipt of such cancellation and termination notice from Seller, to immediately refund to Buyer all monies and instruments deposited by Buyer in Escrow pursuant to this Agreement, and to deliver to Seller all instruments deposited by Seller in Escrow pursuant to this Agreement.

14. Items to be Delivered at Close of Escrow.

14.1 Seller shall execute in Escrow or deliver to Escrow Holder for delivery to Buyer at Close of Escrow:

14.1.1 A bill of sale in a form satisfactory to the parties, covering any of the Property which is personal property, a description of which is attached hereto as Exhibit 14.1.1;

14.1.2 A deed for the Property, in a form corresponding to the form of the deed, by which Seller acquired the Property (the "Deed");

14.2 Buyer shall execute and deliver to Escrow Holder, for delivery or disbursement at the Close of Escrow:

14.2.1 A bank cashier's, certified check or wire transfer in an amount equal to the Purchase Price; plus the amount of Buyer's share of other costs and expenses to be borne by Buyer as set forth herein.

14.3 Escrow Holder shall:

14.3.1 Record the Deed.

14.3.2 Cause the final policy of title insurance to be issued and delivered to Buyer.

14.3.3 Deliver the Bill of Sale to Buyer.

14.3.4 Deliver the escrow proceeds to Seller minus its share of the costs and expenses, as herein provided.

15. Title of Personal Property. Title to any personal property shall be conveyed to Buyer by the Bill of Sale free and clear of any mortgages, liens, charges, encumbrances, licenses, or other agreements, judgments, obligations, or other matters affecting title.

16. Indemnification.

16.1 From and after the Close of Escrow, Seller shall indemnify and hold harmless Buyer (and Buyer's directors, officers, agents and employees) against and in respect of any and all claims, demands, damages, liabilities, losses, judgments, assessments, costs and expenses (including reasonable attorneys' fees) of any kind or nature whatsoever which may be asserted by anyone against Buyer (or Buyer's directors, officers, agents or employees):

16.1.1 By reason of any act, omission, or event relating to the Real Property arising, or occurring during Seller's ownership of the Property; or

16.1.2 Based upon or related to a breach of any representation, warranty, or covenant made by Seller in this Agreement or in any exhibit, document, statement, schedule or certificate delivered pursuant to this Agreement.

16.2 From and after the Close of Escrow, Buyer shall indemnify and hold harmless Seller (and seller's members, officers, agents and employees) against and in respect of any and all claims, demands, damages, liabilities, losses, judgments, assessments, costs, and expenses (including reasonable attorneys' fees) of any kind or nature whatsoever which may be asserted by anyone against Seller (or Seller's members, officers, agents or employees):

16.2.1 By reason of any act, omission, or event arising, or occurring during Buyer's ownership of the Property; or

16.2.2 Based upon or related to a breach of any representation, warranty, or covenant made by Buyer in this Agreement or in any exhibit, document, statement, schedule or a certificate delivered pursuant to this Agreement.

17. Entire Agreement. This Agreement constitutes the sole and only agreement between Buyer and Seller concerning the Property and their rights and duties in connection with the Property. Any prior or other agreements or representations between Buyer and Seller regarding those matters are null and void unless expressly set forth in this Agreement.

18. Governing Law. This Agreement shall be construed in accordance with and governed by the laws of the State of California.

19. Notices. All notices and demands of any kind which either party may be required or desires to serve upon the other party shall be in writing and shall be served upon

such other party by personal service, facsimile transmission, or by mailing a copy thereof, certified or registered mail, postage prepaid, addressed as follows:

If to Seller: _____

If to Buyer: _____

Service shall be deemed complete on the date of personal service, facsimile transaction or the actual delivery as shown on the addressee's return receipt, whichever is earlier. The addresses to which notices and demands shall be delivered or sent may be changed from time to time by notice to the other party.

20. Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all of which when taken together shall constitute one and the same agreement.

Attorneys for Kern Water Bank Authority

TRUST AGREEMENT

by and between

WESTSIDE MUTUAL WATER COMPANY, LLC,

a California Limited Liability Company

("Westside"),

and

KERN WATER BANK AUTHORITY,

a public entity created pursuant to the

Joint Exercise of Powers Act

(the "Authority")

As of October 17, 1995

TRUST AGREEMENT

This Trust Agreement is made and entered into as of October 17, 1995 by and between **WESTSIDE MUTUAL WATER COMPANY, LLC**, a California Limited Liability Company ("**Westside**"), and **KERN WATER BANK AUTHORITY** (the "**Authority**" or the "**Trustee**"), a public entity created pursuant to the Joint Exercise of Powers Act, Articles 1 and 2 of Chapter 5 of Subdivision 7 of Title 1 of the Government Code of the State of California (the "**Law**").

RECITALS

A. Westside is a party to that certain Joint Powers Agreement for the Kern Water Bank Authority dated October 16, 1995 (the "**JP Agreement**") which created the Authority for the purpose of developing, operating and maintaining the Kern Fan Element Property (approximately 19,890 acres) and related assets of the Kern Water Bank (the "**Project**") for the Authority's benefit and the benefit of Westside and the other entities which are members of the Authority (together, the "**Members**"). The Project is more particularly described in Exhibit A attached hereto and made a part hereof.

B. Pursuant to Section 5.8(b) of the JP Agreement, Westside has the right, exercisable by the delivery of written notice to the Authority, to elect to vest title to all water Westside spreads on the Project, for itself, its lessees and contracting parties, in the Authority, in trust for the benefit of Westside. Westside has made such election and delivered such notice to the Authority. As further authorized by Section 5.8(b) of the JP Agreement, Westside and the Authority now desire to better confirm such trust and establish its terms by this Trust Agreement.

C. This Trust Agreement, as originally executed or as it may from time to time be supplemented, modified or amended, is hereinafter referred to as the "**Trust Agreement**".

ARTICLE I

PURPOSE; ACCEPTANCE OF TRUST; DUTIES OF TRUSTEE

Section 1.1. Purpose. This trust is formed for the purpose of vesting title to all water to which Westside or its lessees or contracting parties are lawfully entitled and which Westside spreads or causes to be spread on the Project from time to time, for itself, its lessees and contracting parties (the "**Water**"), in the Authority, in trust for the benefit of Westside.

Section 1.2. Trustee Accepts Trust. By execution of this Trust Agreement the Trustee agrees to serve as Trustee and hold in trust and administer the Water pursuant to this Trust Agreement. The Trustee shall perform such duties as are expressly and specifically set forth in this Trust Agreement and such other duties as are reasonably

incidental thereto. The Trustee shall have and exercise such of the rights and powers vested in it by this Trust Agreement and available to the Trustee under the laws of the State of California and reasonably necessary to perform the duties of the Trustee hereunder. In the performance of its duties, the Trustee shall use the same degree of care and skill in their exercise as a prudent person would exercise or use under like circumstances in the conduct of such person's own affairs.

Section 1.3. Duties of Trustee.

(a) The Trustee shall receive and retain in trust under the terms of this Trust Agreement all Water spread on the Project by or for the benefit of Westside, its lessees and contracting parties. Westside shall direct the Trustee in the recharge, recovery, sale, transfer, delivery or other disposition of all Water and the Trustee agrees that it shall take no action with respect thereto in the absence of such direction, other than the actions required or permitted to be taken by the Authority under the terms of the JP Agreement and the Operating Rules and Regulations (as defined in Section 2.4(n) of the JP Agreement in effect from time to time (the "Operating Rules and Regulations").

(b) Westside hereby authorizes and directs the Trustee to execute and deliver, from time to time only as Westside may direct, any and all agreements and documents which may be required in order to recharge, recover, sell, transfer, deliver or otherwise dispose of any of the Water.

ARTICLE II

TRANSFER; REVOCATION; TERMINATION; SUCCESSOR TRUSTEE

Section 2.1. Transfer in Trust; Duration of Title to Water. Westside hereby grants, transfers and assigns to Trustee, in trust, on all the terms and conditions of this Trust Agreement, all Water heretofore or hereafter spread on the Project. Trustee shall be vested with title to Water in trust from the date the Water enters onto the Project until the date the Water is extracted from and conveyed outside the surface boundaries of the Project by or on behalf of Westside. Such period of vesting shall be automatic, without necessity of executing any further document or instrument of transfer. Subject to loss allocations under the certain Memorandum of Understanding Regulating Operations and Monitoring of the Kern Water Bank Groundwater Banking Program dated October 26, 1995, title to Water during such period of vesting shall be and remain vested in Trustee in trust regardless of where the Water in underground storage is physically located from time to time.

Section 2.2. Trust Revocable. Irrespective of any other provision of this Trust Agreement, Westside may at its option at any time revoke this trust and vest title to the Water in (or as directed by) Westside by delivery of written instructions to such effect to the Trustee. Upon receipt of such instructions, the Trustee shall transfer title to the

Water to (or as directed by) Westside and the trusts created hereby shall thereupon terminate.

Section 2.3. Termination of Trust Upon Termination of Authority or Voiding of Trust Agreement. The trust shall be terminated automatically (a) in the event of the termination of the Authority by mutual consent of the Members or (b) if for any reason a party to this Trust Agreement has and exercises any statutory right to declare this Trust Agreement void. The Trustee shall thereupon transfer title to the Water to (or as directed by) Westside and the trusts created hereby shall thereupon terminate.

Section 2.4. Successor Trustee. Under Section 5.6(c) of the JP Agreement, any transfer of a Member's interest in the Authority will effect an immediate and automatic dissolution of the Authority and the immediate and automatic reconstitution of a new joint powers authority (the "New Authority") with rights, obligations and liabilities identical to those of the Authority. In such event, the New Authority shall immediately and automatically succeed the Trustee hereunder; provided, however, if requested by Westside, the successor Trustee shall signify its acceptance of such appointment by executing and delivering to Westside a written acceptance thereof including its agreement to be bound by this Trust Agreement. The successor Trustee, without any further act, deed or conveyance, shall become vested with title to the Water and all other properties, rights, powers, trust duties and obligations of the predecessor Trustee, with like effect as if originally named Trustee herein; but nevertheless the predecessor Trustee shall execute and deliver any and all instruments of conveyance or further assurance, and do such other things as may reasonably be required for more fully and certainly vesting in and confirming to such successor Trustee all the right, title and interest of such predecessor Trustee in and to the Water and any other property held by it under this Trust Agreement and shall pay over, transfer, assign and deliver to the successor Trustee any property subject to the trusts.

ARTICLE III

COSTS AND EXPENSES; INDEMNIFICATION;

LIABILITY OF TRUSTEE

Section 3.1. Costs, Expenses and Indemnification. The Trustee shall not be entitled to receive any fee or other compensation for serving as Trustee under this Trust Agreement. The Trustee shall bear all routine costs and expenses in administration of the trust which would be incurred absent creation of this trust (such as general overhead and office expense, personnel, accounting and non-litigation legal services), such routine costs and expenses to be funded from the Authority's budget under the JP Agreement. Westside shall indemnify and save the Trustee and its Members harmless against any liabilities which it or they may incur (other than such routine costs and expenses) in the exercise and performance of Trustee's powers and duties hereunder, including the enforcement of any remedies and the defense of any suit, and which are not due to Trustee's negligence or breach of fiduciary obligation (unless such

negligence or breach occurs at the direction of or by persons under the supervision and control of Westside or its members, officers or agents). Such duty of Westside to indemnify the Trustee and its Members shall survive the termination and discharge of this Trust Agreement and the JP Agreement. Notwithstanding the foregoing, Westside shall have no obligation to indemnify or hold harmless Trustee or its Members in the exercise or performance by Trustee of powers and duties which are exercised pursuant to, rather than in addition to, its powers and duties under the JP Agreement and the Operating Rules and Regulations.

Section 3.2. Liability.

(a) The Trustee and its Members shall not be liable in connection with the performance of Trustee's duties hereunder, except for Trustee's own negligence or breach of fiduciary obligation (unless such negligence or breach occurs at the direction of or by persons under the supervision and control of Westside or its members, officers or agents). The Trustee and its Members shall not be liable for any action taken or omitted by Trustee in good faith and believed by it to be authorized or within the discretion or rights or powers conferred upon it by this Trust Agreement.

(b) The Trustee and its Members shall not be liable for any error of judgment made in good faith by a responsible officer of the Trustee unless it shall be proved that the Trustee was negligent in ascertaining the pertinent facts (provided that if such negligence is proven, Trustee nevertheless shall not be liable if it proves that such negligence occurred at the direction of or by persons under the supervision and control of Westside or its members, officers or agents).

(c) The Trustee and its Members shall not be liable for any action taken by an agent of the Trustee so long as such agent was selected by the Trustee with due care.

Section 3.3. Right to Rely on Documents. The Trustee shall be protected in acting upon any notice, resolution, request, consent, order, certificate, report, opinion or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties. The Trustee may consult with counsel for Westside with regard to legal questions, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance therewith. Whenever in the administration of the trust established hereunder the Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action hereunder, such matter may be deemed to be conclusively proved and established by a written certificate of Westside; and such written certificate shall be full warrant to the Trustee for any action taken or suffered in good faith under the provisions of this Trust Agreement in reliance upon such written certificate. In its discretion the Trustee may accept other evidence of such matter in lieu of a certificate of Westside as it may deem reasonable.

ARTICLE IV

MISCELLANEOUS

Section 4.1. Integration with JP Agreement. Nothing contained in this Trust Agreement is intended or shall be construed as changing or superseding any of the provisions of the JP Agreement or the Operating Rules and Regulations. To the maximum extent practicable, the provisions of this Trust Agreement shall be construed and interpreted in a manner supplementary to and consistent with the provisions of the JP Agreement and Operating Rules and Regulations; but in the event of any irreconcilable conflict, the latter provisions shall control.

Section 4.2. Amendments Permitted. This Trust Agreement and the rights and obligations of Westside and the Trustee may be modified or amended from time to time and at any time by written amendment executed by Westside and the Trustee.

Section 4.3. Preservation and Inspection of Documents. All documents received by the Trustee under the provisions of this Trust Agreement shall be retained in its possession and shall be subject during business hours and upon 24 hours notice to inspection by Westside and its agents and representatives duly authorized in writing.

Section 4.4. Notices. All notices and communications required or permitted to be given hereunder shall be in writing and shall be deemed to have been given when mailed, postage prepaid, or delivered during working hours to the following addresses, or to such changed address as are communicated to the other party in writing:

if to Westside:	Westside Mutual Water Company, LLC c/o Paramount Farming Company 33141 East Lerdo Hwy. Bakersfield, California 93308
-----------------	---

if to the Trustee:	Kern Water Bank Authority c/o The Law Offices of Young Woodridge 1800 30th Street, Fourth Floor Bakersfield, California 93301
--------------------	--

Section 4.5. Governing Law. This Trust Agreement shall be governed and construed in accordance with the laws of the State of California.

Section 4.6. Execution in Several Counterparts. This Trust Agreement may be executed in any number of counterparts and each such counterpart shall for all purposes be deemed to be an original; and all such counterparts, or as many of them

as Westside and the Trustee shall preserve undestroyed, shall together constitute but one and the same instrument.

IN WITNESS WHEREOF, this Trust Agreement has been executed as of the day and year first written above.

The Director's Deed of this property from the Department of Water Resources contains the following reservation:

"The Department of Water Resources, State of California, hereby (1) reserves to itself title to one-half of the La Hacienda Program Water and one-half of the Berrenda Mesa Demonstration Program Water; and (2) grants to Kern County Water Agency one-half of the La Hacienda Program Water, one-half of the Berrenda Mesa Demonstration Program Water, all of the 1995 water and all other water on, in, or under the real property which has not been reserved to the State herein. "Berrenda Mesa Demonstration Program Water" shall mean 2,532 acre feet of groundwater that has not been extracted by the State before the Close of Escrow on the property as part of the 1990 Berrenda Mesa Demonstration Program. "La Hacienda Program Water" shall mean the 83,127 acre feet of water that has not been extracted before the close of escrow of the 98,005 acre-feet of the groundwater purchased by the State from the Kern County Water Agency, and the Kern County Water Agency from La Hacienda, Inc., in 1991. "1995 Water" shall mean all water on, in, or under the real property upon closing that was delivered to and spread upon the real property at any time during 1995 by or for the Kern County Water Agency or its member units or the members of the Kern Water Bank Authority. (Does Not Affect Parcels 62 and 63)."

The water described in this reservation, which is not otherwise reserved by Department of Water Resources, is conveyed to the Kern Water Bank Authority.

**DEED OF TRUST, ASSIGNMENT OF RENTS
AND LEASES AND FIXTURE FILING**

This Deed of Trust, Assignment of Rents and Leases and Fixture Filing ("Deed of Trust") is made as of November 1, 2003, by Kern Water Bank Authority, as trustor (together with any successor thereto, "Trustor"), to AMERICAN SECURITIES COMPANY, a corporation ("Trustee"), for the benefit of WELLS FARGO BANK, NATIONAL ASSOCIATION ("Beneficiary").

WITNESSETH:

WHEREAS, Trustor and Beneficiary have entered into that certain Reimbursement Agreement, dated as of November 1, 2003 (as amended, modified and/or supplemented from time to time, the "Reimbursement Agreement"); and

WHEREAS, a condition precedent to the Reimbursement Agreement is the execution of this Deed of Trust by Trustor for the benefit of Beneficiary.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Trustor, Trustee and Beneficiary agree as follows:

1. **GRANT IN TRUST.**

1.1 **The Property.** For the purpose of securing payment and performance of the Secured Obligations defined in Section 2 below, Trustor hereby irrevocably and unconditionally grants, conveys, transfers and assigns (collectively, the "Security Grant") to Trustee, in trust for the benefit of Beneficiary, with power of sale and right of entry and possession, all estate, right, title and interest which Trustor now has or may later acquire in the following property (collectively, the "Property"):

(a) The real property located in the County of Kern, State of California, as described on Exhibit A attached hereto;

(b) All buildings, structures, improvements, fixtures and appurtenances now or hereafter placed on such real property, and all apparatus and equipment now or hereafter attached in any manner to the real property or any building on the real property, including all pumping plants, engines, pipes, ditches and flumes, all of which shall be considered to the fullest extent of the law to be real property for purposes of this Deed of Trust;

(c) All development rights, governmental or quasi-governmental licenses, permits or approvals, zoning rights and other similar rights or interests which relate to the development, use or operation of, or that benefit or are appurtenant to, such real property;

(d) All easements and rights of way appurtenant to such real property; all development rights or credits and air rights; all mineral rights, oil and gas rights, air rights and water and water rights of Trustor (whether riparian, appropriative, or otherwise, and whether or not appurtenant to such real property) and all shares and other rights pertaining to such water or water rights of Trustor, ownership of which affect such real property (but shall not include water, including water in storage, owned solely by any Member Entity (as defined in the Reimbursement Agreement or held in trust solely for the benefit of a Member Entity); all minerals, oil, gas, and other hydrocarbon substances and rights thereto in, on, under, or upon such real property;

(e) All right, title and interest of Trustor, now owned or hereafter acquired, in and to any land lying within the right-of-way of any street, open or proposed, adjoining such real property, and any and all sidewalks, alleys and strips and gores of land adjacent to or used in connection with such real property;

(f) All proceeds, including all claims to and demands for them, of the voluntary or involuntary conversion of any of the real property, any buildings located thereon or the other property described above into cash or liquidated claims, including proceeds of all present and future fire, hazard or casualty insurance policies and all condemnation awards or payments now or later to be made by any public body or decree by any court of competent jurisdiction for any taking or in connection with any condemnation or eminent domain proceeding, and all causes of action and their proceeds for any breach of warranty, misrepresentation, damage or injury to, or defect in, the real property, any buildings located thereon or the other property described above or any part thereof; and

(g) All proceeds of, additions and accretions to, substitutions and replacements for, and changes in any of the property described above.

1.2 Fixture Filing. This Deed of Trust constitutes a financing statement filed as a fixture filing under Section 9502(c) of the California Uniform Commercial Code, as amended or recodified from time to time, covering any Property which now is or later may become a fixture attached to the real property described in Section 1.1(a) or any building located thereon.

2. THE SECURED OBLIGATIONS.

2.1 Purpose of Securing. Trustor makes the grant, conveyance, transfer and assignment set forth in Section 1 for the purpose of securing the following obligations (the "Secured Obligations") in any order of priority that Beneficiary may choose:

(a) Payment of all obligations of Trustor to Beneficiary arising under the Reimbursement Agreement together with the payment and performance of any indebtedness or obligations incurred in connection with the credit accommodation evidenced by the Reimbursement Agreement, whether or not specifically referenced therein;

(b) Payment of all obligations of Trustor to Beneficiary or any of its affiliates arising under any interest rate swap agreement(s) entered into between Trustor and Beneficiary or any such affiliate at any time (each such agreement, a "Swap Agreement");

(c) Payment and performance of all obligations of Trustor under this Deed of Trust, together with all advances, payments or other expenditures made by the Beneficiary or Trustee as or for the payment or performance of any such obligations of Trustor;

(d) Payment and performance of all future advances and other obligations that Trustor may agree to pay and/or perform (whether as principal, surety or guarantor) to or for the benefit of Beneficiary, when a writing signed by Trustor evidences said parties' agreement that such advance or obligation be secured by this Deed of Trust; and

(e) All modifications, extensions and renewals of any of the Secured Obligations (including, without limitation, (i) modifications, extensions or renewals at a different rate of interest, or (ii) deferrals or accelerations of the required principal payment dates or interest payment dates or both, in whole or in part), however evidenced, whether or not any such modification, extension or renewal is evidenced by a new agreement.

This Deed of Trust does not secure any obligation which expressly states that it is unsecured, whether contained in the foregoing Reimbursement Agreement or in any other document, agreement or instrument.

All capitalized terms used but not defined in this Deed of Trust shall have the meanings given to them in the Reimbursement Agreement.

2.2 Terms of Secured Obligations. All persons who may have or acquire an interest in all or any part of the Property will be considered to have notice of, and will be bound by, the terms of the Reimbursement Agreement described in Section 2.1(a) and each other agreement or instrument made or entered into in connection with each of the Secured Obligations. The Reimbursement Agreement, among other things, provides an interest rate that may vary from time to time on one or more of the obligations arising under the Reimbursement Agreement.

2.3 Revenues; Subordination of Security Grant; Conflict with Indenture. To the extent that any of the Property, the Rents (as defined in Section 3.1) or the Claims (as defined in Section 4.4) constitutes "Revenues" as that term is defined in the Indenture of Trust, dated as of November 1, 2003 (as the same may be amended, modified and/or supplemented from time to time, the "Indenture"), by and between Trustor and Zions First National Bank, as trustee (together with its successors in such capacity, the "Bond Trustee"), the Security Grant contained in Section 1.1 and the assignments contained in Sections 3.1 and 4.4 are made subject and subordinate to the lien of the Indenture in favor of the Bond Trustee, the Qualified Swap Provider and the Credit Provider over the Revenues for so long as such lien remains in effect and for so long as such Property, Rents or Claims remains part of Revenues, and Trustee and Beneficiary each agree that, notwithstanding any provision to the contrary contained in this Deed of Trust, so long as the lien of the Bond Trustee, the Qualified Swap Provider and the Credit Provider over the Revenues remains in effect and so long as such Property, Rents or Claims remains part of Revenues, it shall take no action under this Deed of Trust to disturb the lien of the Bond Trustee, the Qualified Swap Provider and the Credit Provider over the Revenues. Under no circumstances shall the lien of the Bond Trustee, the Qualified Swap Provider and the Credit Provider over the Revenues be construed under this Deed of Trust as an adverse claim against the Property, Rents or Claims. Notwithstanding any provision to the contrary contained in this Deed of Trust, to the extent that any provision of this Deed of Trust conflicts with any provision of the Indenture, the conflicting provision of the Indenture shall prevail and, to the extent that Trustor timely complies with a conflicting provision of the Indenture, Trustor's failure to comply with the conflicting provision of this Deed of Trust shall not constitute an Event of Default under this Deed of Trust. Notwithstanding the foregoing or any other provision in this Deed of Trust, the defined terms Property, Rents and Claims shall not include (i) capital use or improvement fees levied on the Members (as defined in the Indenture) pursuant to Section 4.5(a) of the Agreement (as defined in the Indenture); (ii) grants which are designated by the grantor for a specific purpose and are therefore not available for other purposes; or (iii) money received or receivable by the Trustor from the sale of a Member's water, including standby fees relating to the sale or proposed sale of a Member's water, and held for the benefit of such Member.

3. ASSIGNMENT OF RENTS.

3.1 Assignment. Subject to Section 2.3, for the purposes and upon the terms and conditions set forth herein, Trustor irrevocably assigns to Beneficiary all of Trustor's right, title and interest in, to and under all leases, licenses, rental agreements and other agreements of any kind relating to the use or occupancy of any of the Property, whether existing as of the date hereof or at any time hereafter entered into, together with all guarantees of and security for any tenant's or lessee's performance thereunder, and all amendments, extensions, renewals and modifications thereto (each, a "Lease" and collectively, the "Leases"), together with any and all other rents, issues and profits of the Property (collectively, "Rents"). This assignment shall not impose upon Beneficiary any duty to produce Rents from the Property, nor cause Beneficiary to be: (a) a "mortgagee in possession" for any purpose; (b) responsible for performing any of the obligations of the lessor or landlord under any Lease; or (c) responsible for any waste committed by any person or entity at any time in possession of the Property or any part thereof, or for any dangerous or defective condition of the Property, or for any negligence in the management, upkeep, repair or control of the Property. This is an absolute assignment, not an assignment for security only, and Beneficiary's right to Rents is not contingent upon and may be exercised without taking possession of the Property. Trustor agrees to execute and deliver to Beneficiary, within five (5) days of Beneficiary's written request, such additional documents as Beneficiary or Trustee may reasonably request to further evidence the assignment to Beneficiary of any and all Leases and Rents. Beneficiary or Trustee, at Beneficiary's option and without notice, may notify any lessee or tenant of this assignment of the Leases and Rents.

3.2 Grant of License. Notwithstanding the provisions of Section 3.1, Beneficiary hereby confers upon Trustor a license ("License") to collect and retain the Rents as they become due and payable, so long as no Event of Default, as defined in Section 5.2, shall exist and be continuing. If an Event of Default has occurred and is continuing, Beneficiary shall have the right, which it may choose to exercise in its sole discretion, to terminate this License without notice to or demand upon Trustor, and without regard to the adequacy of the security for the Secured Obligations. Beneficiary or Trustee may also, at Beneficiary's option and without notice, either in person or by agent, with or without bringing any action, or by a receiver to be appointed by a court: (a) enter, take possession of, manage and operate the Property or any part thereof; (b) make, cancel, enforce or modify any Lease; (c) obtain and evict tenants, fix or modify Rents, and do any acts which Beneficiary or Trustee deems proper to protect the security hereof; and (d) either with or without taking possession of the Property, in its own name, sue for or otherwise collect and receive all Rents, including those past due and unpaid, and apply the same in accordance with the provisions of this Deed of Trust. The entering and taking possession of the Property, the collection of Rents and the application thereof as aforesaid, shall not cure or waive any Event of Default, nor waive, modify or affect any notice of default hereunder, nor invalidate any act done pursuant to any such notice. The License shall not grant to Beneficiary or Trustee the right to possession, except as provided in this Deed of Trust.

3.3. Protection of Security. To protect the security of this assignment, Trustor agrees:

(a) At Trustor's sole cost and expense: (i) to perform each obligation to be performed by the lessor or landlord under each Lease and to enforce or secure the performance of each obligation to be performed by the lessee or tenant under each Lease; (ii) not to modify any Lease in any material respect, nor accept surrender under or terminate the term of any Lease, other than those Leases which have annual rents payable thereunder not in excess of the aggregate amount of \$50,000.00; (iii) not to anticipate the Rents under any Lease; and (iv) not to waive or release any lessee or tenant of or from any Lease obligations. Trustor assigns to Beneficiary all of Trustor's right and power to modify the terms of any Lease, to accept a surrender under or terminate the term of or anticipate the Rents under any Lease, and to waive or release any lessee or tenant of or from any Lease obligations, and any attempt on the part of Trustor to exercise any such rights or powers without Beneficiary's prior written consent shall be a breach of the terms hereof.

(b) At Trustor's sole cost and expense, to defend any action in any manner connected with any Lease or the obligations thereunder, and to pay all costs of Beneficiary or Trustee, including reasonable attorneys' fees, in any such action in which Beneficiary or Trustee may appear.

(c) That, should Trustor fail to do any act required to be done by Trustor under a Lease, then Beneficiary or Trustee, but without obligation to do so and without notice to Trustor and without releasing Trustor from any obligation hereunder, may make or do the same in such manner and to such extent as Beneficiary or Trustee deems necessary to protect the security hereof, and, in exercising such powers, Beneficiary or Trustee may employ attorneys and other agents, and Trustor shall pay necessary costs and reasonable attorneys' fees incurred by Beneficiary or Trustee, or their agents, in the exercise of the powers granted herein. Trustor shall give prompt notice to Beneficiary of any default by any lessee or tenant under any Lease, and of any notice of default on the part of Trustor under any Lease received from a lessee or tenant thereunder, together with an accurate and complete copy thereof.

(d) To pay to Beneficiary immediately upon demand all sums expended under the authority hereof, including reasonable attorneys' fees, together with interest thereon at the highest rate per annum payable under any Secured Obligation, and the same, at Beneficiary's option, may be added to any Secured Obligation and shall be secured hereby.

4. RIGHTS AND DUTIES OF THE PARTIES

4.1 Representations and Warranties. Trustor represents and warrants that Trustor lawfully possesses and holds fee simple title to all of the Property, unless Trustor's present interest in the Property is described in Exhibit A as a leasehold interest, in which case Trustor lawfully possesses and holds a leasehold interest in the Property as stated in Exhibit A.

4.2 Taxes, Assessments, Liens and Encumbrances. Trustor shall pay prior to delinquency any and all taxes, levies, charges and assessments, including assessments on appurtenant water stock, imposed on the Property or Trustor by any public or quasi-public authority or utility company which are (or if not paid, may become) a lien on all or part of the Property or any interest in it, or which may cause any decrease in the value of the Property or any part of it. Trustor shall immediately discharge any lien on the Property which Beneficiary has not consented to in writing, and shall also pay when due each obligation secured by or reducible to a lien, charge or encumbrance which now or hereafter encumbers or appears to encumber all or part of the Property, whether the lien, charge or encumbrance is or would be senior or subordinate to this Deed of Trust. Promptly upon request by Beneficiary, Trustor shall furnish to Beneficiary satisfactory evidence of the payment of all of the foregoing. Beneficiary is hereby authorized to request and receive from the responsible governmental and non-governmental personnel written statements with respect to the accrual and payment of any of the foregoing.

4.3 Performance of Secured Obligations. Trustor shall pay and perform each Secured Obligation when due.

4.4 Damages and Insurance and Condemnation Proceeds.

(a) Subject to Section 2.3, Trustor hereby absolutely and irrevocably assigns to Beneficiary, and authorizes the payor to pay to Beneficiary, the following claims, causes of action, awards, payments and rights to payment (collectively, the "Claims"):

(i) all awards of damages and all other compensation payable directly or indirectly because of a condemnation, proposed condemnation or taking for public or private use which affects all or part of the Property or any interest in it;

(ii) all other awards, claims and causes of action, arising out of any breach of warranty or misrepresentation affecting all or any part of the Property, or for damage or injury to, or defect in, or decrease in value of all or part of the Property or any interest in it;

(iii) all proceeds of any insurance policies payable because of loss sustained to all or part of the Property; and

(iv) all interest which may accrue on any of the foregoing.

(b) Trustor shall immediately notify Beneficiary in writing if:

(i) any material damage occurs or any injury or loss is sustained to all or part of the Property, or any action or proceeding relating to any such damage, injury or loss is commenced; or

(ii) any offer is made, or any action or proceeding is commenced, which relates to any actual or proposed condemnation or taking of all or part of the Property.

If Beneficiary chooses to do so, it may in its own name appear in or prosecute any action or proceeding to enforce any cause of action based on breach of warranty or misrepresentation, or for damage or injury to, defect in, or decrease in value of all or part of the Property. Beneficiary, if it so chooses, may participate in any action or proceeding relating to condemnation or taking of all or part of the Property, and may join Trustor in adjusting any loss covered by insurance.

(c) Subject to Section 2.3, all proceeds of the Claims assigned to Beneficiary under this Section shall be paid to Beneficiary. In each instance, subject to Section 2.3, Beneficiary shall apply those proceeds first toward reimbursement of all of Beneficiary's costs and expenses of recovering the proceeds, including attorneys' fees. Subject to Section 2.3, Trustor further authorizes Beneficiary, at Beneficiary's option and in Beneficiary's sole discretion, and regardless of whether there is any impairment of the Property, (i) to apply the balance of such proceeds, or any portion of them, to pay or prepay or cash collateralize some or all of the Secured Obligations in such order or proportion as Beneficiary may determine, or (ii) to hold the balance of such proceeds, or any portion of them, in a non-interest-bearing account to be used for the cost of reconstruction, repair or alteration of the Property, or (iii) to release the balance of such proceeds, or any portion of them, to Trustor. If any proceeds are released to Trustor, neither Beneficiary nor Trustee shall be obligated to see to, approve or supervise the proper application of such proceeds. Subject to Section 2.3, if the proceeds are held by Beneficiary to be used to reimburse Trustor for the costs of restoration and repair of the Property, the Property shall be restored to the equivalent of its original condition, or such other condition as Beneficiary may approve in writing. Beneficiary may, at Beneficiary's option, condition disbursement of the proceeds on Beneficiary's approval of such plans and specifications prepared by an architect satisfactory to Beneficiary, contractor's cost estimates, architect's certificates, waivers of liens, sworn statements of mechanics and materialmen, and such other evidence of costs, percentage of completion of construction, application of payments, and satisfaction of liens as Beneficiary may reasonably require.

4.5 **Insurance.** Trustor shall provide and maintain in force at all times all risk property damage insurance on the Property and such other types of insurance on the Property as may be required by Beneficiary and as may be required pursuant to the terms of the Reimbursement Agreement, the Indenture and any other documents executed by Trustor in connection with the financing provided to Trustor pursuant to the Reimbursement Agreement and the Indenture. At Beneficiary's request, Trustor shall provide Beneficiary with a counterpart original of any policy, together with a certificate of insurance setting forth the coverage, the limits of liability, the carrier, the policy number and the expiration date.

Each such policy of insurance shall be in an amount, for a term, and in form and content satisfactory to Beneficiary, and shall be written only by companies approved by Beneficiary. In addition, each policy of hazard insurance shall include a Form 438BFU or equivalent loss payable endorsement in favor of Beneficiary.

4.6 Maintenance and Preservation of Property.

- (a) Trustor shall keep the Property in good condition and repair.
- (b) Trustor shall not commit or permit waste of the Property.
- (c) Trustor shall not initiate or allow any change in any zoning or other land use classification which adversely affects the Property or any part of it, except with Beneficiary's express prior written consent in each instance.
- (d) If all or part of the Property becomes damaged or destroyed, Trustor shall promptly and completely repair and/or restore the Property in a good and workmanlike manner in accordance with sound building practices, regardless of whether or not Beneficiary agrees to disburse insurance proceeds or other sums to pay costs of the work of repair or reconstruction under Section 4.4.
- (e) Trustor shall not commit or allow any act upon or use of the Property which would violate any public or private covenant, condition, restriction or equitable servitude affecting the Property. Trustor shall not bring or keep any article on the Property or cause or allow any condition to exist on it, if that could invalidate or would be prohibited by any insurance coverage required to be maintained by Trustor on the Property or any part of it under this Deed of Trust.
- (f) Trustor shall do all other acts which from the character or use of the Property may be reasonably necessary to maintain and preserve its value.

4.7 Releases, Extensions, Modifications and Additional Security. Without affecting the personal liability of any person, including Trustor, for the payment of the Secured Obligations or the lien of this Deed of Trust on the remainder of the Property for the unpaid amount of the Secured Obligations, Beneficiary and Trustee are respectively empowered as follows:

- (a) Beneficiary may from time to time and without notice:
 - (i) release any person liable for payment of any Secured Obligation;
 - (ii) extend the time for payment, or otherwise alter the terms of payment, of any Secured Obligation;
 - (iii) accept additional real or personal property of any kind as security for any Secured Obligation, whether evidenced by deeds of trust, mortgages, security agreements or any other instruments of security; or
 - (iv) alter, substitute or release any property securing the Secured Obligations.
- (b) Trustee may perform any of the following acts when requested to do so by Beneficiary in writing:
 - (i) consent to the making of any plat or map of the Property or any part of it;

- (ii) join in granting any easement or creating any restriction affecting the Property;
- (iii) join in any subordination or other agreement affecting this Deed of Trust or the lien of it; or
- (iv) reconvey the Property or any part of it without any warranty.

4.8 Reconveyance. When all of the Secured Obligations have been paid in full and no further commitment to extend credit continues, Trustee shall reconvey the Property, or so much of it as is then held under this Deed of Trust, without warranty to the person or persons legally entitled to it. In the reconveyance, the grantee may be described as "the person or persons legally entitled thereto," and the recitals of any matters or facts shall be conclusive proof of their truthfulness. Neither Beneficiary nor Trustee shall have any duty to determine the rights of persons claiming to be rightful grantees of any reconveyance.

4.9 Compensation and Reimbursement of Costs and Expenses.

- (a) Trustor agrees to pay fees in the maximum amounts legally permitted, or reasonable fees as may be charged by Beneficiary and Trustee when the law provides no maximum limit, for any services that Beneficiary or Trustee may render in connection with this Deed of Trust, including Beneficiary's providing a statement of the Secured Obligations or Trustee's rendering of services in connection with a reconveyance. Trustor shall also pay or reimburse all of Beneficiary's and Trustee's costs and expenses which may be incurred in rendering any such services.
- (b) Trustor further agrees to pay or reimburse Beneficiary for all costs, expenses and other advances which may be incurred or made by Beneficiary or Trustee to protect or preserve the Property or to enforce any terms of this Deed of Trust, including the exercise of any rights or remedies afforded to Beneficiary or Trustee or both of them under Section 5.3, whether any lawsuit is filed or not, or in defending any action or proceeding arising under or relating to this Deed of Trust, including attorneys' fees and other legal costs, costs of any sale of the Property and any cost of evidence of title.
- (c) Trustor shall pay all obligations arising under this Section immediately upon demand by Trustee or Beneficiary. Each such obligation shall be added to, and considered to be part of, the principal of the Secured Obligations, and shall bear interest from the date the obligation arises at the rate provided in any instrument or agreement evidencing the Secured Obligations. If more than one rate of interest is applicable to the Secured Obligations, the highest rate shall be used for purposes hereof. If the instrument or agreement evidencing the Secured Obligations does not state a rate of interest, interest shall accrue at the rate of [ten percent (10%)] per annum.

4.10 Exculpation and Indemnification.

- (a) Beneficiary shall not be directly or indirectly liable to Trustor or any other person as a consequence of any of the following:
 - (i) Beneficiary's exercise of or failure to exercise any rights, remedies or powers granted to it in this Deed of Trust;
 - (ii) Beneficiary's failure or refusal to perform or discharge any obligation or liability of Trustor under any agreement related to the Property or under this Deed of Trust;

(iii) Beneficiary's failure to produce Rents, if any, from the Property or to perform any of the obligations of the lessor or licensor under any lease or license covering the Property;

(iv) any waste committed by lessees of the Property or any other parties, or any dangerous or defective condition of the Property; or

(v) any loss sustained by Trustor or any third party resulting from any act or omission of Beneficiary in operating or managing the Property upon exercise of the rights or remedies afforded Beneficiary under Section 5.3, unless the loss is caused by the willful misconduct and bad faith of Beneficiary.

Trustor hereby expressly waives and releases all liability of the types described above, and agrees that no such liability shall be asserted against or imposed upon Beneficiary.

(b) Trustor agrees to indemnify Trustee and Beneficiary against and hold them harmless from all losses, damages, liabilities, claims, causes of action, judgments, court costs, attorneys' fees and other legal expenses, cost of evidence of title, cost of evidence of value, and other costs and expenses which either may suffer or incur in performing any act required or permitted by this Deed of Trust or by law or because of any failure of Trustor to perform any of its obligations. This agreement by Trustor to indemnify Trustee and Beneficiary shall survive the release and cancellation of any or all of the Secured Obligations and the full or partial release and/or reconveyance of this Deed of Trust.

4.11 Defense and Notice of Claims and Actions. At Trustor's sole expense, Trustor shall protect, preserve and defend the Property and title to and right of possession of the Property, and the security of this Deed of Trust and the rights and powers of Beneficiary and Trustee created under it, against all adverse claims. Trustor shall give Beneficiary and Trustee prompt notice in writing of any claim asserted or lawsuits filed against the Property and as required pursuant to the Reimbursement Agreement.

4.12 Substitution of Trustee. From time to time, Beneficiary may substitute a successor to any Trustee named in or acting under this Deed of Trust in any manner now or later to be provided at law, or by a written instrument executed and acknowledged by Beneficiary and recorded in the office of the recorder of the county where the Property is situated. Any such instrument shall be conclusive proof of the proper substitution of the successor Trustee, who shall automatically upon recordation of the instrument succeed to all estate, title, rights, powers and duties of the predecessor Trustee, without conveyance from it.

4.13 Impound Account. At the request of Beneficiary at any time after an Event of Default and during the continuance thereof, Trustor shall, until all Secured Obligations have been paid in full, pay to Beneficiary monthly, annually or as otherwise directed by Beneficiary an amount estimated by Beneficiary to be equal to: (a) all taxes, assessments, levies and charges imposed by any public or quasi-public authority or utility company which are or may become a lien upon the Property and will become due for the tax year during which such payment is so directed; and (b) premiums for fire, other hazard and mortgage insurance next due. If Beneficiary determines that amounts paid by Trustor are insufficient for the payment in full of such taxes, assessments, levies and/or insurance premiums, Beneficiary shall notify Trustor of the increased amount required for the payment thereof when due, and Trustor shall pay to Beneficiary such additional amount within thirty (30) days after notice from Beneficiary. All amounts so paid shall not bear interest, except to the extent and in the amount required by law. So long as there is no Event of Default, Beneficiary shall apply said amounts to the payment of, or at Beneficiary's sole option release said funds to Trustor for application to and payment of, such taxes, assessments, levies, charges and insurance premiums. If an Event of Default exists, Beneficiary at its sole option may apply all or any

part of said amounts to any Secured Obligation and/or to cure such Event of Default, in which event Trustor shall be required to restore all amounts so applied, as well as to cure any Event of Default not cured by such application. Trustor hereby grants and transfers to Beneficiary a security interest in all amounts so paid and held in Beneficiary's possession, and all proceeds thereof, to secure the payment and performance of each Secured Obligation. Upon assignment of this Deed of Trust, Beneficiary shall have the right to assign all amounts collected and in its possession to its assignee, whereupon Beneficiary and Trustee shall be released from all liability with respect thereto. The existence of said impounds shall not limit Beneficiary's rights under any other provision of this Deed of Trust or any other agreement, statute or rule of law. Within ninety-five (95) days following full repayment of all Secured Obligations (other than as a consequence of a foreclosure or conveyance in lieu of foreclosure of the liens and security interests securing any Secured Obligation), or at such earlier time as Beneficiary in its discretion may elect, the balance of all amounts collected and in Beneficiary's possession shall be paid to Trustor, and no other party shall have any right of claim thereto.

4.14 Acceptance of Trust; Powers and Duties of Trustee. Trustee accepts this trust when this Deed of Trust is executed. From time to time, upon written request of Beneficiary and, to the extent required by applicable law presentation of this Deed of Trust for endorsement, and without affecting the personal liability of any person for payment of any indebtedness or performance of any of the Secured Obligations, Beneficiary, or Trustee at Beneficiary's direction, may, without obligation to do so or liability therefor and without notice: (a) reconvey all or any part of the Property from the lien of this Deed of Trust; (b) consent to the making of any map or plat of the Property; and (c) join in any grant of easement or declaration of covenants and restrictions with respect to the Property, or any extension agreement or any agreement subordinating the lien or charge of this Deed of Trust. Trustee or Beneficiary may from time to time apply to any court of competent jurisdiction for aid and direction in the execution of the trusts and the enforcement of its rights and remedies available under this Deed of Trust, and may obtain orders or decrees directing, confirming or approving acts in the execution of said trusts and the enforcement of said rights and remedies. Trustee has no obligation to notify any party of any pending sale or any action or proceeding (including, but not limited to, actions in which Trustor, Beneficiary or Trustee shall be a party) unless held or commenced and maintained by Trustee under this Deed of Trust. Trustee shall not be obligated to perform any act required of it under this Deed of Trust unless the performance of the act is requested in writing and Trustee is reasonably indemnified against all losses, costs, liabilities and expenses in connection therewith.

4.15 Subrogation. Beneficiary shall be subrogated to the lien of all encumbrances, whether or not released of record, paid in whole or in part by Beneficiary pursuant to this Deed of Trust or by the proceeds of any Secured Obligation.

5. ACCELERATING TRANSFERS, DEFAULT AND REMEDIES.

5.1 Accelerating Transfers

(a) "Accelerating Transfer" means, other than in the ordinary course of Borrower's business, any sale, contract to sell, conveyance, encumbrance, lease, or other transfer, whether voluntary, involuntary, by operation of law or otherwise, of all or any significant part of the Property or any interest in it, including any transfer or exercise of any right of Trustor or that of its Member Entities to drill for or to extract any water (other than for Trustor's own use), oil, gas or other hydrocarbon substances or any mineral of any kind on or under the surface of the Property.

(b) Trustor agrees that Trustor shall not make any Accelerating Transfer, unless the transfer is preceded by Beneficiary's express prior written consent to the particular transaction and transferee. Beneficiary may withhold such consent in its sole discretion. If any Accelerating Transfer occurs without Beneficiary's prior written consent, Beneficiary and Trustee may invoke any rights and remedies provided by Section 5.3 of this Deed of Trust.

5.2 Events of Default. The occurrence of any one or more of the following events, at the option of Beneficiary, shall constitute an event of default ("Event of Default") under this Deed of Trust:

- (a) Any "Event of Default" occurs under and as defined in the Reimbursement Agreement, any "Event of Default" occurs under and as defined in any Swap Agreement or any "event of default" occurs under and as defined in any other instrument or agreement evidencing any of the Secured Obligations and such event of default continues beyond any applicable cure period;
- (b) Except as permitted pursuant to the terms of the Reimbursement Agreement or Section 5.1 of this Deed of Trust, Trustor or any successor in interest to Trustor in the property sells, conveys, alienates, assigns or transfers said property, or any part thereof, or any interest therein, or drills or extracts or enters into any lease for the drilling or extraction of oil, gas, or other hydrocarbon substances or any mineral of any kind or character therefrom or from any part thereof, or becomes divested of his title or any interest therein in any manner or way, whether voluntary or involuntary; or
- (c) Anyone other than Trustor or any owner or new owner, assignee or transferor of any right to minerals conveyed prior to the date of this Deed of Trust establishes and exercises any right to develop, bore for or mine for any water, gas, oil, or mineral on or under the surface of the property;
- (d) Trustor fails to make any payment when due (after giving effect to any applicable grace period) or perform any agreement or obligation under this Deed of Trust;
- (e) Any representation or warranty made in connection with this Deed of Trust or the Secured Obligations proves to have been false or misleading in any material respect when made; or
- (f) Any default occurs under any other deed of trust on all or any part of the Property, or under any obligation secured by such deed of trust, whether such deed of trust is prior to or subordinate to this Deed of Trust.

5.3 Remedies. At any time after the occurrence of an Event of Default, Beneficiary and Trustee shall be entitled to invoke any and all of the rights and remedies described below, as well as any other rights and remedies authorized by law. All rights, powers and remedies of Beneficiary and Trustee hereunder are cumulative and are in addition to all rights, powers and remedies provided by law or in any other agreements between Trustor and Beneficiary. No delay, failure or discontinuance of Beneficiary in exercising any right, power or remedy hereunder shall affect or operate as a waiver of such right, power or remedy; nor shall any single or partial exercise of any such right, power or remedy preclude, waive or otherwise affect any other or further exercise thereof or the exercise of any other right, power or remedy.

- (a) Beneficiary may declare any or all of the Secured Obligations to be due and payable immediately, irrespective of the maturity date specified in any note or written agreement evidencing the same, immediately due and payable without notice or demand, and no waiver of this right shall be effective unless in writing and signed by Beneficiary; [provided, however, in the event (i) the Letter of Credit is outstanding, in lieu of causing a mandatory purchase of the Bonds, Beneficiary may demand that Trustor deposit with Beneficiary in a non-interest bearing account cash in an amount equal to the then stated amount of the Letter of Credit and/or (ii) a Swap Agreement is in effect, in lieu of designating an "Early Termination Date" (as such term is defined in a Swap Agreement), Beneficiary may demand that Trustor deposit with Beneficiary in a non-interest bearing account cash in an amount equal to the amount, if any, payable to

Beneficiary under the terms of such Swap Agreement assuming an Early Termination Date had been so designated.]

(b) Beneficiary may apply to any court of competent jurisdiction for, and obtain appointment of, a receiver for the Property.

(c) Beneficiary may apply to a court of competent jurisdiction for and obtain appointment of a receiver of the Property as a matter of strict right and without regard to: (i) the adequacy of the security for the repayment of the Secured Obligations; (ii) the existence of a declaration that the Secured Obligations are immediately due and payable; or (iii) the filing of a notice of default; and Trustor consents to such appointment.

(d) Beneficiary, in person, by agent or by court-appointed receiver, may enter, take possession of, manage and operate all or any part of the Property, and in its own name or in the name of Trustor sue for or otherwise collect any and all Rents, including those that are past due, and may also do any and all other things in connection with those actions that Beneficiary may in its sole discretion consider necessary and appropriate to protect the security of this Deed of Trust. Such other things may include: entering into, enforcing, modifying, or canceling leases on such terms and conditions as Beneficiary may consider proper; obtaining and evicting tenants; fixing or modifying Rents; completing any unfinished construction; contracting for and making repairs and alterations; performing such acts of cultivation or irrigation as necessary to conserve the value of the Property. Trustor hereby irrevocably constitutes and appoints Beneficiary as its attorney-in-fact to perform such acts and execute such documents as Beneficiary in its sole discretion may consider to be appropriate in connection with taking these measures, including endorsement of Trustor's name on any instruments. Trustor agrees to deliver to Beneficiary all books and records pertaining to the Property, including computer-readable memory and any computer hardware or software necessary to access or process such memory, as may reasonably be requested by Beneficiary in order to enable Beneficiary to exercise its rights under this Section.

(e) Beneficiary may take and possess all documents, books, records, papers and accounts of Trustor or the then owner of the Property; to make or modify Leases of, and other agreements with respect to, the Property upon such terms and conditions as Beneficiary deems proper; and to make repairs, alterations and improvements to the Property deemed necessary, in Trustee's or Beneficiary's judgment, to protect or enhance the security hereof.

(f) Either Beneficiary or Trustee may cure any breach or default of Trustor, and if it chooses to do so in connection with any such cure, Beneficiary or Trustee may also enter the Property and/or do any and all other things which it may in its sole discretion consider necessary and appropriate to protect the security of this Deed of Trust. Such other things may include: appearing in and/or defending any action or proceeding which purports to affect the security of, or the rights or powers of Beneficiary or Trustee under, this Deed of Trust; paying, purchasing, contesting or compromising any encumbrance, charge, lien or claim of lien which in Beneficiary's or Trustee's sole judgment is or may be senior in priority to this Deed of Trust, such judgment of Beneficiary or Trustee to be conclusive as among the parties to this Deed of Trust; obtaining insurance and/or paying any premiums or charges for insurance required to be carried under this Deed of Trust; otherwise caring for and protecting any and all of the Property; and/or employing counsel, accountants, contractors and other appropriate persons to assist Beneficiary or Trustee. Beneficiary and Trustee may take any of the actions permitted hereunder either with or without giving notice to any person.

(g) Beneficiary may bring an action in any court of competent jurisdiction to foreclose this instrument or to obtain specific enforcement of any of the covenants or agreements

of this Deed of Trust, and Trustor agrees that such covenants shall be specifically enforceable by injunction or any other appropriate equitable remedy. For the purposes of any suit brought under this subsection, Trustor waives the defenses of laches and any applicable statute of limitations.

(h) Beneficiary may cause the Property to be sold by Trustee as permitted by applicable law. Before any such trustee's sale, Beneficiary or Trustee shall give such notice of default and election to sell as may then be required by law. When all time periods then legally mandated have expired, and after such notice of sale as may then be legally required has been given, Trustee shall sell the Property, either as a whole or in separate parcels, and in such order as Trustee may determine, at a public auction to be held at the time and place specified in the notice of sale. Neither Trustee nor Beneficiary shall have any obligation to make demand on Trustor before any trustee's sale. From time to time in accordance with then applicable law, Trustee may, and in any event at Beneficiary's request shall, postpone any trustee's sale by public announcement at the time and place noticed for that sale. At any trustee's sale, Trustee shall sell to the highest bidder at public auction for cash in lawful money of the United States. Any person, including Trustor, Trustee or Beneficiary, may purchase at the trustee's sale. Trustee shall execute and deliver to the purchaser(s) a deed or deeds conveying the property being sold without any covenant or warranty whatsoever, express or implied. The recitals in any such deed of any matters or facts, including any facts bearing upon the regularity or validity of any trustee's sale, shall be conclusive proof of their truthfulness. Any such deed shall be conclusive against all persons as to the facts recited in it.

(i) Upon sale of the Property at any judicial or non-judicial foreclosure, Beneficiary may credit bid (as determined by Beneficiary in its sole discretion) all or any portion of the Secured Obligations. In determining such credit bid, Beneficiary may, but is not obligated to, take into account all or any of the following: (i) appraisals of the Property as such appraisals may be discounted or adjusted by Beneficiary in its sole underwriting discretion; (ii) expenses and costs incurred by Beneficiary with respect to the Property prior to foreclosure; (iii) expenses and costs which Beneficiary anticipates will be incurred with respect to the Property after foreclosure, but prior to resale, including without limitation, costs of structural reports and other due diligence, costs to carry the Property prior to resale, costs of resale (e.g., commissions, attorneys' fees, and taxes), Hazardous Materials (as defined in the Reimbursement Agreement) clean-up and monitoring, deferred maintenance, repair, refurbishment and retrofit, and costs of defending or settling litigation affecting the Property; (iv) declining trends in real property values generally and with respect to properties similar to the Property; (v) anticipated discounts upon resale of the Property as a distressed or foreclosed property; (vi) the existence of additional collateral, if any, for the Secured Obligations; and (vii) such other factors or matters that Beneficiary deems appropriate. Trustor acknowledges and agrees that: (A) Beneficiary is not required to use any or all of the foregoing factors to determine the amount of its credit bid; (B) this Section does not impose upon Beneficiary any additional obligations that are not imposed by law at the time the credit bid is made; (C) the amount of Beneficiary's credit bid need not have any relation to any loan-to-value ratios specified in any agreement between Trustor and Beneficiary or previously discussed by Trustor and Beneficiary; and (D) Beneficiary's credit bid may be, at Beneficiary's sole discretion, higher or lower than any appraised value of the Property.

5.4 Application of Sale Proceeds and Rents.

(a) Beneficiary and Trustee shall apply the proceeds of any sale of the Property in the following manner: first, to pay the portion of the Secured Obligations attributable to the costs, fees and expenses of the sale, including costs of evidence of title in connection with the sale; and, second, to pay all other Secured Obligations in any order and proportions as Beneficiary in its sole discretion may choose. The remainder, if any, shall be remitted to the person or persons entitled thereto.

(b) Beneficiary shall apply any and all Rents collected by it, and any and all sums other than proceeds of any sale of the Property which Beneficiary may receive or collect under Section 5.3, in the following manner: first, to pay the portion of the Secured Obligations attributable to the costs and expenses of operation and collection that may be incurred by Trustee, Beneficiary or any receiver; and, second, to pay all other Secured Obligations in any order and proportions as Beneficiary in its sole discretion may choose. The remainder, if any, shall be remitted to the person or persons entitled thereto. Beneficiary shall have no liability for any funds that it does not actually receive.

5.5 Costs, Expenses and Attorneys' Fees. Trustor agrees to pay to Beneficiary immediately upon demand the full amount of all payments, advances, charges, costs and expenses, including court costs and reasonable attorneys' fees (to include outside counsel fees and all allocated costs of Beneficiary's in-house counsel), expended or incurred by Trustee or Beneficiary pursuant to this Section V, whether incurred at the trial or appellate level, in an arbitration proceeding or otherwise, and including any of the foregoing incurred in connection with any bankruptcy proceeding (including without limitation, any adversary proceeding, contested matter or motion brought by Beneficiary or any other person) relating to Trustor or in any way affecting any of the Property or Beneficiary's ability to exercise any of its rights or remedies with respect thereto. All of the foregoing shall be paid by Trustor with interest from the date of demand until paid in full at the highest rate per annum payable under any Secured Obligation.

6. MISCELLANEOUS PROVISIONS

6.1 No Waiver or Cure.

(a) Each waiver by Beneficiary or Trustee must be in writing, and no waiver shall be construed as a continuing waiver. No waiver shall be implied from any delay or failure by Beneficiary or Trustee to take action on account of any default of Trustor. Consent by Beneficiary or Trustee to any act or omission by Trustor shall not be construed as a consent to any other or subsequent act or omission or to waive the requirement for Beneficiary's or Trustee's consent to be obtained in any future or other instance.

(b) If any of the events described below occurs, that event alone shall not cure or waive any breach, Event of Default or notice of default under this Deed of Trust or invalidate any act performed pursuant to any such default or notice; or nullify the effect of any notice of default or sale (unless all Secured Obligations then due have been paid and performed); or impair the security of this Deed of Trust; or prejudice Beneficiary, Trustee or any receiver in the exercise of any right or remedy afforded any of them under this Deed of Trust; or be construed as an affirmation by Beneficiary of any tenancy, lease or option, or a subordination of the lien of this Deed of Trust:

(i) Beneficiary, its agent or a receiver takes possession of all or any part of the Property;

(ii) Beneficiary collects and applies Rents, either with or without taking possession of all or any part of the Property;

(iii) Beneficiary receives and applies to any Secured Obligation proceeds of any Property, including any proceeds of insurance policies, condemnation awards, or other claims, property or rights assigned to Beneficiary under this Deed of Trust;

(iv) Beneficiary makes a site visit, observes the Property and/or conducts tests thereon;

(v) Beneficiary receives any sums under this Deed of Trust or any proceeds of any collateral held for any of the Secured Obligations, and applies them to one or more Secured Obligations; or

(vi) Beneficiary, Trustee or any receiver performs any act which it is empowered or authorized to perform under this Deed of Trust or invokes any right or remedy provided under this Deed of Trust.

6.2 Powers of Beneficiary and Trustee.

(a) Trustee shall have no obligation to perform any act which it is empowered to perform under this Deed of Trust unless it is requested to do so in writing and is reasonably indemnified against loss, cost, liability and expense.

(b) Beneficiary may take any of the actions permitted under Sections 5.3(b) and/or 5.3(c) regardless of the adequacy of the security for the Secured Obligations, or whether any or all of the Secured Obligations have been declared to be immediately due and payable, or whether notice of default and election to sell has been given under this Deed of Trust.

(c) From time to time, Beneficiary or Trustee may apply to any court of competent jurisdiction for aid and direction in executing the trust and enforcing the rights and remedies created under this Deed of Trust. Beneficiary or Trustee may from time to time obtain orders or decrees directing, confirming or approving acts in executing this trust and enforcing these rights and remedies.

6.3 Merger. No merger shall occur as a result of Beneficiary's acquiring any other estate in or any other lien on the Property unless Beneficiary consents to a merger in writing.

6.4 Applicable Law. This Deed of Trust shall be governed by California law.

6.5 Successors in Interest. The terms, covenants and conditions of this Deed of Trust shall be binding upon and inure to the benefit of the heirs, successors and assigns of the parties. However, this Section does not waive the provisions of Section 5.1. Beneficiary reserves the right to sell, assign, transfer, negotiate or grant participations in all or any part of, or any interest in, Beneficiary's rights and benefits under the Reimbursement Agreement, any and all other Secured Obligations and this Deed of Trust. In connection therewith, Beneficiary may disclose all documents and information which Beneficiary now has or hereafter acquires relating to the Property, all or any of the Secured Obligations and/or Trustor and, as applicable, any partners, joint venturers or members of Trustor, whether furnished by any Trustor or otherwise.

6.6 Interpretation. Whenever the context requires, all words used in the singular will be construed to have been used in the plural, and vice versa, and each gender will include any other gender. The captions of the sections of this Deed of Trust are for convenience only and do not define or limit any terms or provisions. The word "include(s)" means "include(s), without limitation," and the word "including" means "including, but not limited to." The word "obligations" is used in its broadest and most comprehensive sense, and includes all primary, secondary, direct, indirect, fixed and contingent obligations. It further includes all principal, interest, prepayment charges, late charges, loan fees and any other fees and charges accruing or assessed at any time, as well as all obligations to perform acts or satisfy conditions. No listing of specific instances, items or matters in any way limits the scope or generality of any language of this Deed of Trust. The Exhibits to this Deed of Trust are hereby incorporated in this Deed of Trust.

6.7 In-House Counsel Fees. Whenever Trustor is obligated to pay or reimburse Beneficiary or Trustee for any attorneys' fees, those fees shall include the allocated costs for services of in-house counsel.

6.8 Waiver of Marshaling. Trustor waives all rights, legal and equitable, it may now or hereafter have to require marshaling of assets or to direct the order in which any of the Property will be sold in the event of any sale under this Deed of Trust, including any rights provided by California Civil Code Sections 2899 and 3433, as such Sections may be amended from time to time. Each successor and assignee of Trustor, including any holder of a lien subordinate to this Deed of Trust, by acceptance of its interest or lien agrees that it shall be bound by the above waiver, as if it had given the waiver itself.

6.9 Severability. If any provision of this Deed of Trust should be held unenforceable or void, that provision shall be deemed severable from the remaining provisions and in no way affect the validity of this Deed of Trust except that if such provision relates to the payment of any monetary sum, then Beneficiary may, at its option, declare all Secured Obligations immediately due and payable.

6.10 Statement of Obligation. Upon demand by Beneficiary, Trustor shall pay Beneficiary a fee not to exceed \$60.00 or such other maximum amount as may be imposed by law for furnishing any Statement of Obligation as provided by Section 2943 of the California Civil Code.

6.11 Power to File Notices and Cure Defaults. Trustor hereby irrevocably appoints Beneficiary and its successors and assigns as Trustor's true attorney-in-fact to perform any of the following powers, which agency is coupled with an interest: (a) to execute and/or record any notices of completion, cessation of labor, or any other notices that Beneficiary deems appropriate to protect Beneficiary's interest; and (b) upon the occurrence of any event, act or omission which with the giving of notice or the passage of time, or both, would constitute an Event Default, to perform any obligation of Trustor hereunder; provided however, that Beneficiary, as such attorney-in-fact, shall only be accountable for such funds as are actually received by Beneficiary, and Beneficiary shall not be liable to Trustor or any other person or entity for any failure to act under this Section.

6.12 Arbitration.

(a) Arbitration. The parties hereto agree, upon demand by any party, to submit to binding arbitration all claims, disputes and controversies between or among them (and their respective employees, officers, directors, attorneys, and other agents), whether in tort, contract or otherwise arising out of or relating to in any way (i) the loan and related loan and security documents which are the subject of this Deed of Trust and its negotiation, execution, collateralization, administration, repayment, modification, extension, substitution, formation, inducement, enforcement, default or termination; or (ii) requests for additional credit.

(b) Governing Rules. Any arbitration proceeding will (i) proceed in a location in California selected by the American Arbitration Association ("AAA"); (ii) be governed by the Federal Arbitration Act (Title 9 of the United States Code), notwithstanding any conflicting choice of law provision in any of the documents between the parties; and (iii) be conducted by the AAA, or such other administrator as the parties shall mutually agree upon, in accordance with the AAA's commercial dispute resolution procedures, unless the claim or counterclaim is at least \$1,000,000.00 exclusive of claimed interest, arbitration fees and costs in which case the arbitration shall be conducted in accordance with the AAA's optional procedures for large, complex commercial disputes (the commercial dispute resolution procedures or the optional procedures for large, complex commercial disputes to be referred to, as applicable, as the "Rules"). If there is any inconsistency between the terms hereof and the Rules, the terms and procedures set forth herein shall control. Any party who fails or refuses to submit to arbitration following a demand by any other party shall bear all costs and expenses incurred by such other party in

compelling arbitration of any dispute. Nothing contained herein shall be deemed to be a waiver by any party that is a bank of the protections afforded to it under 12 U.S.C. §91 or any similar applicable state law.

(c) No Waiver of Provisional Remedies, Self-Help and Foreclosure. The arbitration requirement does not limit the right of any party to (i) foreclose against real or personal property collateral; (ii) exercise self-help remedies relating to collateral or proceeds of collateral such as setoff or repossession; or (iii) obtain provisional or ancillary remedies such as replevin, injunctive relief, attachment or the appointment of a receiver, before during or after the pendency of any arbitration proceeding. This exclusion does not constitute a waiver of the right or obligation of any party to submit any dispute to arbitration or reference hereunder, including those arising from the exercise of the actions detailed in sections (i), (ii) and (iii) of this paragraph.

(d) Arbitrator Qualifications and Powers. Any arbitration proceeding in which the amount in controversy is \$5,000,000.00 or less will be decided by a single arbitrator selected according to the Rules, and who shall not render an award of greater than \$5,000,000.00. Any dispute in which the amount in controversy exceeds \$5,000,000.00 shall be decided by majority vote of a panel of three arbitrators; provided however, that all three arbitrators must actively participate in all hearings and deliberations. The arbitrator will be a neutral attorney licensed in the State of California or a neutral retired judge of the state or federal judiciary of California, in either case with a minimum of ten years experience in the substantive law applicable to the subject matter of the dispute to be arbitrated. The arbitrator will determine whether or not an issue is arbitratable and will give effect to the statutes of limitation in determining any claim. In any arbitration proceeding the arbitrator will decide (by documents only or with a hearing at the arbitrator's discretion) any pre-hearing motions which are similar to motions to dismiss for failure to state a claim or motions for summary adjudication. The arbitrator shall resolve all disputes in accordance with the substantive law of California and may grant any remedy or relief that a court of such state could order or grant within the scope hereof and such ancillary relief as is necessary to make effective any award. The arbitrator shall also have the power to award recovery of all costs and fees, to impose sanctions and to take such other action as the arbitrator deems necessary to the same extent a judge could pursuant to the Federal Rules of Civil Procedure, the California Rules of Civil Procedure or other applicable law. Judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction. The institution and maintenance of an action for judicial relief or pursuit of a provisional or ancillary remedy shall not constitute a waiver of the right of any party, including the plaintiff, to submit the controversy or claim to arbitration if any other party contests such action for judicial relief.

(e) Discovery. In any arbitration proceeding discovery will be permitted in accordance with the Rules. All discovery shall be expressly limited to matters directly relevant to the dispute being arbitrated and must be completed no later than 20 days before the hearing date and within 180 days of the filing of the dispute with the AAA. Any requests for an extension of the discovery periods, or any discovery disputes, will be subject to final determination by the arbitrator upon a showing that the request for discovery is essential for the party's presentation and that no alternative means for obtaining information is available.

(f) Class Proceedings and Consolidations. The resolution of any dispute arising pursuant to the terms of this Deed of Trust shall be determined by a separate arbitration proceeding and such dispute shall not be consolidated with other disputes or included in any class proceeding.

(g) Payment Of Arbitration Costs And Fees. The arbitrator shall award all costs and expenses of the arbitration proceeding.

(h) Real Property Collateral; Judicial Reference. Notwithstanding anything herein to the contrary, no dispute shall be submitted to arbitration unless: (i) Beneficiary specifically elects in writing to proceed with the arbitration; or (ii) all parties to the arbitration waive any rights or benefits that might accrue to them by virtue of the single action rule statute of California, thereby agreeing that all Secured Obligations, and all mortgages, liens and security interests securing any of the Secured Obligations, shall remain fully valid and enforceable. If any such dispute is not submitted to arbitration, the dispute shall be referred to a referee in accordance with California Code of Civil Procedure Section 638 et seq., and this general reference agreement is intended to be specifically enforceable in accordance with said Section 638. A referee with the qualifications required herein for arbitrators shall be selected pursuant to the AAA's selection procedures. Judgment upon the decision rendered by a referee shall be entered in the court in which such proceeding was commenced in accordance with California Code of Civil Procedure Sections 644 and 645.

(i) Miscellaneous. To the maximum extent practicable, the AAA, the arbitrators and the parties shall take all action required to conclude any arbitration proceeding within 180 days of the filing of the dispute with the AAA. No arbitrator or other party to an arbitration proceeding may disclose the existence, content or results thereof, except for disclosures of information by a party required in the ordinary course of its business or by applicable law or regulation. If more than one agreement for arbitration by or between the parties potentially applies to a dispute, the arbitration provision most directly related to the documents between the parties or the subject matter of the dispute shall control. This arbitration provision shall survive termination, amendment or expiration of any of the documents or any relationship between the parties.

ASSIGNMENT AND PLEDGE OF WATER AND WATER RIGHTS

This Assignment and Pledge of Water and Water Rights ("Assignment") is made as of January 1, 2004, by Dudley Ridge Water District ("Dudley Ridge"), Kern County Water Agency ("KWCA"), Semitropic Water Storage District ("Semitropic"), Tejon-Castac Water District ("Tejon-Castac"), Westside Mutual Water Company, LLC ("Westside") and Wheeler Ridge-Maricopa Water Storage District ("WheelerRidge-Maricopa") (each an "Assignor") in favor of Kern Water Bank Authority (the "Authority"), with reference to the following facts:

RECITALS

A. The Authority was formed on October 16, 1995 pursuant to a Joint Powers Agreement between Dudley Ridge, "KWCA, Semitropic, Tejon-Castac, Westside, and Wheeler Ridge-Maricopa, as amended and restated by a First Amended and Restated Joint Powers Agreement dated July 19, 1999 and further amended by the Second Amendment to Joint Powers Agreement dated March 15, 2001 and the Third Amendment to Joint Powers Agreement dated as of the date hereof (as amended, the "Joint Powers Agreement"). Dudley Ridge, KCWA, Semitropic, Tejon-Castac, Westside and Wheeler Ridge-Maricopa are collectively referred to herein as the "Member Entities."

B. Pursuant to the Joint Powers Agreement, the Authority manages the Kern Water Bank and owns and maintains the real property described in Exhibit A, attached hereto and incorporated herein by reference (the "Property"), for its benefit and the benefit of the Member Entities. Pursuant to Section 4.5(b) of the Joint Powers Agreement, each of the Member Entities has granted a security interest in all water which such Member Entity may have in storage in the Project (as defined in the Joint Powers Agreement) at any time and from time to time, to the Authority for the benefit of the Authority and all other Member Entities, to secure the obligations under (1) the Joint Powers Agreement, (2) the "Participation Agreement for Pastoria Energy Project" dated March 15, 2001, and (3) the Operating Rules and Regulations (as defined in the Joint Powers Agreement), including payment to the Authority of assessments, including assessments for debt service obligations for Bonds (as defined in the Joint Powers Agreement) as provided in the Joint Powers Agreement (collectively, the "Obligations"). Section 4.5(b) also requires each Member Entity to execute all documents which the Authority and its counsel may deem advisable from time to time to perfect and maintain such lien.

C. The Authority has caused to be issued its Variable Rate Demand Revenue Bonds, Series 2003A and Series 2003B, and in connection therewith has entered into a Reimbursement Agreement dated November 1, 2003 with Wells Fargo Bank, National Association (the "Bank"). The Reimbursement Agreement requires that this Assignment be entered into on or before

February 24, 2004. The Authority and its counsel therefore deem it advisable for each Member Entity to execute this Assignment.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and the Authority agree as follows:

1. ASSIGNMENT.

Each Assignor hereby pledges, assigns and grants to the Authority a security interest in all water which such Assignor may have in storage in the Project at any time and from time to time, and in all proceeds thereof, additions and accretions thereto, and substitutions and replacements therefor (the "Assignor's Collateral"), to secure the payment and performance of such Assignor's Obligations.

2. DEFAULT.

Should an Assignor default in the performance or payment of any of its Obligations, then, in addition to other remedies which are otherwise available, the Authority may exercise the remedies set forth in Sections 4.5(c) and 4.5(d) of the Joint Powers Agreement with respect to such Assignor.

3. RIGHTS AND DUTIES OF THE PARTIES.

3.1 Representations and Warranties. Each Assignor represents and warrants that such Assignor is the owner of all right, title, and interest in such Assignor's Collateral free and clear of all liens, encumbrances, and security interests, except the security interest created by the Joint Powers Agreement and this Assignment.

3.2 Releases, Extensions, Modifications and Additional Security. Without affecting the liability of any Assignor or any other Member Entity for the payment and performance of such Assignor's Obligations or the lien of this Assignment, the Authority may from time to time without notice:

- (a) release any Member Entity for payment of any Obligation;
- (b) extend the time for payment, or otherwise alter the terms of payment, of any Obligation;
- (c) accept additional real or personal property of any kind as security for any Obligation, whether evidenced by deeds of trust, mortgages, security agreements or any other instruments of security; or
- (d) alter, substitute or release any property securing the Obligations.

3.3 Compensation and Reimbursement of Costs and Expenses. Each Assignor agrees to pay or reimburse the Authority for all costs, expenses and other advances which may be incurred or made by the Authority to protect or preserve such Assignor's Collateral or to enforce any obligations of such Assignor under the terms of this Assignment, including the exercise of any rights or remedies with respect to such Assignor afforded hereunder or under applicable law, whether any lawsuit is filed or not, or in defending any action or proceeding with respect to such Assignor arising under or relating to this Assignment, including attorneys' fees and other legal costs, costs of any sale of the Assignor's Collateral and any cost of evidence of title.

3.4 Exculpation. The Authority shall not be directly or indirectly liable to any Assignor or any other person as a consequence of the Authority's exercise of or failure to exercise any rights, remedies or powers granted to it in this Assignment, or of the Authority's failure or refusal to perform or discharge any obligation or liability of any Assignor under any agreement related to any Assignor's Collateral or under this Assignment. Each Assignor hereby expressly waives and releases all such liability, and agrees that no such liability shall be asserted against or imposed upon the Authority.

3.5 Perfection of Security Interest. The parties intend that the security interests granted under this Assignment and under the Joint Powers Agreement be perfected by the Authority's possession of the Collateral. Each Assignor authorizes the Authority to cause a Financing Statement to be filed in the Office of the California Secretary of State and/or recorded in the Office of the Kern County Recorder, and further authorizes the Authority to cause this Assignment to be recorded in the Office of the Kern County Recorder, if any such filing or recordation is requested by the Bank.

4. MISCELLANEOUS PROVISIONS

4.1 No Waiver or Cure. No waiver shall be implied from any delay or failure by the Authority to take action on account of any default of any Assignor. Consent by the Authority to any act or omission by any Assignor shall not be construed as a consent to any other or subsequent act or omission or to waive the requirement for Authority's consent to be obtained in any future or other instance.

4.2 Severability. If any provision of this Assignment should be held unenforceable or void, that provision shall be deemed severable from the remaining provisions and in no way affect the validity of this Assignment.

4.3 Entire Agreement. This Assignment, together with the Joint Powers Agreement, constitutes the final, complete, and exclusive statement of the terms of the agreement between the parties pertaining to the Authority's security interest in each Assignor's Collateral and supersedes all prior and contemporaneous understandings or agreements of the parties with respect thereto.

4.4 Ambiguities. Any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Assignment.

4.5 No Third Party Beneficiary. This Assignment is made solely for the benefit of the parties to this Assignment and their permitted successors and assigns, and no other person or entity shall have or acquire any right by virtue of this Assignment.

4.6 Notices. Any notice under this Assignment shall be in writing and shall be shall be delivered or addressed to the parties at the addresses set forth below or at the most recent address specified by the addressee through written notice under this provision:

EASEMENT

KERN WATER BANK AUTHORITY, a political subdivision of the State of California,

hereinafter called first party, hereby grants to PACIFIC GAS AND ELECTRIC COMPANY, a California corporation, hereinafter called second party, the right from time to time to construct, reconstruct, install, inspect, maintain, replace, remove, and use facilities of the type hereinafter specified, together with a right of way therefore, within a strip or parcel of land or along a route as hereinafter set forth, and also ingress thereto and egress therefrom, over and across the lands situate in the County of Kern, State of California, described as follows:

(APN 159-010-02,03,& 04, 160-010-38,40,41 & 43, 160-020-04,06 & 08, 160-030-03,04,10,12 & 14, 160-040-01,02 & 03, 160-050-01 & 04, 160-060-01,02 & 03, 160-070-02,03,04,06,10,11,14,19,20,22 & 23 160-080-01,02,04,07,09,15,17,18,19,20, & 21, 160-090-01,02 & 03, 160-100-02,04,05,06,07 & 08, 160-110-10 & 13, 160-120-05,12,13,14,17,18,20,22,24, 25 & 40, 160-130-03 & 07, 160-140-03,04,15 & 18, 160-170-03 & 04, 160-180-01,02 & 04, 524-040-02 & 04 524-070-01,02 & 07, 524-080-02 & 08 524-150-01,02,03 & 05, 524-020-05,06,07 & 11, 524-030-01,02,,04,05,0610 & 11)

The parcels of land described in EXHIBIT A attached hereto and made apart hereof.

Said facilities shall consist of:

Such poles, aerial wires, cables, electrical conductors with associated crossarms, braces, transformers, anchors, guy wires and cables; and such underground conduits, pipes, manholes, service boxes, wires, cables, and electrical conductors; aboveground marker posts, risers, and service pedestals; underground and aboveground switches, fuses, terminals, and transformers with associated concrete pads; and fixtures and appurtenances necessary to any and all thereof, as second party deems necessary; all to be located within the strips of land of the uniform width of 20 feet lying 10 feet on each side of the alignment of the facilities as initially installed hereunder and mutually agreed upon. The approximate location of said facilities are shown upon the map marked as Exhibit C attached hereto and made apart hereof.

First party confirms in second party all necessary rights for second party's existing poles, wires, and other appurtenances on said lands.

Second party shall also have the right to trim and clear away or otherwise control any trees or brush along said pole line facilities, as hereinbefore set forth, whenever considered necessary for the complete enjoyment of the rights hereby granted.

First party further grants to second party the right to install, replace, maintain, and use anchors with appurtenant guy wires, which will extend outside of said strips of land at locations second party shall from time to time deem necessary.

First party acknowledges that they have read the attached Grant of Easement Disclosure Statement, which by this reference, is made a part of this Grant of Easement Deed, attached as EXHIBIT B.

First party shall not erect or construct any building or other structure or drill or operate any well within said strips, provided, however, the first party may construct and operate recharge ponds, canals, and pipelines within said strips.

First party further grants to second party the right of ingress to and egress from said strips over and across said lands by means of roads and lanes thereon, if such there be, otherwise by such route or routes as shall occasion the least practicable damage and inconvenience to first party.

The legal description herein, or the map attached hereto, defining the location of this utility distribution easement, was prepared by Pacific Gas and Electric Company pursuant to Section 8730 (c) of the Business and Professions Code.

The provisions hereof shall inure to the benefit of and bind the successors and assigns of the respective parties hereto.

GRANT OF EASEMENT DISCLOSURE STATEMENT

This Disclosure Statement will assist you in understanding your rights as a property owner when granting an easement to PG&E to accommodate your neighbor's new utility service extension. **Please read this disclosure carefully before signing the Grant of Easement.**

- You are under no obligation or threat of condemnation by PG&E to grant this easement.
- The granting of this easement is an accommodation to PG&E's applicant requesting the extension of PG&E utility facilities to the applicant's property or project, pursuant to the Line Extension Rules 15 and 16, as authorized by the California Public Utilities Commission. As this is an accommodation to a single customer or group of customers and not PG&E, the California Public Utilities Commission has not authorized PG&E to purchase such easements.
- By granting this easement to PG&E, the facilities installed within the easement across your property may be used to serve additional customers in the area.
- Removal and/or pruning of trees or other vegetation on your property may be necessary for the installation of PG&E facilities. You have the option of having PG&E or its contractors perform this work on your property, or having the applicant or the applicant's contractor perform this work.
- The description of the location in which the PG&E utility facilities are to be installed upon, in, on, or across your property must be satisfactory to you.
- The California Public Utilities Commission has authorized that the installation of certain utility facilities for utility service may be performed by the applicant. In addition to granting this easement to PG&E, you will need to give your consent to the applicant, or applicant's contractor, working on your property. Upon completion of the applicant's installation, the utility facilities will be inspected by PG&E. When the facility installation is determined to be acceptable the facilities will be conveyed to PG&E.

By signing the Grant of Easement, you are acknowledging that you have read this disclosure and understand that you are granting the easement to PG&E of your own free will. Please return the signed and notarized Grant of Easement and this Disclosure Statement to PG&E. The duplicate copy of the Grant of Easement and this Disclosure Statement is for your records.

OIL, GAS, & MINERAL LEASE
Canfield Ranch
 (Short Form)
 (No Warranty of Title)

THIS AGREEMENT, made and entered into October 10, 2006 by and between **Vintage Production California LLC**, hereinafter called "Lessor" (whether one or more) and **Compass Global Resources**, hereinafter called "Lessee,"

WITNESSETH:

Lessor hereby grants and leases to Lessee and Lessee hereby leases from Lessor the land hereinafter described, for the purposes and with the exclusive right of prospecting, exploring, mining, drilling and operating said land for oil, gas, other hydrocarbons, associated substances, sulfur, nitrogen, carbon dioxide, helium and other commercially valuable substances which may be produced through wells on said land, whether or not similar to the above-mentioned substances. The land hereby leased is situated in the County of Kern, State of California, and is more fully described in Exhibit "A" attached hereto and made a part hereof:

This lease is made for the term and upon and subject to each and all the terms, provisions, covenants and conditions set forth in the certain Oil, Gas and Mineral Lease (Long Form) hereinafter ("Lease") of even date herewith between the parties hereto covering the land hereinabove described, and said Oil, Gas and Mineral Lease is hereby incorporated herein with the same force and effect as though herein set forth at length.

Among the other terms contained in said Lease is a requirement for Lessor's prior written consent to any assignment by Lesser, whether in whole or in part, a restriction against mortgaging or otherwise pledging this lease to secure indebtedness, the right to Lessor's share of production in kind, and a preferential right to purchase Lessee's share of production derived from or attributable to the Leased Lands.

This lease may be executed in any number of counterparts and all such counterparts shall be deemed to constitute a single lease and the execution of one counterpart by any Lessor shall have the same force and effect as if he had signed all the other counterparts.

IN WITNESS WHEREOF, said parties have caused this lease to be duly executed as of the date first hereinabove written.

Subject: Request for Authorization to Purchase Conservation Credits from the Kern Water Bank Authority for the Line 85 Milepost 75.75 and 75.94 Pipe Recoat, In-Line Inspection, and Mainline Valve Installation Project

Dear Molly Peters:

This letter is in response to your June 23, 2021, request for authorization from the U.S. Fish and Wildlife Service (Service) to purchase 1 conservation credit from the Kern Water Bank Authority (KWBA) for impacts resulting from the Line 85 Milepost 75.75 and 75.94 Pipe Recoat, In-Line Inspection, and Mainline Valve Installation Project (project) as proposed by Southern California Gas Company (SoCalGas). The credit purchase is intended to minimize the effects of incidental take on the federally listed as endangered Tipton kangaroo rat (*Dipodomys nitratooides nitratooides*). Upon purchase of the credit, Federal take exemption for the aforementioned species will be extended to the project through the Kern Water Bank Habitat Conservation Plan/Natural Community Conservation Plan (KWB HCP/NCCP) permit (Permit # PRT-835054).

As part of its ongoing pipeline inspection, maintenance, and repair activities, SoCalGas has identified a need to install a mainline valve within an existing access road as well as expose, inspect, and correct identified pipeline anomalies at two approximately 50-foot-long sections of the existing 26-inch-diameter Line 85 North natural gas transmission line. The project is located on California Department of Water Resources lands adjacent to and on both sides of the California Aqueduct, approximately 5.5 miles east of the town of Taft in Kern County, California.

The Service concludes that it is reasonably likely that this project will result in incidental take of the Tipton kangaroo rat. To minimize the amount and extent of take of this species, SoCalGas will incorporate all avoidance and minimization measures included in your June 23, 2021, request to the Service and the appropriate avoidance and minimization measures in the KWB

HCP/NCCP. In addition, if the Tipton kangaroo rat requires relocation due to project activities, the individuals will be moved out of the disturbance area but within the project site.

The Service authorizes SoCalGas to use credits purchased from the Kern Water Bank Authority to compensate for project-related effects to the Tipton kangaroo rat. The purchase of credits from the KWBA must be completed in full and a copy of the fully executed credit sales agreement received by the Service prior to any surface disturbance associated with the project.

If you have questions regarding this action, please contact Adam Stewart, Senior Fish and Wildlife Biologist, (adam_stewart@fws.gov), or Patricia Cole, San Joaquin Valley Supervisor, (patricia_cole@fws.gov), at the letterhead address or at (916) 414-6544.

Subject: Request for Authorization to Purchase Conservation Credits from the Kern Water Bank Authority for the Line 85 Milepost 75.75 and 75.94 Pipe Recoat, In-Line Inspection, and Mainline Valve Installation Project

Dear Ms. Peters:

This letter authorizes Southern California Gas Company (SoCalGas or Permittee) to purchase one (1) conservation credit from the Kern Water Bank Authority (KWBA) for impacts resulting from the Line 85 Milepost 75.75 and 75.94 Pipe Recoat, In-Line Inspection, and Mainline Valve Installation Project (Project) in accordance with the Incidental Take Permit (ITP) No. 2081-2020-043-04, as amended, issued by the California Department of Fish and Wildlife (CDFW) for the Project.

The proposed Project includes the inspection and repair of the coating of two approximately 50-foot long segments of the 26-inch natural gas pipeline (Line) 85 located at Mile Post (MP) 75.75 and MP 75.94 where anomalies have been identified and the installation of an underground mainline valve and inline inspection activities. The Project is located in the southern San Joaquin Valley approximately 5.5 miles east of the town of Taft in Kern County, California. The Project is specifically located on California Department of Water Resources-owned land adjacent to and on both sides of the California Aqueduct near Lake Station Road within the USGS 7.5-Minute Quadrangle Map Buena Vista Lake Bed in Township 32 South, Range 24 East, Section 12, MDBM; Latitude 35.158737, Longitude -119.350087 and Latitude 35.157882, Longitude -119.345651, and Latitude 35.164858, Longitude -119.349671.

The Project is expected to cause the temporary loss of 0.3 acres of habitat for the State and federally endangered Tipton kangaroo rat (*Dipodomys nitratoide nitratoide*; TKR) and the State threatened San Joaquin antelope squirrel (*Ammospermophilus nelsoni*; SJAS) – the Covered Species of the ITP. Pursuant to Condition of Approval 7.1 of the ITP, SoCalGas will be compensating for impacts to the Covered Species by assigning 0.6 acre of existing Covered Species credits from its balance of conservation credits from the Coles Levee Ecosystem Preserve (CLEP).

SoCalGas seeks to purchase one (1) credit from the CDFW-approved KWBA to satisfy its federal Endangered Species Act (ESA) requirements. This letter approves SoCalGas to purchase credits at KWBA for their federal ESA requirements with the understanding that Permittee will need to satisfy its Covered Species credit purchase requirement for the ITP by completing the assignment of 0.6 acre of existing Covered Species credits from its balance of conservation credits from CLEP.

The purchase of the credit from the KWBA must be completed in full and a copy of the fully executed credit sales agreement received by the California Department of Fish and Wildlife prior to any surface disturbance associated with the Project. Please note that this letter does not grant Incidental Take Authority under the California Endangered Species Act for this Project individually or under the State Incidental Take Permit held by the KWBA.

If you have any questions regarding this letter, please contact Craig Bailey, Senior Environmental Scientist (Supervisor), at the letterhead address or at (559) 243-4014, extension 227.

Re: KWBA - Payment for Line 85 Milepost 75.75 and 75.94 Pipe Recoat, In-Line Inspection, and Mainline Valve Installation Project; USFWS File No 08ESMF00-2021-TA-2506

Dear Ms. Cole and Ms. Vance:

This letter confirms that SoCalGas has purchased one (1) Kern Water Bank conservation credit to mitigate temporary and/or permanent disturbance related to the above-captioned project. This credit sale was authorized by the wildlife agencies in correspondence from the United States Fish and Wildlife Service (USFWS) dated August 2021 and from the California Department of Fish and Wildlife (CDFW) dated August 16, 2021 (both attached). KWBA will issue the conservation credit certificate for this transaction to SoCalGas, CDFW, and USFWS, forward payment of the Endowment Fund to CDFW, and record the conservation easement per the Conservation Bank Agreement recorded in the Kern Water Bank Authority Habitat Conservation Plan and Natural Community Conservation Plan executed October 2, 1997.

If you need further information, please do not hesitate to contact me at (661) 398-4900 or jparker@kwb.org.

Sincerely,

GRANT OF KERN WATER BANK CONSERVATION EASEMENT

(xx Acre Parcel)

THIS PERMANENT CONSERVATION EASEMENT (the "Grant") is made this 1st day of May, 20__ by and between the Kern Water Bank Authority, a joint powers authority ("Grantor"), and the State of California, acting by and through its Department of Fish and Wildlife, a subdivision of the California Resources Agency ("Grantee"), with reference to the following facts:

RECITALS:

A. Grantor is the sole owner in fee simple of certain real property in the County of Kern, State of California, more particularly described in Exhibit A attached hereto and incorporated by this reference (the "Conservation Easement Property"). The Conservation Easement Property totals approximately 32 Acres.

B. The Conservation Easement Property possesses open space and other habitat values which are important to the conservation of the certain sensitive species and also possesses attributes (collectively, "conservation values") of great importance to Grantee and the people of the State of California. Such conservation values provide habitat for threatened and endangered, and other sensitive species.

C. Grantor is a joint powers authority formed by certain public agencies and other entities in the County of Kern pursuant to California Government Code section 6500 et seq. for the purpose of operating a water bank project.

D. Under the California Endangered Species Act ("CESA") and other State law, Grantee has jurisdiction over the conservation, protection, restoration, enhancement and management of fish, wildlife, native plants, and habitat necessary for biologically sustainable populations of those species. Grantee is also the manager and trustee of fish and wildlife resources and their habitat pursuant to California Fish and Wildlife Code section 1802.

E. Grantor intends to convey to Grantee the right to preserve, enhance and protect the conservation values of the Conservation Easement Property in perpetuity subject to the terms of this Grant.

F. Grantor has prepared and Grantee, along with the United States Fish and Wildlife Service (the "FWS"), has approved a long-term habitat conservation plan ("Habitat Conservation Plan") dated October 2, 1997 with regard to the Conservation Easement Property and other property. The Habitat Conservation Plan identifies uses of the Conservation Easement Property that are consistent with preserving the conservation values of the Conservation Easement Property. While the Habitat Conservation Plan is in effect (for an initial period of 75 years), Grantor shall have the right to use the Conservation Easement Property for the uses set forth in the Habitat Conservation Plan and accompanying Implementation Agreement.

G. Pursuant to the Implementation Agreement, Grantor is required to develop and have approved by Grantee and FWS a Permanent Management Plan for the Conservation Easement Property prior to the expiration of the Habitat Conservation Plan. After the Habitat Conservation Plan, related Implementation Agreement, and associated permits and authorizations have expired, the Conservation Easement Property shall be managed in accordance with this Grant and the Permanent Management Plan in perpetuity.

H. The Conservation Easement Property is adjacent to certain real property owned by Grantor on which Grantor has previously conveyed a conservation easement to Grantee.

NOW, THEREFORE, in consideration of the above and mutual covenants, terms, conditions and restrictions contained herein, Grantor and Grantee agree as follows, and Grantor hereby grants and conveys to Grantee an easement in perpetuity over the Conservation Easement Property of the nature and character and to the extent hereinafter set forth (the "Easement").

1. Purpose.

It is the purpose of the Easement to assure that the Conservation Easement Property will be retained forever in an open space condition (subject to those uses permitted in Sections 2 and 4 of this Grant) and for the conservation of threatened, endangered and other sensitive species and related purposes and to prevent any use of the Conservation Easement Property that will impair or interfere with the conservation values of the Conservation Easement Property other than as set forth herein. Grantor intends and agrees that the Easement shall limit the use of

the Conservation Easement Property, subject to the uses permitted in this Grant, to such activities, including without limitation those involving the management of the Conservation Easement Property, that protect or enhance the conservation values of the Conservation Easement Property. While the Habitat Conservation Plan is in force, the Conservation Easement Property may be subject to the additional uses and limitations imposed by the Habitat Conservation Plan. Since the Easement is in perpetuity, nothing in the Habitat Conservation Plan shall be construed to impose a limit on the duration of the Easement. When the Permanent Mitigation Plan is put in place, the Conservation Easement Property may be subject to additional uses and/or limitations imposed by the Permanent Mitigation Plan.

2. Rights of Grantee and Character of Easement.

(a) Rights Conveyed. To accomplish the purpose of the Easement, the following rights and obligations are hereby conveyed to and accepted by Grantee by the grant contained herein:

- (I) To preserve, enhance and protect the conservation values of the Conservation Easement Property; and
- (ii) To enter upon the Conservation Easement Property to carry out the purposes of the Easement.

(b) Use of Surface and Subsurface. The use of the surface of the Conservation Easement Property for conservation values is the exclusive use for the Conservation Easement Property subject to those other purposes set forth in Section 4 below. With respect to the subsurface of the property comprising the Conservation Easement Property, Grantor retains the right to reasonable access to and use thereof for the use and maintenance of Grantor's existing wells and waterlines and canals, so long as Grantor's exercise of such retained rights does not materially disturb, disrupt or interfere with the Easement; provided, however, that any such access and use shall be consistent with the purposes set forth herein. Grantee recognizes that this Grant is not binding upon the third-party owners of the mineral rights underlying the Conservation Easement Property.

(c) Prohibited Uses. The following uses by Grantor, its agents, and all third parties, are expressly prohibited, unless specifically authorized in the Habitat Conservation Plan while it is in effect, the Permanent Mitigation Plan while it is in effect or necessarily incident to the exercise by Grantor of its reserved rights under Section 4 below:

- (I) Unseasonable watering, use of herbicides and/or rodenticides, weed abatement activities, incompatible fire protection activities and any and all other uses which may adversely affect the purposes of the Easement;
- (ii) Use of off-road vehicles;
- (iii) Erecting of any building, billboard or sign;
- (iv) Depositing of soil, trash, ashes, garbage, waste, bio-solids or any other material;
- (v) Excavating, dredging or removing of soil, loam, gravel, rock, sand or other material;
- (vi) Altering the general topography of the Conservation Easement Property, including construction of roads; and
- (vii) Removing, destroying, or cutting of trees, shrubs or other vegetation, except as required by law for (1) fire breaks, (2) maintenance of existing foot trails or roads, or (3) prevention or treatment of disease.

(d) Use By General Public. No use of the Conservation Easement Property by the general public is authorized hereunder without the express prior written consent of Grantor, Grantee and FWS, or their respective successors in interest in the Conservation Easement Property, and Grantor, Grantee and FWS shall not encourage or permit the general public to use or enter upon the Conservation Easement Property. For purposes of this subparagraph, the term "general public" shall not include persons accompanied by Grantor, Grantee or FWS or their employees, agents, representatives, contractors or subcontractors and entering onto the Conservation Easement Property for purposes related to the conservation values of the Conservation Easement Property and the purposes set forth in Section 4. Notwithstanding the foregoing, Grantor and Grantee acknowledge that representatives of the Grantee and FWS shall have a right of access onto the Conservation Easement Property for purposes associated with the conservation values hereof upon 24 hours' notice to Grantor. In addition, so long as Grantee is a subdivision of the State of California, it shall have the right to administer a managed hunting program ("Hunting Program") on the Conservation Easement Property, provided that Grantee submits to Grantor and FWS for approval by Grantor and FWS, a description of such Hunting Program and specifying measures to insure that such Hunting Program will not interfere with, or damage, the Reserved Rights and Uses described in Section 4 or create a hazard to Grantor's officers, employees or agents. Without limiting in any way California Civil Code section 846, in the event that Grantor approves the Hunting Program, such approval, or any actions of Grantor pursuant to such approval, does not thereby (a) extend any assurance by Grantor that the Conservation Easement Property is safe for hunting purposes, or (b) impute or otherwise

establish any person to whom access is provided pursuant to the Hunting Program to be an invitee or licensee to whom a duty of due care is owed by Grantor, or (c) assume responsibility by Grantor for, or incur liability by Grantor for, any injury to person or property caused by any act of such person to whom permission has been granted pursuant to the Hunting Program. The approval of the Hunting Program by Grantor does not create a duty of care for Grantor or a ground for liability against Grantor for injury to person or property.

(e) Reservation of Rights. Grantee's rights under this Easement are expressly made subject to Grantor's reserved rights under Section 4 and all other easements, covenants, conditions, restrictions, reservations, rights and rights-of-way of record, apparent or of which Grantee has actual notice as of the date of recordation of this Grant.

(f) Assignment by Grantee. Grantee may assign its rights and obligations under this Grant only to an organization that is (1) approved by the Grantor and FWS which approval shall not be unreasonably withheld, and (2) a public agency or a qualified organization at the time of transfer under section 170(h) of the Internal Revenue Code of 1986, as amended (26 U.S.C. § 170(h), or any successor provision applicable), and the applicable regulations thereunder, and (3) authorized to acquire and hold a conservation easement under California Civil Code Section 815 et seq. (or any successor provision then applicable).

(g) No Abandonment. Grantee shall not abandon its rights and obligations under this Grant. In the event Grantee is unwilling or unable to carry out Grantee's obligations under this Grant, then Grantee shall transfer the Easement to a public entity or qualified organization willing to assume Grantee's rights and obligations, in accordance with Section 2(f)(1), (2) and (3). Any transfer of the Easement shall be approved by FWS and Grantor.

3. No Encumbrances.

Neither Grantor nor Grantee shall suffer or permit to be enforced against the Conservation Easement Property, or any portions thereof, any mechanics', material men's, contractors' or subcontractors' liens or any claim for damage arising from any services, supplies, labor or materials furnished or alleged to have been furnished to or for Grantor or Grantee at or for use on the Conservation Easement Property, and each party shall promptly pay or cause to be paid all of said liens, claims or demands caused by such party before any action is brought to enforce the same. If any such lien shall at any time be recorded against the Conservation Easement Property as a result of the foregoing, and the party causing the same shall fail, within 60 days after such recording, to either (i) pay and discharge the underlying claim and cause a lien release to be recorded or (ii) furnish to the other party a surety bond or other security reasonably satisfactory to the other party protecting the other party against liability for such lien and holding the

Conservation Easement Property free from the effect of such lien, then the other party may, but shall not be obligated to, take such action or pay such amounts as may be necessary to remove such lien, and the failing party shall immediately pay to the other party the amount so expended, together with interest thereon at the rate of 10% per annum accruing from the date of such payment until paid in full. Notwithstanding the foregoing, for so long as Grantee is the State of California, nothing herein shall be deemed to affect Grantor's obligation or duty to pay any claims for money or damages that are governed by the Tort Claims Act, Government Code section 810 et seq.

4. Reserved Rights and Uses and Responsibilities of Grantor.

(a) Utilities and Uses. The Easement is subject to the easements, covenants, conditions, restrictions, reservations, rights and rights-of-way of record, apparent or of which Grantee has actual notice, and Grantor's use and maintenance of existing wells, appurtenant structures, waterlines, canals and roadways as of the date this Grant is recorded in the Official Records of the County of Kern, and such additional easements, wells, appurtenant structures, waterlines, canals and roadways as Grantor shall designate at any time after the date of recordation of this Grant, subject to the prior written approval of Grantee and FWS, which approval shall not be unreasonably withheld, and compliance with all applicable laws and regulations.

(b) Water Storage and Extraction. Grantor shall have the right to install, construct, repair, maintain, and operate water recovery and water conveyance facilities, including, but not limited to, water wells, pipelines, recovery canals, pumps, and appurtenant facilities such as pump sheds, fences and access roads, as permitted under the Habitat Conservation Plan. Grantor shall have the right to store water in the subsurface of the Conservation Easement Property. Grantor shall have the right to drill additional extraction wells in the Conservation Easement Property, and build the improvements and infrastructure necessary to support the additional extraction wells, such as pump sheds, fences, access roads, pipelines and canals, as permitted under the Habitat Conservation Plan.

(c) Grazing. Grantor shall have the right to use the Conservation Easement Property for grazing purposes, or to permit grazing, if permitted by, and in accordance with, the Habitat Conservation Plan while it is in effect and in accordance with the Permanent Management Plan while it is in effect.

(d) Prevention of Trespass; Fencing. Grantor shall undertake all reasonable actions to prevent the unlawful entry or trespass by persons whose activities may degrade or harm the conservation values of the Conservation Easement Property. Fencing shall be installed and

maintained only in accordance with the Habitat Conservation Plan while it is in effect and in accordance with the Permanent Management Plan while it is in effect.

(e) Costs of Management. Grantor retains all responsibilities and shall bear all costs of any kind relating to the ownership, operation, upkeep, and maintenance of the Conservation Easement Property. The obligation to provide adequate funding to maintain the conservation values of the Conservation Easement Property shall be perpetual. Pursuant to the KWB HCP and related Implementation Agreement, Grantee has established a non-wasting Endowment Account to assure funding. The Implementation Agreement requires Grantor to commence preparing five years prior to the termination of the associated permits and authorizations, and have approved by Grantee and FWS, a Permanent Management Plan for the Conservation Easement Property and certain other property. After the Habitat Conservation Plan, Implementation Agreement and associated permits and authorizations have expired, the Conservation Easement Property will be managed in accordance with the terms of this Grant and the Permanent Management Plan.

5. Sale of Fee Interest.

Grantor may transfer the fee title interest or grant a security interest in the Conservation Easement Property provided it gives Grantee and FWS not less than 30 days prior written notice of its intent to transfer such fee title interest. Notice shall be given in the manner required in this Grant. Grantor agrees to incorporate the terms of this Grant in any deed or other legal instrument by which Grantor divests itself of any interest in all or a portion of the Conservation Easement Property. The failure of Grantor to perform any act required by this section shall not impair the viability of this Grant or limit its enforceability in any way. Grantor may lease the Conservation Easement Property, or any portion thereof, for grazing purposes and may convey other interests in such lands only as expressly permitted by the Habitat Conservation Plan and related Implementation Agreement by and among FWS, Grantee and Grantor and related Conservation Bank Agreement by and among FWS, Grantee and Grantor.

6. Insurance.

(a) Requisite Coverages. For so long as Grantor is KWBA, Grantee shall, at all times during Grantor's ownership of the Conservation Easement Property, at its sole cost and expense, obtain and thereafter maintain comprehensive general liability and automobile insurance (including non-owned auto), which shall provide a 30-day notice to Grantor in the event of cancellation or any material change in coverage. The foregoing insurance policies shall reflect that the policy is primary insurance as respects any claim, loss or liability arising directly or indirectly from any of Grantee's activities on the Conservation Easement Property, and any other insurance maintained by Grantor shall be considered noncontributing. This liability insurance

must be in a form satisfactory to Grantor and written with limits of liability not less than \$1,000,000 combined single limit bodily injury and property damage liability per occurrence covering the activities and obligations contemplated of Grantee under this Grant. Grantee shall furnish a Certificate of Insurance (or, if requested by Grantor, copy of the policy) evidencing the foregoing coverage to Grantor for approval. Grantee shall also maintain workers' compensation insurance in an amount required by law, together with employers' liability insurance. Grantee shall provide Grantor with evidence of the worker's compensation and employer's liability insurance coverage, with a waiver of subrogation agreement by the insurance carrier as respects Grantor. Nothing in this paragraph shall limit Grantee's obligations under the other provisions of this Grant. Any policies required hereunder may be made a part of a blanket policy of insurance, so long as such blanket policy contains all of the provisions required herein and does not in any way reduce the coverage, impair the rights of Grantor hereunder or negate the requirements of this Grant.

(b) Self-Insurance. So long as Grantee is a subdivision of the State of California and the State of California self-insures, Grantee's liability shall be governed by the laws of the State of California relating to the payment of claims against the State and Grantee shall not be required to obtain insurance or furnish evidence of insurance. If at any time Grantee is not a subdivision of the State of California, Grantee shall not self-insure any portion of the insurance required under this section without the express written consent of Grantor, which consent may be withheld by Grantor in its sole and absolute discretion.

(c) Release/Waiver of Subrogation. Grantee, for itself and its successors, hereby releases and discharges Grantor from all claims and liabilities arising from or caused by any hazard covered by the insurance coverage required herein in connection with the activities conducted by Grantee on the Conservation Easement Property pursuant to this Grant, regardless of the cause of the damage or loss.

(d) Obligations. Nothing herein shall limit Grantee's obligations under the other provisions of this Grant. The insurance required to be maintained hereunder shall insure against any acts or omissions of Grantee, provided nothing herein shall be interpreted to waive any rights Grantor may have as to any of Grantee's insurance nor shall Grantor be required to make a claim against any such Grantor's insurance.

(e) Grantor's Obligations. To the extent Grantor enters the Conservation Easement Property under the Easement, then Grantor shall comply with the insurance provisions of this section 6 applicable to Grantee prior to its entry onto the Conservation Easement Property.

7. Taxes.

Grantor shall pay before delinquency all taxes, assessments, fees, and charges of whatever

description levied on or assessed against the Conservation Easement Property by competent authority (collectively "taxes"), except that Grantor shall have no obligation to pay any taxes or assessments which may be levied against the Easement itself, as opposed to the underlying fee and Grantor shall furnish Grantee with satisfactory evidence of payment of taxes and assessments upon request. Grantee shall be responsible regarding the imposition of any taxes or assessments levied against the Easement itself, it being understood that while the Easement is held by a governmental entity for public benefit purposes, such Easement should be exempt from all such taxes and assessments.

8. Notices.

Any notice, demand, request, covenant, approval, or other communication to be given by a party to the other(s) shall be given by personal service, telegram, or express mail, Federal Express, DHL or any other similar form of airborne/overnight delivery service, or mailing in the United States mail, postage prepaid, certified and return receipt requested, addressed to the parties at their respective addresses as follows:

To Grantor:	Kern Water Bank Authority 1620 Mill Rock Way, Suite 500 Bakersfield, CA 933
With a copy to:	Robert D. Thornton, Esq. Nossaman LLP 18101 Von Karman, Suite 1800 Irvine, California 92612
To Grantee:	California Department of Fish and Wildlife Regional Manager, Region 4 1234 East Shaw Avenue Fresno, California 93710 Attention: Director
With a copy to:	General Counsel California Department of Fish and Wildlife 1416 Ninth Street Sacramento, California 94814
To FWS:	U.S. Fish and Wildlife Service 2800 Cottage Way, Room W2605 Sacramento, CA 95825

With a copy to: Regional Solicitor
2800 Cottage Way
Sacramento, CA 95825

Any such notice shall be deemed to have been given upon delivery or forty-eight (48) hours after deposit in the mail as aforesaid. Either party may change the address at which it desires to receive notice upon giving written notice of such request to the other parties.

9. Recordation.

Grantee shall promptly record this instrument in the official records of Kern County, California.

10. Miscellaneous Provisions.

(a) Controlling Law. This Grant shall be governed by and interpreted in accordance with the laws of the State of California and applicable Federal laws.

(b) Liberal Construction. Any general rule of construction to the contrary notwithstanding, this Grant shall be liberally construed in favor of the grant to effect the purpose of this Grant and the policy and purpose of Civil Code Section 815 et seq. If any provision in this instrument is found to be ambiguous, an interpretation consistent with the purposes of this Grant that would render the provision valid shall be favored over any interpretation that would render it invalid.

(c) Severability. If any provision of this Grant, or the application thereof to any person or circumstances, is found to be invalid, the remainder of the provisions of this Grant, or the application of such provision to persons or circumstances other than those as to which it is found to be invalid, as the case may be, shall not be affected thereby.

(d) No Rights in Public. Nothing herein contained shall be deemed to be a gift or dedication of any portion of the Conservation Easement Property to or for the general public, it being the intention of the parties hereto that this Grant shall be strictly limited to and for the purposes herein expressed.

(e) Waiver; Remedies. No delay on the part of any party hereto in exercising any right, power or privilege hereunder shall operate as a waiver thereof, nor shall any waiver on the part of any party hereto of any right, power or privilege hereunder operate as a waiver of any other right, power or privilege hereunder, nor shall any single or partial exercise of any right, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege hereunder.

(f) Successors. The covenants, terms, conditions and restrictions of this Grant shall be binding upon and inure to the benefit of the parties hereto and each of their respective successors and assigns, and shall continue as a servitude running in perpetuity with the Conservation Easement Property. This Grant shall be binding upon and shall inure to the benefit of Grantor and its successors and assigns and Grantee and its assigns.

(g) Captions. The captions in this Grant have been inserted solely for convenience of reference and are not a part of this Grant and shall have no effect upon construction or interpretation.

(h) Counterparts. The parties may execute this Grant in two or more counterparts, which shall, in the aggregate, be signed by both parties; each counterpart shall be deemed an original.

(I) No Other Obligations. This Grant imposes no other obligations or restrictions on Grantor and neither its successors nor any person or entity claiming under them shall be in any way restricted from using the Conservation Easement Property in a customary manner except as provided herein.

(j) Entire Agreement. This instrument sets forth the entire agreement of the parties with respect to the grant of easement and supersedes all prior discussions, negotiations, understandings or agreements relating to the grant.

. Remedies.

If Grantee or FWS determines that Grantor is in violation of the terms of this Grant or that a violation is threatened, Grantee or FWS shall give written notice to Grantor of such violation and demand corrective action sufficient to cure the violation and, where the violation involves injury to the easement resulting from any use or activity inconsistent with the purpose of this Grant, to restore the portion of the Easement so injured. If Grantor fails to cure the violation within 15 days, or fails to continue diligently to cure such violation until finally cured, Grantee and/or FWS may bring an action at law or in equity in a court of competent jurisdiction to enforce the terms of this Grant, to enjoin the violation ex parte as necessary, by temporary or permanent injunction to recover any damages to which Grantee and/or FWS may be entitled for violation of the terms of this Grant, or injury to any conservation values protected by this Grant, including adverse impacts to any threatened or endangered species, or sensitive species, and to require the restoration of the Easement to the condition that existed prior to any such injury. If Grantee and/or FWS determines that circumstances require immediate action to prevent or to mitigate significant damage to the conservation values of the Easement, Grantee and/or FWS may pursue its remedies under this paragraph without prior notice to Grantor or without waiting for the period

provided for cure to expire. The rights of Grantee and FWS under this paragraph apply equally in the event of either actual or threatened violations of the terms of this Grant, and Grantor agrees that Grantee's and FWS's remedies at law for any violation of the terms of this Grant are inadequate and that Grantee and/or FWS shall be entitled to the injunctive relief described in this section, both prohibitive and mandatory, in addition to such other relief to which Grantee and/or FWS may be entitled, including specific performance of the terms of this Grant, without the necessity of proving either actual damages or the inadequacy of otherwise available legal remedies. Grantee's and FWS's remedies described in this paragraph shall be cumulative and shall be in addition to all remedies now or hereafter existing at law or in equity. Furthermore, the provisions of Civil Code Section 815 et seq. are incorporated herein by this reference and this Grant is made subject to all of the rights and remedies set forth therein. If at any time in the future, Grantor or its successors and assigns or any subsequent transferee uses or threatens to use such lands for purposes not in conformance with the stated conservation purposes contained herein, notwithstanding Civil Code Section 815 et seq., California Attorney General and FWS each have standing as an interested party in any proceeding affecting this Grant. If Grantor or if Grantee and/or FWS fails to exercise any right or fails to enforce any obligation of this Grant, such failure shall not be deemed to waive any other right which Grantor or Grantee and/or FWS may hold, including subsequent exercise of the same right to subsequent enforcement of the same obligation. Nothing contained in this Grant shall be construed to entitle Grantee and/or FWS to bring any action against Grantor for any injury to or change in the easement resulting from causes beyond Grantor's control, including, without limitation, fire, flood, storm, earth movement or from any prudent action taken by Grantor under emergency conditions to prevent, abate or mitigate significant injury to the Easement resulting from such causes.

IN WITNESS WHEREOF, Grantor and Grantee have entered into this Grant as of the day and year first above written.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Kern Water Bank Authority
Bakersfield, California

Opinions

We have audited the accompanying Statements of Net Position of the Kern Water Bank Authority (the Authority) as of December 31, 2021 and 2020; the related Statements of Revenues, Expenses and Changes in Net Position and Statements of Cash Flows for the fiscal years then ended; and the related notes to the basic financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective net position of the Authority as of December 31, 2021 and 2020, and the respective changes in net position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Basic Financial Statements section of our report. We are required to be independent of the Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Basic Financial Statements

Management is responsible for the preparation and fair presentation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the basic financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Basic Financial Statements

Our objectives are to obtain reasonable assurance about whether the basic financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as

fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the basic financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the basic financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the basic financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as noted in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The supplementary information, as noted in the table of contents, is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as noted in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Kern Water Bank Authority

Management's Discussion and Analysis

As management of the Kern Water Bank Authority (the Authority), we offer readers of the Authority's financial statements this narrative overview and analysis of the Authority's financial performance during the fiscal years ended December 31, 2021 and 2020. Please read it in conjunction with the Authority's financial statements, which follow this section.

The Authority is a Joint Powers Authority, established October 16, 1995, under the Joint Exercise of Powers Act. The Authority operates the Kern Water Bank (KWB), which is an area of land (approximately 20,600 acres) located in the southwest portion of the San Joaquin Valley uniquely suited for water recharge, water recovery and habitat preservation.

The Authority is a public agency, whose participants are the Kern County Water Agency, water storage districts, water districts and a mutual water company. The Authority oversees the day-to-day operations of the KWB on behalf of the Participants.

The Authority recharges, recovers and stores water on behalf of the Participants. The Authority's governing body is a seven-member Board of Directors (Board), comprised of Participant representatives, which includes a Chairman and a Vice-Chairman.

Participants receive water from a number of sources including the State Water Project (SWP), the Central Valley Project, and the Kern River. Participants recognized the benefit of developing the KWB lands and constructed recharge basins, recovery wells, canals and other banking facilities on a portion of the KWB lands while preserving the land for habitat conservation. Participants, under the Authority, utilize these banking facilities to create a more reliable water supply.

Hydrological patterns tend to be cyclical, often creating multiple years of abundant water supply followed by multiple years of water supply shortage. Participants have, or acquire, water surplus to their annual needs in wet years and place it in storage in the KWB for future recovery. This provides Participants with a unique water supply regulation tool.

The winter of 2019 was wet and the Authority was able to recharge approximately 337,000 acre-feet of water. Dry conditions returned in 2020 and the Authority recharged 5,000 acre-feet early in the year and recovered about 100,000 acre-feet of water during the year. Dry conditions extended into 2021 and the Authority recovered approximately 200,000 acre-feet of water. The drought appears to be continuing in 2022, and the Authority expects to recover water throughout the year.

Management's Discussion and Analysis

Financial Highlights

The Authority's revenue and expenses increased in 2021 as a reflection of nearly doubling water recovery compared to 2020 activity and changes were implemented to simplify year over year cash management. Changes included conducting a year end assessment for both remaining 2021 expenses and initial funding for the following year's general and administrative (G&A), debt service, ongoing capital construction, and extending the distribution of Capital Fee and Net Recharge & Recovery Reconciliation until 2023.

The Authority's long term debt increased by \$5.9 million from \$19.4 million to \$25.3 million. This included the \$0.5 million first annual payment of long term debt and reclassifying \$6.4 million in Participant reconciliation reimbursements from a current to a long term liability.

The Authority's total revenues increased from \$12.2 million in 2020 to \$33.9 million in 2021. This included initial and mid-year assessments for G&A, debt service, and capital, and an additional year-end assessment for G&A and capital improvement. Full year water recovery operations generated \$25.4 million in fees to support activity. Total expenses increased due to the increased full year of recovery operations.

Overview of the Financial Statements

This annual financial report includes this management's discussion and analysis, the independent auditor's report, the basic financial statements of the Authority and selected supplementary information. The financial statements also include notes that explain in more detail some of the information in the financial statements.

Required Financial Statements

The financial statements of the Authority report information of the Authority using accounting methods similar to those used by private sector companies. These statements offer short and long-term financial information about its activities. The Statement of Net Position includes all of the Authority's assets, deferred outflows of resources, liabilities and deferred inflows of resources and provides information about the nature and amounts of investments in resources (assets) and the obligations to Authority creditors (liabilities). It also provides the basis for evaluating the capital structure of the Authority and assessing the liquidity and financial flexibility of the Authority.

All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement can be used to determine whether the Authority has successfully recovered all of its costs through its user fees and other charges, its profitability, and its credit worthiness. It also reconciles the beginning net position balance to the ending net position balance.

The final required financial statement is the Statement of Cash Flows. This statement reports cash receipts, cash payments, and net changes in cash resulting from operations, financing, and investing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

Management's Discussion and Analysis

Financial Analysis of the Authority

One of the most important questions asked about the Authority's finances is, "Has the Authority met all of its financial obligations in 2021?" The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position report information about the Authority's activities in a way that will help answer this question. These statements report the net position of the Authority and the changes in it. One can think of the Authority's net position - the difference between assets, deferred inflows of resources, deferred outflows of resources and liabilities - as one way to measure financial health or financial position. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, and new or changed government legislation.

Net Position

To begin our analysis, a summary of the Authority's Statements of Net Position is presented in the following table.

Condensed Statements of Net Position December 31, 2021 and 2020 (000's)

	<u>2021</u>	<u>2020</u>	<u>Dollar Change</u>	<u>Percentage Change</u>
Current Assets	\$ 17,722	\$ 12,178	\$ 5,544	45.52 %
Capital Assets - Net	76,862	73,118	3,744	5.12 %
Total Assets	<u>\$ 94,584</u>	<u>\$ 85,296</u>	<u>\$ 9,288</u>	<u>10.89 %</u>
Current Liabilities	\$ 6,680	\$ 12,050	\$ (5,370)	(44.56) %
Long-Term Debt	25,275	19,362	5,913	30.54 %
Total Liabilities	<u>31,955</u>	<u>31,412</u>	<u>543</u>	<u>1.73 %</u>
Net Investment in Capital Assets	57,500	53,247	4,253	7.99 %
Unrestricted	5,129	637	4,492	705.18 %
Total Net Position	<u>62,629</u>	<u>53,884</u>	<u>8,745</u>	<u>16.23 %</u>
	<u>\$ 94,584</u>	<u>\$ 85,296</u>	<u>\$ 9,288</u>	<u>10.89 %</u>

Current assets from the year ended 2020 to 2021 increased 45.52% due to the additional assessment for G&A and capital improvement. The increase in capital assets is the offset by investments in facilities and depreciation. The net increase in total liabilities of 1.73% is due, primarily, to an increase in amounts owed for recovery operations. Current liabilities decreased 44.56% from reclassifying the Participant reimbursements to long-term liabilities. The 30.54% increase in long-term debt is reflective of the first annual principal payment on the Union Bank Term Loan offsetting the Participant reimbursement liability.

Management's Discussion and Analysis

The following chart summarizes the Comparative Statements of Revenues, Expenses and Changes in Net Position.

Condensed Statements of Revenues, Expenses and Changes in Net Position For the Years Ended December 31, 2021 and 2020 (000's)

	<u>2021</u>	<u>2020</u>	<u>Dollar Change</u>	<u>Percentage Change</u>
Operating Revenues, Net	\$ 30,412	\$ 11,798	\$ 18,614	157.77 %
Nonoperating Revenues	3,520	434	3,086	711.06 %
Total Revenues	<u>33,932</u>	<u>12,232</u>	<u>21,700</u>	<u>177.40 %</u>
Operating Expenses	24,295	13,361	10,934	81.84 %
Nonoperating Expenses	892	588	304	51.70 %
Total Expenses	<u>25,187</u>	<u>13,949</u>	<u>11,238</u>	<u>80.56 %</u>
Change in Net Position	8,745	(1,717)	10,462	
Net Position, Beginning of Year	<u>53,884</u>	<u>55,601</u>	<u>(1,717)</u>	
Net Position, End of Year	<u><u>\$ 62,629</u></u>	<u><u>\$ 53,884</u></u>	<u><u>\$ 8,745</u></u>	

Recovery operations doubled in 2021 over the prior year. Operating revenues in 2021 were \$30.4 million compared to \$11.8 million in 2020. Operating expenses in 2021, which included \$1.9 million of depreciation expense, were \$24.3 million. This is an increase of 81.84% from the 2020 operating expenses of \$13.4 million, which also included \$1.9 million of depreciation expense.

Management's Discussion and Analysis

Budgetary Highlights

The Authority adopts an annual budget to project the coming year's administrative, land management, and general maintenance operations. The budget includes the proposed expenses and the means of financing them. The Authority's budget remains in effect the entire year. Budget-to-actual comparisons were analyzed by management throughout the year; however, it is not reported on, nor shown in, the financial statements section of this report.

A December 31, 2021 budget-to-actual comparison is presented in the following table:

***General and Administrative (G&A)
Budget vs. Actual Comparison
For the Year Ended December 31, 2021
(000's)***

	<i>Actual</i>	<i>Budget</i>	<i>Variance</i>
G&A Revenues	\$ 4,797	\$ 3,040	\$ 1,757
Other G&A Revenues	25	45	(20)
Total G&A Revenues	<u>4,822</u>	<u>3,085</u>	<u>1,737</u>
 G&A Expenses	 <u>3,457</u>	 <u>3,085</u>	 <u>372</u>
 Net Income	 <u>\$ 1,365</u>	 <u>\$ -</u>	 <u>\$ 1,365</u>

The Authority collected three G&A assessments for the year ended December 31, 2021. The G&A revenues were over budget by \$1.7 million, which is due to the addition of the third G&A assessment. The G&A expenses are administrative expenses, such as payroll and benefits, equipment and supplies, general maintenance, and legal fees. The 2021 G&A actual expenses were more than expected largely due to greater than expected payroll and legal fees, offset by less than expected standby utilities expenses.

The Authority collects estimated fees from Participants for their recharge and recovery activity based on usage. These fees and expenses, in addition to offsetting debt service assessments and payments, are not included in the annual G&A budget.

Management's Discussion and Analysis

Capital Assets

As of December 31, 2021, the Authority had invested \$106.9 million in total capital assets as shown in the following table:

Capital Assets December 31, 2021 and 2020 (000's)

	<u>2021</u>	<u>2020</u>	<u>Dollar Change</u>	<u>Percentage Change</u>

Total capital assets net of depreciation increased from \$73.1 million at December 31, 2020 to \$76.9 million at December 31, 2021. This change reflects the balance of investments in facilities net of depreciation.

Debt Service Requirements

At the April 2, 2019 Board meeting, the Authority's Board approved establishing a term loan (\$25,000,000 line of credit) and a revolving loan (\$5,000,000 line of credit) with Union Bank. It closed on April 5, 2019. The December 31, 2021 outstanding balance for the term loan was \$19,254,869. The outstanding balance of the revolving loan at the end of the year was \$-0-. The term loan is to be repaid with annual principal payments that began January 31, 2021, based on a twenty-three year amortization schedule, with payments on any additional draws on the line of credit to be repaid annually based on a twenty-one year amortization schedule beginning on January 31, 2023. The loan is to be repaid in full on March 31, 2026.

Management's Discussion and Analysis

Proposition 1 Integrated Regional Water Management Implementation Grant Proposal

In 2020, the Proposition 1 Integrated Regional Water Management Implementation Grant Proposal received approval by the California Department of Water Resources (DWR). The Authority's water enhancement project cost \$12 million. DWR provided \$1.75 million of grant funds with the Authority's minimum match of \$3.4 million. As of March 2022, the Authority had received the grant funds, including the retention.

Kern Water Banking Authority
Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies

The reporting entity:

In 1995, the Monterey Agreement was signed which, among other things, modified how State Water Project water supplies are allocated and how users are charged. One of the components of the Monterey Agreement was the transfer of Kern Fan Element lands from the California Department of Water Resources (DWR) to local ownership.

Kern Water Bank Authority (the Authority) was established October 16, 1995 under the Joint Exercise of Powers Act, as amended by the First Amended and Restated Joint Powers Agreement (JPA) signed July 19, 1999. The Authority is a public agency comprised of the Kern County Water Agency, water storage districts, water districts, and a mutual water company (Participants). Water is stored in aquifers during times of surplus and recovered during times of shortage. The Authority oversees all day-to-day operations of these facilities. As organized, the Authority does not own the stored water, but rather, acts on behalf of the Participants.

Kern Water Bank Authority Participants:

The Participants and their percentage of ownership shares are:

Tejon-Castac Water District	2.00%
Semitropic Water Storage District	6.67%
Dudley Ridge Water District	9.62%
Kern County Water Agency	9.62%
Wheeler Ridge-Maricopa Water Storage District	24.03%
Westside Mutual Water Company	48.06%

Management and Board of Directors:

The Authority has a full time staff to administer the day-to-day operations. The Authority's governing body is its seven-member Board of Directors (Board), which includes a Chairman and a Vice-Chairman. The joint powers agreement directs that voting is based on each participant's ownership in the Authority.

Financial reporting:

The Authority prepares its financial statements in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments," as amended by GASB Statement No. 63, which requires the classification of net position into three components – net investment in capital assets, restricted components of net position, and unrestricted components of net position. These classifications are defined as follows:

Notes to Basic Financial Statements

Net investment in capital assets - This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at the end of the year, the portion of the debt attributable to the unspent proceeds is not included in the calculation of investment in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Restricted component of net position - This component of net position consists of amounts with constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by the law through constitutional provisions or enabling legislation.

Unrestricted component of net position - This component of net position consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.”

Fund accounting:

The Authority utilizes a proprietary enterprise fund category to account for its activities. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Other items not properly included among operating revenues are reported as nonoperating revenues. All assets and liabilities associated with an enterprise fund's activities are included on its statements of net position.

Basis of accounting:

The accompanying financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, in conformity with the Uniform System of Accounts prescribed for water districts by the Controller of the State California. Revenues are recognized when earned and expenses are recognized when a liability is incurred regardless of the timing of related cash flows.

When the Authority has both unrestricted and restricted resources available for Authority purposes, it is the Authority's practice to first expend restricted resources, subsequently utilizing unrestricted resources as needed.

Notes to Basic Financial Statements

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reporting of assets and liabilities and revenue and expenses in the financial statements and accompanying notes. Actual results could differ from those estimates.

Retirement plan:

Employees of the Authority may participate in the 457 deferred compensation plan, and employees with at least one year of service are eligible for the 401(a) employer match program. Maximum annual contributions to the 457 plan are established by the Internal Revenue Service. The employer match by the Authority is 100% of the employee's annual deferred compensation, up to 6% of the employee's annual salary. Subject to eligibility requirements, employees are vested in the 401(a) employer match contribution at 25% per year of employment, whereby they are fully vested at the end of the fourth year of employment. For the years ended 2021 and 2020, the plan expense was \$38,306 and \$29,276, respectively.

Capital assets and depreciation:

Capital assets are capitalized at cost and updated for additions and retirements during the year. The straight-line method has been used to determine depreciation based on the following estimated useful lives:

	<i>Years</i>
Wells - recovery	39
Canals and related facilities	20-50
Earthwork - recharge	20-50
Pumps - recharge	15-25
Roads and fences	10-50
Equipment	7
Office equipment and furniture	5-7
Trucks/autos	5

The Authority maintains a capitalization threshold of \$10,000. Maintenance and repairs of capital assets that do not add to the value of the asset or materially extend the asset's life are charged to operations; major improvements are capitalized. Upon retirement, sale or other disposition of capital assets, the cost and accumulated depreciation are eliminated from the accounts, and the gain or loss is included in operations.

Notes to Basic Financial Statements

Deposits and investments:

Cash and cash equivalents

For purposes of reporting cash flows, the Authority considers highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents include cash on hand and amounts deposited with a bank.

Cash deposits

The carrying amount and bank balance of the Authority's deposits at December 31, 2021 and 2020 are as follows:

	<i>2021</i>		<i>2020</i>	
	<i>Carrying Amount</i>	<i>Bank Balance</i>	<i>Carrying Amount</i>	<i>Bank Balance</i>
Insured	\$ 250,000	\$ 250,000	\$ 250,000	\$ 250,000
Uninsured	8,287,227	8,440,761	11,869,670	11,976,567
	<u>\$ 8,537,227</u>	<u>\$ 8,690,761</u>	<u>\$ 12,119,670</u>	<u>\$ 12,226,567</u>

Cash flows

GASB Statement No. 9, "Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting," states, for purposes of preparing the statement of cash flows, all transactions not classified as capital and related financing activities or investing activities are classified as operating activities. The adjustments to reconcile operating income (loss) to net cash provided by (used in) operating activities include other income (expense) which consists of nonoperating revenues and expenses.

Concentration of credit risk:

A significant majority of the credit extended is in the form of accounts receivable to the Participants.

Notes to Basic Financial Statements

Accounts receivable:

Trade accounts receivable are stated at the amount management expects to collect from balances outstanding at the end of the year. Consistent with the JPA, the Authority can suspend access to Kern Water Bank (KWB) facilities and voting rights after 90 days of nonpayment and foreclose on the Participants' shares and stored water after one year of nonpayment. There were no such delinquent accounts for the 2021 and 2020 calendar years. Accordingly, no allowance for doubtful accounts is required.

Water banking revenue and assessments:

Water banking revenue

Water banking revenue, to cover the costs of recharging and recovering water, is recognized upon invoicing the Participants. The amount charged per acre-foot recharged or recovered is set after considering actual cost incurred in the most recent year for recharge and recovery operations. Any revenue collected in excess of actual expenses is refunded to the Participants. If the amount collected is less than the recharge and recovery expenses incurred by the Authority, the Participants will be billed for their proportionate share of the shortage.

In 1999, the Authority began billing the Participants capital fees for their recharge and recovery use of the facilities. These fees are distributed to the Participants based on their ownership shares in the Authority.

General administrative and capital improvement assessment revenue

General administrative assessment revenue, for general and administrative, general maintenance, and land management expenses, is recognized upon invoicing the Participants. The amount of the assessment is determined by the Board based on the operating budget and the amount of cash that is available. Each Participant pays its proportionate share of the operating assessments based on ownership shares. For the year ended December 31, 2021, the assessments totaling \$11,400,000 included both G&A for operations and capital improvement. For the year ended December 31, 2020, the assessments of \$2,750,000 only included G&A for operations.

Note 2. Capital Assets

Capital assets consist of land and the accumulated costs to build the basins and roads used for collection and storage of the water; wells used for recovery of the water; canals, pump station, pipelines, pumps, and equipment used for transportation of the water; and office equipment and furniture.

Title transfer of assets from the DWR to the Authority was completed on August 9, 1996. Upon the exchange of water entitlements by the Participants to the DWR, reflected as contribution of capital in the amount of \$27,858,500 by the respective Participants, the Participants received Kern Fan Element lands and 42,830 acre-feet of banked water. The 42,830 acre-feet of water was subsequently transferred to each of the Participants in proportion to their ownership shares in the Authority.

Note 3. Long-Term Debt

Credit Agreement MUFG Union Bank. N.A.:

In April 2019, the Authority and Union Bank executed a tax-exempt and taxable non-revolving Line of Credit, the proceeds of which were used for the purposes of retiring existing indebtedness at Wells Fargo Bank, reimbursing the Authority for costs of retiring the DWR loan (noted below), bond redemption and payoff, and financing the expansion of the Authority.

As part of the \$25,000,000 Line of Credit (LOC), Union Bank extended a taxable term loan of \$6,398,293 and a tax-exempt term loan of \$4,322,707 (\$10,721,000 Initial Draw). In 2020, the Authority drew an additional \$5,371,200 of taxable and \$3,628,800 of tax-exempt credit (\$9,000,000 Draw #2). The term loans bear interest at variable rates determined and paid monthly to the lender. The Participants are assessed semi-annually for their proportionate share of the interest due. The term loan interest rates (Cost of Funds Rate) as of December 31, 2021 and 2020 were 3.67% (taxable) and 2.90% (tax-exempt), respectively. Interest expense for the years ended December 31, 2021 and 2020 was \$483,192 and \$362,236, respectively. The term loan is to be repaid with annual principal payments that began January 31, 2021, based on a twenty-three year amortization schedule, with payments on any additional draws to be repaid annually based on a twenty-one year amortization schedule beginning on January 31, 2023. The loan is to be repaid in full on March 31, 2026. All of the revenues of the Authority are pledged to secure the payment of principal and interest on this direct borrowing. If the Authority defaults on the term loans, Union Bank may accelerate the payment of the principal or interest. The Authority had an unused line of credit of \$5,279,000 at December 31, 2021, that was received in March 2022 (Draw #3).

The Authority also has a \$5,000,000 revolving LOC with Union Bank. As of December 31, 2021 and 2020, there was no outstanding balance.

In June 2020, the Authority entered into a 0% interest loan agreement with Pacific Gas & Electric (PG&E) for \$149,397 of financing to be used by the Authority for energy efficiency upgrades. As part of COVID-19 relief provided by PG&E, the Authority was granted a six month deferral of payment, beginning at the issuance date of the loan. The Authority began making monthly repayments of the loan balance starting March 2021 and the loan will be paid in full as of February 2024.

At December 31, 2021, the Authority was in compliance with the loan covenants.

Note 4. Self-Insurance

The Authority is a member of the Association of California Water Agencies, Joint Powers Insurance Authority (JPIA). JPIA is a group of California Water Districts who have pooled funds to provide self-insurance coverage as follows:

<i>Type of Coverage</i>	<i>Limits per Occurrence</i>	
	<i>Self-Insurance</i>	<i>Excess Insurance</i>
General, automobile and public officials liability	\$ 5,000,000	\$ 55,000,000
Buildings, fixed equipment, personal property and licensed vehicles	\$ 100,000	\$ 500,000,000
Fidelity coverage	\$ 100,000	\$ -
Workers' compensation	\$ 2,000,000	\$ 4,000,000

The Authority is in a group that has a \$2,500 retention level (deductible) per occurrence for property damage due to theft and natural causes. Property includes buildings, personal property, fixed equipment, mobile equipment, licensed vehicles, and turbine generators and transformers. For mechanical damages to turbines, generators and transformers, the deductible ranges from \$25,000 to \$50,000. For fidelity coverage, the deductible is \$1,000. Claims over the retention levels are insured by the group up to the self-insurance limits (see above) and by policies purchased by JPIA from various 3rd party insurance providers.

JPIA bills the Authority a deposit premium at the beginning of each policy year, which is placed in a reserve fund to cover the self-insurance portion of any claim. Settlements and/or expenses related to claims during the year are charged against the reserve. If the balance of the reserve at the end of the year is deemed too low in relation to the amount of outstanding claims, the Authority is retrospectively billed for additional premiums. When the claims are fully settled, any amounts remaining in the reserve are refunded to the Authority.

Note 5. Commitments

Leases:

The Authority leases office space under an agreement that expires in October 2023. Total rent expense for the years ended December 31, 2021 and 2020 was \$63,531 and \$69,590, respectively.

Future minimum lease payments are as follows:

Years Ending December 31,

2022	\$ 68,017
2023	58,037
	<u>\$ 126,054</u>

Note 6. Contingent Liabilities

Covered Species Viability Fund:

On October 2, 1997, the Authority received a 75-year Federal Fish and Wildlife Permit, the purpose of which is to authorize incidental “take” of endangered species subject to the terms and conditions of the Kern Water Bank Authority Habitat Conservation Plan/Natural Community Conservation Plan (KWBA HCP/NCCP) and the California Endangered Species Act Management Authorization, also executed on October 2, 1997. In accordance with the Implementation Agreement (IA) of the KWBA HCP/NCCP, in 1997 the Authority established the KWBA Covered Species Viability Fund (Viability Fund) with the Treasurer of Kern County for \$50,000. In 2019, the Authority was given permission to transfer the cash to the Union Bank cash account as provided in Minor Amendment 3 to the Kern Water Bank Authority Habitat Conservation Plan – Natural Community Conservation Plan. The Wildlife Agencies may require payments from the Authority up to \$10,000 per year, not to exceed a cumulative contribution of \$75,000, to fund preservation of covered species not undertaken by the Authority.

Financial guarantees:

The KWBA HCP/NCCP is designed to achieve both water conservation and environmental objectives, including protection of the sensitive habitat. In addition to the agreement with the United States Fish and Wildlife Service and the California Department of Fish and Game (Wildlife Agencies), and in accordance with the KWBA HCP/NCCP and IA, the Authority executed financial guarantees with the Wildlife Agencies in 1997.

The purpose of the guarantees is to ensure the Authority’s performance of mutually agreed upon covenants, conditions, and obligations. The guarantees include two promissory notes with principal amounts of \$200,000 and \$300,000 which are secured by Deeds of Trust and Subordination Agreements.

Notes to Basic Financial Statements

The \$200,000 Ongoing Management Note requires the Authority to pay principal and interest on demand if the Authority violates any provision of the KWBA HCP/NCCP or IA while the 75-year permit is in effect.

The \$300,000 Permanent Management Note requires the Authority to pay principal and interest if the Wildlife Agencies choose to call the note after the 75-year permit terminates, or following revocation of the permit, or following the Authority's relinquishment of the permit, whichever occurs first.

Litigation:

The Authority was involved in the mediation phase process regarding litigation involving the propriety of a series of amendments to the contracts between the State Water Project contractors and the DWR in 1995. In 2003, the trial court (the Court) approved a settlement agreement which, among other things, confirms that the Authority will continue to own and control the Kern Water Bank. Pursuant to the settlement, the Plaintiffs agreed to dismiss the validation cause of action without prejudice and to not re-file it if conditions of the settlement agreement were fulfilled. A new Environmental Impact Report (EIR) was finalized in May 2010 by the DWR. Three litigations challenging the new EIR and/or the amendments was filed by different Plaintiffs (Central Delta 1, Central Delta 2, and Rosedale, collectively the "Monterey Litigation"). The first phase of the Central Delta 1 litigation, again challenging the propriety of the contract amendments and transfer of the Kern Fan Element lands to the Kern County Water Agency (which was in turn transferred to the Authority), was dismissed by the Court on January 25, 2013 for not being timely filed. The second phase was regarding the adequacy of the EIR and on March 5, 2014, the Court rejected all Plaintiffs' claims that the new EIR was deficient, except as to a claim that the EIR was deficient in not adequately evaluating impacts of operation of the Kern Water Bank on groundwater, among other potential environmental impacts. On September 5, 2014, the Court held a hearing on the remedy for the deficient EIR. On October 2, 2014, the Court issued its ruling and subsequently issued a writ of mandate (2014 Writ) confirming that DWR would prepare a Revised EIR to evaluate potential environmental impacts of the Kern Water Bank and that the Kern Water Bank could continue to operate pursuant to an interim operating plan that was developed by the Authority and neighboring districts that were Plaintiffs in the action. Certain of the Central Delta 1 Plaintiffs appealed the Court's judgment in Central Delta 1. The Authority and others filed a protective cross-appeal. The appeals were fully briefed. The Rosedale Plaintiffs did not file an appeal. Central Delta 2 was stayed prior to trial pending the outcome of Central Delta 1 on appeal.

In September 2016, DWR certified a Revised EIR and filed its return to the 2014 Writ. On October 21, 2016, some of the Central Delta 1 Plaintiffs and the Center for Food Safety (CFS Plaintiffs) filed a new petition for writ of mandate lawsuit against DWR challenging the Revised EIR. On February 10, 2017, the Court issued an order for briefing and a joint hearing on August 18, 2017, to resolve all issues raised by the CFS Plaintiffs concerning the adequacy of the Revised EIR and any objections to the Court discharging the 2014 Writ.

Notes to Basic Financial Statements

After considering the parties' briefs and arguments at the August 18, 2017 hearing on the merits, the Court issued a ruling denying the CFS Plaintiffs' petition in its entirety, and subsequently discharged the 2014 Writ and issued judgment against the CFS Plaintiffs and in favor of DWR and the real parties in interest including the Authority and its member entities. Near the end of 2017, CFS Plaintiffs filed an appeal of the judgment. No party filed a cross-appeal.

In early 2018, DWR filed a motion to consolidate the Central Delta 1 appeals and cross-appeal and CFS appeal, which Plaintiffs/Appellants opposed. The Authority joined in support of the motion to consolidate. The motion to consolidate was granted, consolidating the appeals for purposes of oral argument and decision only.

On September 22, 2021, the Court of Appeal issued an opinion, later modified on denial of rehearing on October 21, 2021, which rejected all appeals and affirmed the trial court's judgments in Central Delta 1 and CFS in favor of defendant and respondent DWR, the Authority (and its member entities) and the other defendants and real parties in interest. (See *Central Delta Water Agency v. Department of Water Resources* (2021) 69 Cal.App.5th 170.) On January 5, 2022, the California Supreme Court denied review of the appellate opinion and trial court judgments. Subsequently, Central Delta 2 was dismissed with prejudice by all the plaintiffs and petitioners in that case. Accordingly, all of the Monterey Litigation cases have been finally settled or concluded in favor of DWR and the Authority (and its member entities) and the other defendants and real parties in interest.

On January 14, 2019, Buena Vista Water Storage District (BVWSD) filed a Petition for Writ of Mandate against the Authority and its member entities, challenging the Authority's final EIR for its Conservation and Storage Project relating to its application to appropriate Kern River water. The member entities have been dismissed. The case was transferred from Kern County Superior Court to Ventura County Superior Court (the Court) on April 15, 2019. After a trial hearing in the Ventura County Superior Court on August 19, 2020, the Court entered judgment in BVWSD's favor, finding that the Authority did not comply with California Environmental Quality Act (CEQA) on three grounds: (i) the EIR's project description was vague and uncertain with regards to the sources of water; (ii) the EIR's description and analysis of competing water rights was insufficient; and (iii) the EIR's analysis of impacts associated with long-term recovery operations was insufficient. The Court denied BVWSD's Petition on all other grounds. On January 7, 2021, the Authority appealed the Court's ruling and judgment to the Second Appellate District, Division 6. On February 23, 2022, the Court of Appeal issued an opinion, later modified (with no change in judgement) and published on March 22, 2022, wholly and completely reversing the Court's judgment, ruling that the Authority's EIR complied with CEQA, and ordering BVWSD to pay the Authority's costs on appeal. On April 6, 2022, BVWSD filed a Petition for Rehearing with the Court of Appeal. On April 11, 2022, the Court of Appeal further modified its opinion (with no change in judgement) and denied rehearing. (See *Buena Vista Water Storage Dist. v. Kern Water Bank Authority* (2022) 76 Cal.App 5th 576.)

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF THE BASIC FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
Kern Water Bank Authority
Bakersfield, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Kern Water Bank Authority (the Authority) as of and for the fiscal year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise of the Authority's basic financial statements, and have issued our report thereon dated May 10, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the basic financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Authority's basic financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
